HORIZON GLOBAL

Horizon Global is the #1 designer, manufacturer and distributor of a wide variety of high-quality, custom engineered towing, trailering, cargo management and other related accessory products in North America, Australia and Europe.

The logo for Bargman, featuring the word "Bargman" in a bold, black, sans-serif font with a red horizontal bar above the "a" and below the "n".

Bargman® is the brand of choice in the **light-duty trailer and recreational vehicle markets**. With specialization in assemblies with multiple connections, varying wire lengths and mixed technologies, Bargman® has become the RV industry's most widely known lights.

The logo for Bulldog, featuring a red shield with a white bulldog's head inside, with the words "TOUGH & TRUSTED" above and "BULLDOG" below.

BULLDOG®

The BULLDOG® line is characterized by unmatched strength, reliability, safety and value; count on BULLDOG® to be Tough and Tested™. Gooseneck hitches, gooseneck couplers, jacks, trailer couplers and Wedge-Latch™ elements feature a high-strength, heavy-duty design that makes them the **toughest trailer components** available today.

The logo for Draw-Tite, featuring a blue lightbulb icon with a white filament, followed by the word "DRAW-TITE" in a bold, blue, sans-serif font with a registered trademark symbol.

Draw-Tite® was born out of a passion for outstanding performance and has come to represent **one of the best custom-fit vehicle products** available today. Each hitch designed must pass rigorous tests to become Tested Tough™. Draw-Tite® is the brand of choice for years of dependable service.

The logo for Fulton, featuring the word "FULTON" in a bold, blue, sans-serif font with a registered trademark symbol.

Fulton® performs best when the weather is at its worst. When innovative design is combined with quality and value, the result is a brand that is the obvious choice for recreational and marine applications everywhere. The Fulton® line of trailer jacks, winches, and couplers has become the **industry standard for light and medium-duty trailering**.

The logo for Reese, featuring a blue square icon followed by the word "REESE" in a bold, black, sans-serif font with a registered trademark symbol.

REESE® has become a household name in the **heavy-duty towing** industry. From heavy duty fifth wheels and pin boxes, to weight distribution systems to control sway, REESE's proven designs exceed industry standards, making it the brand of choice when performance is the expectation.

The logo for Tekonsha, featuring a green and blue stylized arrow icon followed by the word "TEKONSHA" in a bold, black, sans-serif font with a registered trademark symbol.

Tekonsha® has evolved to become a **trusted name in towing safety**. The core product line consists of brake controllers, electrical wiring, trailer brakes, ModuLite® Modules and T-One® T-Connectors. Smooth, predictable stopping at all speeds has made the Tekonsha® Prodigy®, Primus® and Voyager® trailer brake controls the best in class and most popular on the market.

The logo for Wesbar, featuring the word "Wesbar" in a bold, blue, sans-serif font with a registered trademark symbol.

Wesbar® family of vehicle lighting and electrical products offers both incandescent and LED lighting for vehicles and trailers, plus an extensive line of 12 volt electrical connection products, Wesbar® has continued to provide an **all-encompassing selection of options for agricultural, industrial, marine, recreation and utility manufacturers**.

BULLDOG® Trailer Jacks are the unquestionable leader in the trailer industry. Since 1919, **BULLDOG®** has been manufacturing the industry's most Tough and Trusted™ products for all your trailering applications. Our proven quality, performance and versatility has all of your applications covered, whether it's for Industrial Triple Axle Equipment Hauler or Luxurious Horse Trailer with living quarters to single axle utility trailers **BULLDOG®** has the jack and coupler to meet your application. Legendary rugged performance **BULLDOG®** pedigree is built into every product we manufacture.

As the industry's leader for high performance marine jacks, **Fulton®** is the proud manufacturer of the **F2® Jack**, the market leader in Engineering and Styling. The industry's core Marine Jack, **XLT™** product family is also manufactured by **Fulton®**. Trailer jacks play a crucial part in making your boat, trailer or personal power craft experience safer, more enjoyable, and more convenient. With an effective, well-designed trailer jack that fits your application and personality, you'll be able to easily couple and uncouple your rig, and be safer in the process. **Fulton®** Marine Jacks are specifically engineered for use in and around wet areas, and are designed to look good in the process.

VELOCITY SERIES™ POWERED HIGH SPEED JACKS

- Fast, Powerful, Easy to Install
- OEM and Aftermarket Industrial, Horse and Livestock, and RV Applications
- Mounts without welding and requires no hydraulic oil, hoses, or pumps
- Fully Powered – 12,000 lbs. capacity per leg with Proprietary high-speed system
- 24 in. of travel
- Resists corrosion with premium powder coat finish

141401

XLT™ POWERED MARINE JACK

- Patented spring-loaded drop leg pull pin positions quickly with 22 in. total travel
- Powered through 7-way or dedicated 12V DC battery
- Premium Sharkskin finish for optimum corrosion resistance
- Front and rear facing LED lights for low light conditions
- Corrosion resistant stainless steel internal ACME screw
- Easy to install - simply bolt to frame and hook up wiring

500199

500200

4K POWERED A-FRAME JACK

Tough and Trusted BULLDOG® presents a Powered Jack with all the capacity and features you want.

- Heavy duty 4,000 lbs. lift capacity
- Drop leg with spring loaded pull pin
- Makes setting up easier with a handy built-in level right where you need it most
- Deploys and hooks up easily at night with on-board LED courtesy light
- Works in case of power loss with emergency manual override capability, easily accessible from the top
- Manual override crank included
- Lasts for years with industry-leading BULLDOG® performance, known worldwide for unmatched strength, durability, and side load capacity
- Retains like-new appearance with corrosion-resistant surfaces
- 5-year limited warranty

F2® MARINE AND RECREATIONAL JACKS

Fulton®, the industry leader for high performance marine jacks, is proud to introduce a revolution in trailer jack engineering. The F2®, designed for use with marine, recreational and utility trailers, continues the Fulton® heritage of innovation rethinking every feature and challenging industry conventions. The result is a reengineered high quality product that will transform the industry. It's so strong and reliable that Fulton® is backing it with an unprecedented limited lifetime warranty.

- 35% faster lifting action than conventional jacks
- Ergonomic design - crank, release pin and integrated wheel wedge are made of strong, engineered plastic for a comfortable touch
- Stylish design - compliment your boat and customize your trailer's styling
- Twin track and wide track versions available
- Available in bolt-on and weld-on versions for up to 5 in. tongues
- Handle Hold-Up secures handle to jack tube when in stowed position
- Lifetime limited warranty

MARINE AND RECREATIONAL JACKS

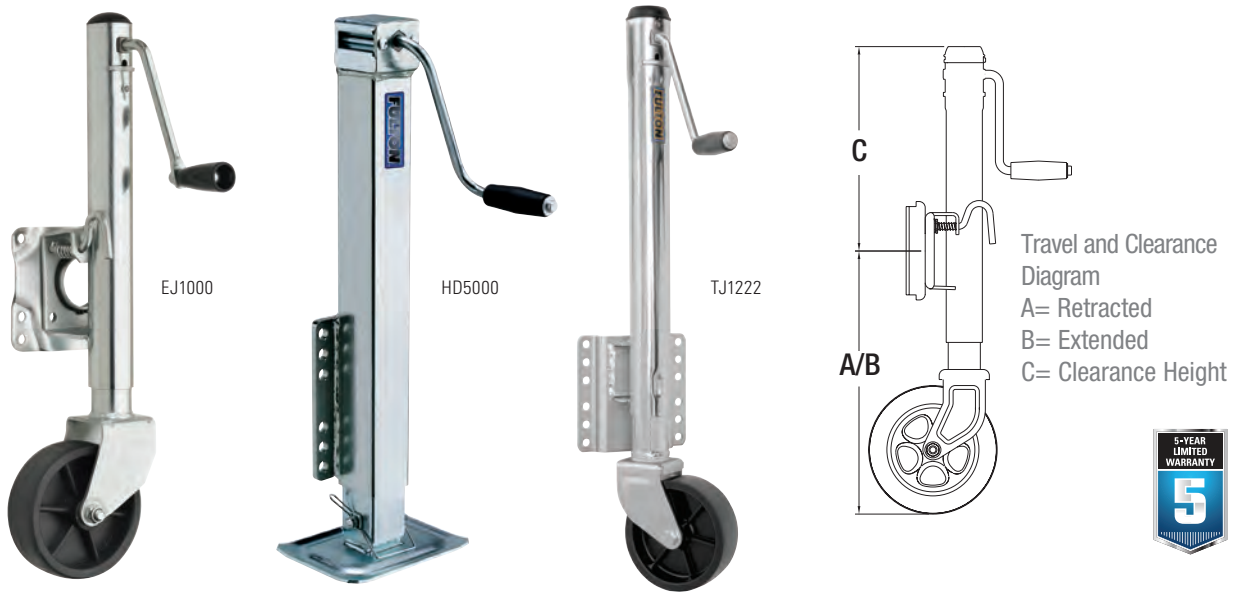

- Designed for use with marine and utility trailers, Fulton® brand tongue jacks are time- tested and application-proven. Our bolt-on versions include all necessary mounting hardware. For weld-on applications, we offer two styles of mounts for both 1/2 in. and 3/8 in. pull pin models.
- The Fulton® brand patented bolt-thru swivel mounts use 3-D formed heavy-gauge steel stampings and a proprietary bushing material for a mount with minimal deflection and maximum support. All mounts fit up to a 3 in. x 5 in. trailer frame.
- Extensive choice of popular models, sidewind crank with round or square tubes
- Strong proprietary bushing materials
- Stable formed heavy-gauge steel construction
- Dependable design
- Lift capacity from 400 lbs. to 5,000 lbs.

* 600 hour salt spray rating per ASTM B117

MARINE AND RECREATIONAL JACK PARTS AND ACCESSORIES

Part Number	Description
Mounting Kits	
500286	Bolt-On Mounting Hardware Kit
500349	Bolt on Mounting Kit for XP Series Jacks
0933325S00	Mounting Hardware and Bushing for XP Bolt-Thru Swivel Mount
P9012-00	Weld-On Mount and Hardware Kit, 1/2" Pin
Adapter Kits	
500320	Jack Accessory, XP to F2 Adapter Kit, For F2 Swivel Mount with 4" Frame
Handle Kits	
0933301S00	Includes (1) Handle Assembly with Plastic Handle Roller, (1) Groove Pin, and (1) Flanged Bushing TJ503/C , TJU503 , PMJ53 , TJ507/C , PMJ75 , CS750 , GR700/TJ712 , XP10/L/W/WC, XP100
0933305S00	Includes (1) Handle Assembly with Plastic Handle Roller, (1) Groove Pin, and (1) Flanged Bushing TJ1055 , TJ1057 , TJ1222 , TJ1255 , TJD125 , TJ122F , XP15/L/W/WC, XP15L, HD2500
Bevel Gear Kits	
0933302S00	Includes (2) Gears, (1) Groove Pin, (1) Pin, (1) Washer, and (1) Flanged Bushing TJ503 , XP10 (all 1,200 lbs. capacity)
0933306S00	Includes (2) Gears, (1) Groove Pin, (1) Pin, (1) Washer, (1) Spacer, and (2) Flanged Bushings TJ1055 , TJ1057 , TJ1222 , TJ1255 , TJD125 , TJ122F , XP15/L/W/WC, XPF15L, HD2500
Plunger Pin Kit	
0933307S00	Includes (1) 1/2" Plunger Pin, (1) Plunger Pin Cap, (1) Washer, (1) Cotter Pin, and (1) Spring TJ1055 , TJ1057 , TJ1255 , TJD125 , TJ122F , XP15/L/W/WC, XPF15L XP10 (all 1,200 lbs. capacity)
Wheel Repair Kit	
6811S00	All 6" Models Including TJ600T (Excluding TJD125, TJD103)
0933323S00	All 8" models
Caps	
500325	Cap - HD2500 Jack
500322	Cap - TJ1200 and EJ1000
500323	Cap - XP10
500324	Cap - XP15

NOTE: RED part numbers indicate discontinued items.

STANDARD ECONOMY A-FRAME ROUND JACK WHEEL AND FOOT OPTIONS

Part Number	Description
1400700340	Removable Footplate, 2.10" Tall, Fits 2" Inner Tube, Includes Pull Pin Assembly, Clear Zinc Finish, 5,000 lbs. Capacity
1400750340	Removable 6" Caster, Includes Pull Pin Assembly, Clear Zinc Finish, 1,200 lbs. Capacity

STANDARD ECONOMY ROUND JACKS

- Designed for use with recreational and utility trailers
- Bolt-on versions include all necessary mounting hardware
- Weld-on versions include mating mount and retaining ring
- A-frame models have black painted outer and inner tubes, all other models have black painted outer and clear zinc inner tubes

PQM19-00	Male, Weld-On, 5/8" Pin, 2.5" O.D.	Bulk

5K SQUARE JACKS

Compared to round jacks of similar capacities, the BULLDOG® 5,000 lbs. support capacity square jack dramatically improves side load strength while maintaining the economical benefits of lower capacity jacks. The extra side load capacity you need without the costs of increasing overall capacity.

- 12 gauge square tube is 70% stronger than 12 gauge round tube for more side load and support strength with the same lift capacity
- 4.62 in. outer tube overlap at full extension for additional side load strength
- Weather-resistant materials and coatings. Painted outer tubes, clear zinc inner tubes
- Proven, reliable mechanical elements provide dependable strength and long-lasting, durable performance
- Mounts included in this series of jacks

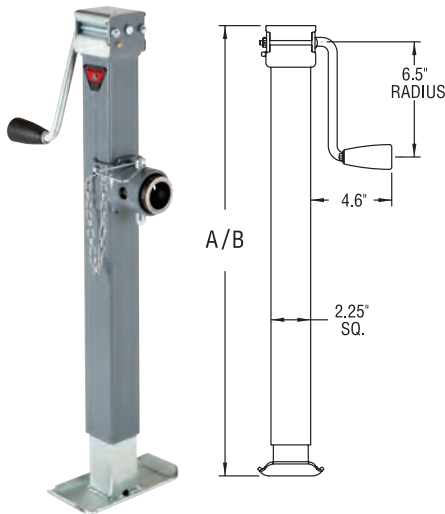

THE CHOICE WHEN APPLICATION REQUIRES COMPLIANCE WITH ASABE S485 STANDARDS

8K SQUARE JACKS

Tubular Swivel Mount - 190705

8K SQUARE JACKS

The BULLDOG® 8,000 lbs. support capacity square jack serves the agricultural, industrial, construction, horse/livestock trailer, and utility/cargo trailer markets. The compact design of these jacks makes them ideal for tight-fitting applications where 3 in. and 4 in. square tube jacks are too large.

- Use the painted outer tube as the final finish or primer
- Zinc-plated inner tube and drop leg
- 4.7 in. outer / inner tube overlap - results in optimal side load performance
- 5/8 in. screw stem - provides insurance against screw stem twisting off
- Patented screw nut stop - prevents screw and/or nut damage when jack is fully extended
- Topwind models - bushing in top cap, eagle claw grip
- Sidewind models - 1/4 in. cross pin connects gear train to screw stem - guards against shearing jack pin sidewind models - 1:1.33 gear ratio

10K SQUARE JACKS

The BULLDOG® 10,000 lbs. support capacity square jacks “fills the gap” between 8,000 lbs. and 12,000 lbs. square jack product offerings. If the existing 8,000 lbs. support capacity square jacks are too small or the 12,000 lbs. support capacity square jacks are too large, look no further – your application and pricing requirements have been met!

- Highest quality and best performing jack available in the marketplace today, a total balance between capacity, speed, and effort
- Heavy-gauge 3 in. square tubing allows for direct weld mounting wherever the application allows – no burn through
- Use the painted outer tube as the final finish or primer
- Zinc-plated inner tube and drop leg
- Heavy-duty base, with reinforcement ribs, zero water retention
- Precision manufactured for long term reliability and smooth, easy cranking
- Grease zerk for easy lubrication as needed
- Oil-impregnated bushing for improved bearing and gear life
- Direct weld to outer tube is standard
- Sidewind models - 1:1.86 gear ratio

12K HEAVY DUTY SQUARE JACKS

Strong, durable, and sturdy, the BULLDOG® 12,000 lbs. support capacity square jack is the BIG reason why BULLDOG® has carried the load in agricultural, construction, heavy-duty utility, and horse/livestock trailer industries since 1923. All BULLDOG® 4 in. square jacks are rated for 12,000 lbs. support capacity and 10,000 lbs. lift capacity. The strength of the product, plus the wide variety of styles, makes this jack the best choice in its product class.

- 4 in. square tubing, 7-gauge superior alloy steel
- Painted outer tube, inner tube, and drop leg
- Drop leg option with 5 positioning holes
- Easy-access gear box with grease fitting for routine maintenance
- Spring return drop leg or non-spring return drop leg
- 12.5 in. screw travel, 13.5 in. of additional adjustment with drop leg
- Front facing drop leg plunger pin or side facing drop leg plunger pin
- Painted (with or without labels) or powder paint optional
- Sidewind models - 1:1.5 gear ratio
- Direct weld to outer tube is standard
- Sidewind models - 1:1.86 gear ratio

TWIN CAM™ DROP LEG JACK

The industry's strongest drop leg jack.

The BULLDOG® Twin Cam™ features a convenient, enclosed pin mechanism with "twin cam" action that will quickly make this heavy duty, drop leg jack the industry standard.

Twin Cam™ Drop Leg Mechanism:

- The BULLDOG® Twin Cam™ Drop Leg mechanism allows an increase in the vertical static capacity by using two 3/4 in. pins to transfer forces between the drop leg and inner tube of the jack
- The unique Twin Cam™ drop leg mechanism actuates the drop leg pins in both directions, giving the operator full control over engagement and disengagement of the drop leg pins
- The design does not rely on spring pressure alone to keep the pins in the locked position
- Patent pending
- The enclosed Twin Cam™ drop leg mechanism keeps dirt and debris from interfering with the engagement of the drop leg pins
- The Twin Cam™ drop leg mechanism maintains tighter alignment between the drop leg tube and inner tube by having engagement on both sides of the drop leg tube

Two-Speed Model (also includes):

- Convenient cranking ratios allow for fast operation under a wide range of loading conditions. Drop leg provides quick adjustment
- High speed cranking ratio of 9 turns per in. is convenient for loads up to 12,500 lbs.
- Low speed ratio of 29.5 turns per inch allows lifting loads up to 25,000 lbs.

Features:

- Easy access grease fittings allow for lubrication of internal jack gears and jack screw/nut
- Patented screw stop prevents screw and/or nut damage when the jack is fully extended, keeping the screw in good condition for maximum screw/nut cycle life
- Patented assembly design makes the gears, jack screw/nut, and other internal components easily serviceable 12.5 in. of screw travel
- Drop Leg features 5 positions with 13.5 in. of adjustment
- 10 in. x 10 in. heavy gauge steel foot plate
- Heavy duty 1 in. diameter steel input shaft
- Spring return and non-spring return drop legs available
- 10 in. x 10 in. heavy gauge steel foot plate
- Heavy duty 1 in. diameter steel input shaft
- Spring return and non-spring return drop legs available

Optional Accessory:

- Compatible with BULLDOG® Powered Drive electric motor system (reduces lift capacity to 7,500 lbs.)

2-SPEED SQUARE JACKS

2-SPEED SQUARE JACKS

The First 2-Speed Gearbox

Designed with a Drop Leg Jack in Mind

The BULLDOG® 2-speed 12,000 lbs. support capacity square jack makes cranking easier when fully loaded and faster when unloaded. In low gear, the ratio delivers full lifting power at a super-smooth, easy-lifting 27 turns per 1 in. (planetary) and 29 turns per 1 in. (traditional) of travel. In high gear, the cranking ratio is a speedy 9 turns per 1 in. of travel, the fastest in its weight class.

- State of the art 2 speed gearbox with power and speed for the most effective and efficient jack at all loads
- Designed for today's standard agricultural, construction and industrial trailer applications.
- User friendly design makes operation smooth and easy
- Engineered alloys for enhanced strength, stability and side load capability
- Planetary gearbox fits within the width profile of the jack's outer tube, eliminating the need for spacers
- Painted outer tube, inner tube, and drop leg.
- Crank sold separately

POWERED DRIVE KITS

- Designed for use with BULLDOG® 12,000 lbs. and Twin Cam™ jacks
- Lifts 50% more than competition
 - Lifts 3 in. per minute at typical working loads
 - Can be manually cranked in the event of power loss
- State of the art 12VDC electric motor
 - Quiet operation - 50% quieter than competitive units
 - Efficient use of electrical power - 60% more efficient than competitive units
 - Permanently lubricated to provide years of maintenance free use
- Custom designed wiring harness and rocker switch enclosed in a weather proof box
 - Utilizes a 25 amp circuit breaker with push button reset feature
- Can be used in both single and tandem jack applications Kit includes all necessary components for ease of installation
 - Powered drive assembly
 - Torque stop tube with energy absorption device
 - Terminal box, wiring harness and switch box
 - Hex coupling (not shown, required when using in a tandem jack application)
 - Weather resistant cover (not shown)

RACK / GEAR JACKS

750 lbs. A-Frame and Bolt-On

BULLDOG® experience and engineering know-how have produced a line of rack and gear jacks that are tough and trusted, the most preferred jacks used by trailer manufacturers in a variety of industries.

- Smooth-cranking 4 turns per in. of travel
- All-welded steel gear box with proven reliability for long term use at rated load
- Gray primer-painted steel wheel and gear box with weather-resistant clear zinc-plated rack post
- Custom designs available

1,200 lbs. Heavy-Duty

These heavy-duty rack jacks exemplify the BULLDOG® reputation for strength, providing additional lift capacity to a full 1,200 lbs. Specially designed and manufactured to BULLDOG® unparalleled standards, they are ideal for heavier trailers and greater tongue weights.

- Powerful heavy-duty gear box with special steel alloy helical gear for extra lift capacity
- Extra heavy-duty gauge post for maximum side load strength
- Specially designed gusseted caster bracket for increased stability
- Superior extension capabilities (up to 26.5 in. on the HD165WX model)
- Red oxide primer-painted steel wheel and gear box with weather-resistant yellow zinc-plated rack post

RACK / GEAR JACK MOUNTING OPTIONS

161 Series - L-Bend Bracket Weld-On. Welds to Side and Bottom of Tongue

162 Series - L-Bend Bracket Bolt-On. Fits up to 4" Square Tongue

165 Series - A-Frame, Welds or Bolts to Top of A-Frame Coupler

169 Series - Bolt-On, Fits up to 3" x 5" Rectangular Tongue

RACK / GEAR JACK WHEEL AND FOOT MOUNTING OPTIONS

Caster Wheels - "R" Models. Polyolefin Wheel, 750 lbs. Capacity

Steel Wheel - "W" Models. 750 lbs. Capacity, 1,200 lbs. Capacity (Heavy Duty)

Disc Foot - "D" Models. Welded to Jack Post, 750 lbs. Capacity

*Gear boxes and rack post also sold separately. ♠ DENOTES MOST POPULAR

NOTE: Contact Price List or Customer Service for package quantities and full part number. Other custom-made designs are available upon request.

800144	Service Kit Containing the Sidewind Crank 10.50", Bearing, Gears, Pins and Bushings for 10,000 lbs. Capacity 180 Series Sidewind Jacks	Poly Bag
500285	Sun Gear and Stub Shaft Assembly and Bushings for 12,000 lbs. Capacity Two Speed Planetary Gear Box	Poly Bag
500212	Gear Kit Including, Pins and Bushing – 12,000 lbs.	Poly Bag
Retaining Ring Kits		
500241	Swivel Retaining Ring, Fits Most Jack Capacities, 150 Series, 160 Series and 170 Series	Clam
Assembly Kit		
500217	Screw and Nut Assembly, Bearing, Support Washer and Retaining Pins for 12,000 lbs. Capacity BULLDOG Sidewind Jacks	Poly Bag
500250	Screw and Nut Assembly, Bearing, Support Washer and Retaining Pins for 12,000 lbs. Capacity BULLDOG Topwind Jacks	Poly Bag
Gear Box Cover		
500205	Gear Box Cover for 3,000 - 8,000 lbs. Capacity Sidewind Jacks, Includes Hardware	Poly Bag

KNOBS

Part Number	Description	Packaging
500248	Black Knob, Tear Drop, 139 Series, 159 Series, Sidewind 170 Series and 190 Series, Crown, 2,000 - 5,000 lbs.	Clam
500246	Red Knob, BULLDOG 150 Series, 160 Series and Topwind 170 Series, 2,000 - 5,000 lbs.	Clam

SIDEWIND CRANKS

Part Number	Description	Packaging
500256	Sidewind Crank with 5.80" Radius Assembly and Gear Kit, 150 Series with Plastic Cap, 2,000 lbs.	Clam
500105	Sidewind Crank with 6.50" Radius Assembly with Black Knob, 139 Series, 159 Series and 170 Series, Crown 2,000/3,000/5,000 lbs.	Clam
500171	Sidewind Crank with 8.50" Radius Assembly with Black Knob, 190 Series Square Jacks, Crown 7,000/8,000 lbs.	Clam
015181	Sidewind Crank, Vertical Clevis with 13.50" Radius, Black Primed Finish, Hardware Included	Bulk
800102	Sidewind Crank Assembly with 13.50" radius, Mounting Hardware Not Included, Extends 17.50" from the Jack, Black Primed Finish, Horizontal Clevis, Sidewind Handle	Bulk
701466	Removable Sidewind Crank with 13.5" Offset Radius, All Zinc-Plated Crank, Dual Handle Grips for Cranking and Shifting, For use with OEM Supplied Outboard Bushing or may be Attached Directly on Jack Gearbox	Bulk
800090	Sidewind Crank, Horizontal Clevis with 13.50" Radius, Black Primed Finish, Hardware Included	Bulk
8001090283	Sidewind Crank Assembly with 13.50" Radius, Mounting Hardware Included, Extends 20" from the Jack, Black Prime Finish, Vertical Clevis	Bulk
500312	Handle Clip	Bulk
800148	Sidewind Crank, 13.5" Radius with Soft Touch Handle Grip for 12,000 lbs. Jacks with 13/16" Hex Socket	Bulk
HDDS 0201	Shaft Handle, Hex Drive - Zinc for 800148	Bulk

TOPWIND CRANKS

Part Number	Description	Packaging
500180	Topwind Crank with 6.75" Radius, Assembly with Red Knob, Topwind 150 Series, 160 Series and 170 Series, 2,000 - 5,000 lbs.	Clam
500148	Topwind Crank with 9.00" Radius, Assembly with Black Knob, Topwind 190 Series, 7,000/8,000 lbs.	Clam
500344	Replacement Part, 12" Topwind Handle for 10K Square Jack	Poly Bag
800075	Topwind Crank 1" Tubing with 9.50" Radius, 12,000 lbs. Square	Bulk

Fulton® has produced the finest winches in the industry for over 50 years. The result of engineering innovation, superior materials, and rugged manufacturing, Fulton® Winches offer the greatest applications coverage for your unique needs. Ranging from the stylish and innovative F2® Winch to the wide variety of one-speed, two-speed winches and brake winches, Fulton® offers a style and capacity to meet virtually every need.

The Fulton® F2® Winch brings an innovative and attractive design that will update any marine trailer. Its clean, high-tech look is sleek and contemporary, and will complement the look of even high end boat and trailer combinations. Fulton® continues to evolve industry-changing improvements in both performance and style with the Fulton® F2® series of products.

Since 2012, Fulton® has been paired with the BASSMaster elite angler Brent Chapman. Brent relies on the F2® product line for both professional fishing tournaments, and trips with his wife and kids. Fulton® is proud to be represented by the 2012 Angler of the Year.

F2® 2,000 LBS. SINGLE SPEED TRAILER WINCH

- One piece corrosion resistant aluminum frame
- One piece corrosion resistant aluminum handle
- Dual gear drum operates smoothly
- Center drive enclosed ratchet system
- User-friendly pull-turn knob to engage ratchet plunger pin
- Left or Right handed handle attachment
- 4-position handle adjusts from 6 in. to 9 in.
- Includes 20 ft. strap with hook

FEATURED

XLT™ POWERED MARINE WINCHES

- Requires connection to a min. of a 650 CCA 12V DC battery
- Convenient wireless remote included
- Rugged strap includes swiveling hook to prevent twisting
- Power in / Power out and free spool
- 3-position guide so strap comes out straight
- Manual override using standard tools in case of power loss
- Easy to access light and winch control switches
- LED lights on back and bottom to help at dusk and dawn
- Patented E.I.S. Easy Install System - drop in bolts, apply lock ring, adjust bolts and tighten

F2® SERIES TRAILER WINCHES

- The F2® Winch addresses the need for attractive design in every element of a marine trailer. It complements the look of even high end boat and trailer combinations and continues the industry changing improvements in both performance and style of the Fulton® F2® series of products.
- Models available with 1,600, 2,000 and 3,200 lbs. capacity
- Attractive design to compliment the F2® jack series for a custom look
- Enclosed frame design for a sleek, strong stylish look to compliment your boat and customize your trailer
- Soft ergonomic adjustable handle
- Handle switches from left to right hand drive configuration - (1,600 and 2,000 lbs. models only)
- Features patented E.I.S. - "Easy Install System"
- Lifetime limited warranty

CE Compliant

SELECTING A PULLING WINCH

To Select Winch Capacity:

1. Minimum Winch Capacity = Maximum Weight of Boat, Including Motor, Fuel, Gear ÷ 2

-Example:

-Boat, Motor, Fuel, Gear Weight = 2,800 lbs.

$-2,800 \div 2 = 1,400$ lbs.

-Select 142201 Winch, rated at 1,500 lbs.

2. If shallow water or steep inclined launches are expected to be used ÷ Maximum Weight by 1.5

-Example:

-Boat, Motor, Fuel, Gear Weight = 3,100 lbs.

$-3,100 \div 1.5 = 2,067$ lbs.

-Select 142412 Winch, rated at 2,600 lbs.

SELECTING A LIFTING WINCH

To Select Winch Capacity:

1. Minimum Winch Capacity = Maximum Line Load

-Example:

-Maximum Line Load = 1,450 lbs.

To Select Winch Capacity:

1. Minimum Winch Capacity = Maximum Line Load

-Example:

-Maximum Line Load = 1,450 lbs.

COMMON PULLING APPLICATION

COMMON LIFTING APPLICATIONS

NOTE: Fulton Winches are not designed to be human hoists and should never be operated when there are persons on or under the load being moved.

NOTE: Fulton Winches are rated on the first layer of recommended line on the drum. For maximum efficiency use only the amount of line required. Derate the capacity 10% per additional layer of rope, strap, or cable.

SINGLE SPEED TRAILER WINCHES

Our full line of Fulton® single speed winches are designed to meet your toughest pulling demands. Our winches winch's solid drum gear construction delivers smooth cranking and durability. All models feature ZMAX™ 600 clear zinc finish for superior corrosion resistance.

- The 1,100 lbs. to 1,800 lbs. capacity models feature a 2-way ratchet with neutral pawl
- For end user convenience, models are available with the strap and hook included
- Our XLT™ Series include stylized thermoplastic covers and come standard with the strap and hook included
- 5-year limited warranty

• 600 hour salt spray rating per ASTM B117

TWO SPEED TRAILER WINCHES

Make light work of heavy loads with Fulton® brand two-speed winches. One fast speed for quick pulling, a second low speed for increased mechanical advantage.

- Our shift lock design allows changing gears without moving the crank handle from shaft to shaft. Just lift the shift lock and slide the shaft into the desired gear position. Shift lock holds the shaft in gear.
- Neutral, free-wheel position allows quick line pay out without spinning the handle.
- Optional handbrake kit no. 501201 purchased separately and available for all two-speed winches and can be installed after the winch is mounted.
- Our XLT™ Series include stylized thermoplastic covers and come standard with the strap and hook included.
- 5-year limited warranty

• 600 hour salt spray rating per ASTM B117

501135	Replacement Part, Ratchet Spring, for all 2-Speed Models	Bagged

NOTES:

1. Winch mounting hardware sold separately. Refer to instruction sheet for recommended bolt size and grade.
2. Fulton brand two-speed winches are designed for boat trailer and other pulling applications, which require the freewheeling feature of ratchet type winches. If moving loads requiring vertical lifting, or positive load control in both directions, choose a Fulton brake winch.
3. All Fulton brand winches are rated on the first layer of recommended rope, strap, or cable. The winch load capacity must be derated as additional layers are used. Derate the capacity 10% per additional layer of rope, strap, or cable.
4. Fulton brand winches are NOT designed to be human hoists and should never be operated when there are persons on, around, or under the load being moved.

143200

BRAKE WINCHES

- Fulton® self-activating automatic brake winches hold the load securely when the crank handle is released
- Popular applications include construction light towers, grain augers, manual fork lifts, and boat lifts
- Drum hubs are 10 times the recommended cable size to maximize cable life
- For especially demanding applications select models feature covered drums and gear trains, along with a dual ratchet system

NOTES:

1. Winch mounting hardware sold separately. Refer to instruction sheet for recommended bolt size and grade.
2. Fulton brand two-speed winches are designed for boat trailer and other pulling applications, which require the freewheeling feature of ratchet type winches. If moving loads requiring vertical lifting, or positive load control in both directions, choose a Fulton brake winch.
3. All Fulton brand winches are rated on the first layer of recommended rope, strap, or cable. The winch load capacity must be derated as additional layers are used. Derate the capacity 10% per additional layer of rope, strap, or cable.
4. Fulton brand winches are NOT designed to be human hoists and should never be operated when there are persons on, around, or under the load being moved.

BULLDOG® Collar Lok™ forged head couplers are the strongest in the industry and designed for the most rigorous and abusive application and user, "Tough and Trusted" since 1908. The design features of the **BULLDOG® Collar Lok™ Coupler** make it the only automatic and continuous tight ball fit in the industry and the distinctive and patented **Collar Lok™** appearance. The hinged ball socket design for easier alignment and hook-up, plus a clear visual indication of proper closure. The **BULLDOG® Collar Lok™ Couplers** are in compliance with SAE standard J684.

Equally impressive is the **BULLDOG®** patented "**Wedge-Latch®**" Cast Coupler is offered in the heavy-duty A-frame design and in the adjustable coupler product family to assure level operation for trailers when pulled by a variety of different vehicles. Also in compliance with SAE standard J864.

See Page C-4

BX1® GOOSENECK COUPLERS

The **BULLDOG® BX1®** coupler is the result of generations of design expertise and field experience. Incorporates innovative features that revolutionize the benefits available from a gooseneck coupler.

- Offers flexible mounting options with Next Generation locking plate coupler
- Easy hooking up, adjusting vertical height, and disconnecting
- Maintains smooth operation over time with grease fittings for every important operating part
- Operates easily with one hand thanks to new locking handle design
- Continuous tight ball fit - ever-increasing cam tightening mechanism
- Protects against wear with enclosed locking pin mechanism
- Integrated feature to allow pad-locking the coupler to the ball (lock not included)
- Guides ball into socket more easily letting you miss by more than an inch with bottom locking plate 50% larger than competitors
- Lengthens life of locking mechanism with oil-impregnated bushings

1289130300

FEATURED

WEDGE-LATCH® CAST COUPLERS

The patented **Wedge-Latch®** ball clamp allows for quick hook-up and disconnect yet strong and secure on the road meeting the SAE J684 standard. The extremely popular 50 degree, A-frame coupler is configured to mate up with a round tube jack or square tube jack and is available in a weld-on or bolt-on version. The replaceable latching hardware allows for longer service life.

- Quick and easy to engage
- Strong and secure on the road
- Patented **Wedge-Latch®** ball clamp design
- Quick to hook up and disconnect
- In compliance with SAE standard J684

TOUGH & TRUSTED PERFORMANCE

40K GOOSENECK COUPLER

HEAVY DUTY

- 40,000 lbs. max capacity
- Unmatched strength

EASY TO USE

- Flexible mounting options
- Simple hook-up, vertical height adjustment, and disconnect
- Operates easily with one hand
- Maintains smooth operation over time

HIGH TECH

- Continuous tight ball fit - ever increasing cam tightening mechanism
- Guides ball into socket more easily - allowing you to miss by more than an inch
- Superior ball fitment and reduced jarring
- Innovations that improve security, service life, and functionality

**NEXT
GENERATION
LOCKING PLATE**

BX1® GOOSENECK COUPLERS

The BULLDOG® BX1® coupler is the result of generations of design expertise and field experience. Incorporates innovative features that revolutionize the benefits available from a gooseneck coupler.

- Offers flexible mounting options with Next Generation locking plate coupler locking mechanism
- Easy hooking up, adjusting vertical height, and disconnecting
- Maintains smooth operation over time with grease fittings for every important operating part
- Operates easily with one hand thanks to new locking handle design
- Continuous tight ball fit - ever-increasing cam tightening mechanism
- Protects against wear with enclosed locking pin mechanism
- Integrated feature to allow pad-locking the coupler to the ball (lock not included)
- Guides ball into socket more easily letting you miss by more than an inch with bottom locking plate 50% larger than competitors
- Lengthens life of locking mechanism with oil-impregnated bushings
- Allows shorter retracted length and less wasted length for trucks with high bed height via low-profile locking mechanism
- Fits ball better and reduces jarring through contour-formed edge on bottom locking plate
- Delivers unmatched strength through heavy-duty construction
- Innovations that improve security, service life, and functionality
- New ball pocket design provides contact on both sides of the ball for substantially improved pull out strength - the only sliding-plate design that transfers part of the load to the top locking plate rather than only the bottom locking plate
- In compliance with SAE standard J2638

Patents Pending.

ROUND GOOSENECK COUPLERS

BULLDOG® gooseneck couplers are quick and easy to engage and strong and secure on the road. Our unique, patented, extruded locking plate design and high-strength steel components make BULLDOG® gooseneck couplers 65% stronger than similar products.

- Easy-grip locking handle is accessible from any position, even while wearing a glove
- Self-centering locking plate lets you miss the ball by more than an inch
- Tight ball fit reduces jarring when changing speeds or on rough roads
- Heavy-duty construction provides unmatched strength
- User-friendly design is simple to use
- Quick to hook up and disconnect
- Easy vertical adjustment
- In compliance with SAE standard J2638

SQUARE GOOSENECK COUPLERS

You won't find a coupler that's faster or easier to use than the square gooseneck from BULLDOG®. Its user-friendly design makes hookup and release swift and secure.

- Easy-grip locking handle is accessible from any position
- Self-centering locking plate lets you miss the ball by more than an inch
- Tight ball fit reduces jarring when changing speeds or on rough roads
- Heavy-duty high-strength fabricated steel components are as strong as heavy cast iron but lighter and less brittle
- User-friendly design enables quick, easy hookup and release
- Locking handle cover protects working parts
- Cam locking pin affords easy vertical adjustment
- Pinch bolt design
- In compliance with SAE standard J2638

ADJUSTABLE HEIGHT HEAVY DUTY COUPLERS

Designed for utility, horse/livestock, cargo, and construction trailer applications, BULLDOG® couplers are the strongest in the industry. The patented cast head “Wedge-Latch®” coupler design is offered in heavy-duty, A-frame, and convenient adjustable height models. Adjustable couplers assure level operation for trailers when pulled by a variety of vehicles. The replaceable latching hardware allows for longer service life.

- Quick and easy to engage
- Strong and secure on the road
- Patented Wedge-Latch ball clamp design
- Quick to hook up and disconnect
- In compliance with SAE standard J684

FOLD-AWAY™ HINGE KITS

- Fulton® High Performance Series Fold-Away™ hinge kits are ideal for boat trailers that can be just a little too long to fit inside smaller garages. These high quality, precision engineered products provide options for solving this common problem.
- Converts standard trailer tongues into fold-away configurations while preserving the existing coupler
- Delivers strength at the pivot point with precisely machined heavy duty hinges made from die cast steel
- Choose the Fold-Away™ product that fits your needs from among several varieties made to fit standard trailer tongue dimensions.

Bolt-On Hinge Kits:

- Bolt-on models feature Z-Max™ 600 hour clear zinc finish
- Easy to install bolt-on application with complete instruction manual
- Includes all mounting hardware
- Only recommended for trailers with steel tongues

Weld-On Hinge Kits:

- Weld-on kits with raw finish are ideal for painting or galvanizing
- Ideal for OEMs, a convenient option for custom trailers to utilize a pivot system
- Provides superior performance with unique patent pending offset design
- Works with actuators and standard coupler applications, note gross trailer weight
- Only recommended for trailers made of steel

Part Number	Description	GTW (lbs.)	Pivot Length (in.)	Finish	Packaging

The most trusted names in towing safety dating back to 1931, Tekonsha®, Wesbar® and Bargman® specialize in production, design and engineering of custom wire harnesses and cable assemblies. Our in-house overmolding and custom mold capabilities, design and engineering, and expertise in electronic cable assembly give us an unparalleled advantage in meeting our customers' needs. We specialize in assemblies with multiple connections, varying wire lengths and mixed technologies. We are known for design liaison expertise, quick response, building to AVL, customer service, and for consistently producing the best product, manufactured on time, to rigorous quality standards.

All wire and cable harness assemblies are produced at our world class manufacturing facilities. Currently supplying to various markets, including: Agricultural, Automotive, Recreational, Marine, Military and Utility.

BRAKE MATE™ 7-WAY PRE-WIRED ADAPTERS

- Includes all necessary parts required to completely install all brake controls. No other parts are necessary.
- Each Brake Mate™ Kit includes:
 - Pre-wired 7-way round connector
 - Scotch locks (5 pcs.)
 - 4-flat trailer end
 - Ring connectors (7 pcs.)
 - Heavy-duty flasher
 - Self tapping screws (8 pcs.)
 - Heavy-duty breakers (2 pcs.)
 - Tie straps (6 pcs.)

See Page D-19

FEATURED

7-WAY MOLDED CONNECTOR WITH CABLE TRAILER END

- 7-Way plastic trailer connector molded to heavy duty 7-Way insulated cable. Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Primary wire gauges within the insulated cable are: Black and White-10 gauge, Blue-12 gauge, Brown-Red-Green-Yellow-14 gauge
- Molded connector can be used with thermoplastic or metal 7-Way car end connectors

MULTI-FIT WIRING HARNESSSES

- Easy do-it-yourself tow vehicle wiring kits for applications without T-One® Connectors
- 16 gauge wire w/4-Flat dust cover

Part Number	Description	Packaging
20250	Vehicles with Common Turn and Stop Lights and Factory O.E.M. Wiring Harness, 12" Length	Clam
20251	Vehicles with Separate Turn and Stop Lights and No Factory O.E.M. Wiring Harness. Converter Specification of 2.1 Amps per Stop/Turn Circuit and 4.2 Amps per Tail Circuit. Includes Circuit Tester and 60" Leads	Clam
20252	Vehicles with Common Turn and Stop Lights and No Factory O.E.M. Wiring Harness. Includes Circuit tester, 72" Length	Clam

TAIL LIGHT CONVERTER WITH CIRCUIT PROTECTION

- The unit is rated for up to 2.1 amps for Turns/Stops circuits and 5.6 amps for Tail light circuit
- Adapts import and domestic vehicles with separate turn and stop lights (3-wire system) to standard trailer tail light wiring (2-wire system)
- Has integrated, resettable Short Circuit and Overload protection to safeguard itself and the tow vehicle from shorts and installation wiring mishaps
- Will work with either LED and/or Incandescent bulbs (vehicle & trailer)
- All solid-state components in potted encapsulation
- Will not work with vehicles with low-side switch or multiplex systems
- Includes integrated protective cover

Part Number	Description	Packaging
119178-012	Tail light Converter (12 pack)	Bulk
119178-050	Tail light Converter (50 pack)	Bulk

2 to 3-WAY TAIL LIGHT CONVERTER

- Allows RV's & other vehicles with 2 wire systems to tow vehicles and trailers with 3 wire systems

Part Number	Description	Packaging
118158	Connects a Tow Vehicle with a 2 Wire System to a Towed Vehicle with a 3 Wire System	Clam

TAIL LIGHT CONVERTER

- The unit is rated for up to 2.1 amps for Turns/Stops circuits and 7.5 amps for Tail light circuit
- Adapts vehicles with separate turn and stop lights (3-wire system) to standard trailer tail light wiring (2-wire system)
- Works with either LED and/or Incandescent bulbs (vehicle & trailer)
- Designed not to send feedback through the vehicle circuits
- All solid-state components
- Will not work with vehicles with low-side switch or multiplex systems
- Includes integrated protective cover

Part Number	Description	Packaging

TAIL LIGHT ISOLATING DIODE SYSTEM

- Allows motorhome to power lights on towed vehicle without power feedback

Part Number	Description	Packaging
118821	Tail light Isolating System with 4-Flat	Clam

POWERED TAIL LIGHT CONVERTERS ELIMINATE THE DRAIN ON YOUR VEHICLE'S ELECTRICAL SYSTEM

With a Power Module the additional power required to supply the trailer lights (represented by the red line) is supplied directly from the battery. Only a small amount of power is required from the fuse panel, turn signal switch, tail light harness and lamp out sensor, to signal when to illuminate the trailer lights.

Without a Power Module all the additional power required to supply the trailer lights pass through the vehicle's electrical system.

4-WAY FLAT WIRE HARNESSSES

WESBAR® 4-WAY FLAT WIRE HARNESSSES

20118-024	5-Way Flat Dust Cover (24 pack)	Boxed

WESBAR® 5-WAY FLAT WIRE HARNESSSES

- Color coded harnesses in various lengths available with car and trailer end connectors
- Trailer ends can be purchased in straight lengths, loops, wunside or wishbone harness styles
- Various length and combinations are available

702405

002409

707255

118016-025

5-WAY FLAT CAR END WIRE HARNESSSES

Part Number	Description	Packaging
702305	5-Flat 4 Ft. Car End , 18" Ground, 4 Ft. Auxiliary	Clam
002309	5-Way Flat 6 Ft. Car End, 6 Ft. Ground, 6 Ft. Auxiliary	Bulk

5-WAY FLAT TRAILER END WIRE HARNESSSES - WUNSIDE STYLE

Part Number	Description	Packaging
702405	5-Way Flat 18" Trailer End, Wunside Harness, 18" Ground, 18" Auxiliary	Clam

5-WAY FLAT TRAILER END WIRE HARNESSSES - WISHBONE STYLE

Part Number	Description	Packaging
002409	5-Flat 4 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 4 Ft. Auxiliary	Bulk
707283	5-Flat 4 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 4 Ft. Auxiliary	Bulk
002275	5-Way Flat 25 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 5 Ft. Auxiliary	Bulk
702275	5-Way Flat 25 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 5 Ft. Auxiliary	Bulk
002280	5-Flat 30 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 5 Ft. Auxiliary	Bulk
002285	5-Flat 35 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 5 Ft. Auxiliary	Bulk
002290	5-Way Flat 40 Ft. Trailer End, Wishbone Harness, 4 Ft. Ground, 5 Ft. Auxiliary	Bulk

5-WAY FLAT TRAILER END WIRE HARNESSSES WITH CAR END - WISHBONE STYLE

Part Number	Description	Packaging
707105	5-Way Flat 25 Ft. Trailer End, Wishbone Harness Kit with Hardware, 4 Ft. Ground, 5 Ft. Auxiliary with 6 Ft. Car End, 6 Ft. Ground, 6 Ft. Auxiliary	Clam

DOUBLE ENDED 5-FLAT WIRE HARNESS - EXTENSION STYLE

Part Number	Description	Packaging
707255	Double End 5-Way 2 Ft. Cord (5-Way Flat Car and Trailer Ends)	Clam

5-WAY FLAT WIRE HARNESSSES

- Fifth wire added for surge brake lockout or backup light circuit on today's newer trailers
- 7.5 amps maximum per circuit

Part Number	Description	Packaging
118016-025	5-Way Flat 72" Car End Wiring Harness (25 pack)	Bulk
118017	5-Way Flat 48" Trailer End Wiring Harness	Clam
118215	5-Way Flat 72" Car and Trailer End Loop	Clam

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.

6-WAY METAL CONNECTORS

- Heavy duty die cast corrosion resistant housing, spring loaded car end cover, and coded terminals
- Interchangeable with other standard 6-way connectors

Part Number	Description	Packaging
62	6-Way Metal Car End Only	Bulk
63	6-Pin Metal Trailer End Only	Bulk
118036-050	6-Pin Heavy-Duty Metal Car End Socket Connectors (50 pack)	Boxed
118037-050	6-Pin Heavy-Duty Metal Trailer End Plug Connectors (50 pack)	Boxed

6-SQUARE WIRE HARNESSSES

- Used on tent trailers
- 7.5 amps maximum per circuit

Part Number	Description	Packaging
30105	6-Way Square Connector Kit (Male and Female Ends), 12"	Clam
118104	6-Square to 4-Flat Adapter, 12" Loop	Bagged

6-WAY SUPER SEALED CAR ENDS WITH CABLE

- Pre-wired, 6-Way car end sealed with 2 ft., 4 ft. or 7 ft. of UL listed 6-Pin cable (White, Blue and Red 10 gauge; Yellow, Brown and Green 14 gauge)
- Solid brass terminals and housing of industrial-strength, glass-filled thermoplastic, door with EPDM rubber gasket and heavy duty stainless steel spring
- Manufactured with UL listed PVC for flexibility and features molded construction to encapsulate terminals and wires
- Patent Pending

Part Number	Description	Packaging
50-86-004	6-Pin Super Sealed Car End with 4 Ft. Cable	Bulk
50-86-007	6-Pin Super Sealed Car End with 7 Ft. Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.

50-61-008

6-PIN MOLDED TRAILER END CONNECTORS WITH CABLE

- 6-Pin heavy duty series molded connector available with two different wires
- Can be purchased with 3-10 gauge and 3-14 gauge wires (primary wire gauges; Yellow, Brown, Green - 14 gauge) or can be purchased with 6-14 gauge wires
- Both models feature encapsulated terminals and wires to form one weather resistant, non-corrosive assembly
- Molded connector can be used with thermoplastic or metal 6-Pin car end connectors
- Various length and combinations are available

50-61-104

Part Number	Description	Packaging
50-61-008	6-Pin Molded Trailer Cord with 8 Ft. Cable, 3-10 Gauge, 3-14 Gauge	Bulk
50-61-104	6-Way Molded Trailer Cord with 4 Ft. Cable, 6-14 Gauge	Bulk
50-61-106	6-Pin Molded Trailer Cord with 6 Ft. Cable, 6-14 Gauge	Bulk
50-61-108	6-Pin Molded Trailer Cord with 8 Ft. Cable, 6-14 Gauge	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.
NOTE: All Tekonska, Wesbar and Bargman 6-way flat wire harnesses conform to SAE J1129 interface specifications.

50-77-001

50-77-003

7-WAY THERMO-PLASTIC CONNECTORS

- 12-volt thermoplastic connector with brass contact to prevent corrosion
- Built-in cable clamp prevents wear on 7-way cable. Unique method of forming contact pins provides for easy connecting and disconnecting

Part Number	Description	Packaging
50-77-001	7-Way Plastic Car End Only	Bulk
50-77-003	7-Way Plastic Trailer End Only	Bulk

50-57-007

50-57-503

7-WAY METAL CONNECTORS

- 12-volt metal connector with plastic core
- Metal housing is 20 gauge steel, zinc plated to protect against corrosion
- Trigger grip for easy disconnection

Part Number	Description	Packaging
50-57-503	7-Way Metal Car End Only	Bulk
50-57-007	7-Way Metal Trailer End Only	Bulk

118020-050

118030

118021

50-87-002

002478

7-WAY STANDARD ELECTRICAL CONNECTORS

- Available with metal or plastic shell
- RV blade style

Part Number	Description	Packaging
118020-050	7-Way Plastic Car End Socket Connectors (50 pack)	Boxed
118021-050	7-Way Plastic Trailer End Plug Connectors (50 pack)	Boxed
118030	7-Way Metal Car End Socket Connector	Clam
118031	7-Way Metal Trailer End Plug Connector	Clam

7-WAY SUPER SEALED CAR ENDS WITH CABLE

- Pre-wired 7-way car end sealed with 2 ft., 4 ft., 7 ft. or 9 ft. of UL listed 7-way cable
- Solid brass terminals, housing of industrial-strength, glass-filled thermoplastic, door with EPDM rubber gasket and heavy duty stainless steel spring
- Manufactured with UL listed PVC for flexibility and features molded construction to encapsulate terminals and wires
- Patent Pending

Part Number	Description	Packaging
50-87-002	7-Way Super Sealed Car End w/2 Ft. Cable	Bulk
50-87-004	7-Way Super Sealed Car End w/4 Ft. Cable	Bulk
50-87-007	7-Way Super Sealed Car End w/7 Ft. Cable	Bulk
50-87-009	7-Way Super Sealed Car End w/9 Ft. Cable	Bulk

7-WAY MOLDED CONNECTOR WITH CABLE TRAILER END

- 7-Way plastic trailer connector molded to heavy duty 7-Way insulated cable. Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Primary wire gauges within the insulated cable are:
Black and White-10 gauge, Blue-12 gauge, Brown-Red-Green-Yellow-14 gauge
- Molded connector can be used with thermoplastic or metal 7-Way car end connectors

Part Number	Description	Packaging
002478	7-Way Molded Trailer End with 8 Ft. Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.

50-67-907

7-WAY MOLDED TRAILER END CONNECTORS WITH CABLE - RV CLOCKING

- 7-way plastic trailer connector molded to heavy duty 7-way insulated cable
- Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Primary wire gauges within the insulated cable are: Black and White-10 gauge, Blue-12 gauge, Brown-Red-Green-Yellow-14 gauge
- Molded connector can be used with thermoplastic or metal 7-way car end connectors
- Various length and combinations are available

50-67-004

Part Number	Description	Packaging
50-67-907	7-Way Molded Trailer Cord w/4 Ft. Cable	Bulk
50-67-001	7-Way Molded Trailer Cord w/6 Ft. Cable	Bulk
50-67-002	7-Way Molded Trailer Cord w/7 Ft. Cable	Bulk
50-67-003	7-Way Molded Trailer Cord w/8 Ft. Cable	Bulk
50-67-004	7-Way Molded Trailer Cord w/9 Ft. Cable	Bulk
50-67-005	7-Way Molded Trailer Cord w/10 Ft. Cable	Bulk
50-67-007	7-Way Molded Trailer Cord w/12 Ft. Cable	Bulk
50-67-103	7-Way Molded Trailer Cord w/15 Ft. Cable	Bulk
50-67-106	7-Way Molded Trailer Cord w/18 Ft. Cable	Bulk

50-67-410

7-WAY MOLDED TRAILER END WITH CABLE AND BREAKAWAY SWITCH

Part Number	Description	Packaging
50-67-410	7-Way Molded Trailer with 10 Ft. Cable and Breakaway Switch	Bulk

50-67-901

DOUBLE ENDED 7-WAY MOLDED TRAILER END WITH CABLE

Part Number	Description	Packaging
50-67-901	Double Ended 7-Way Molded Trailer Cord with 6 Ft. Cable	Bulk
50-67-210	Double Ended 7-Way Molded Trailer Cord with 8 Ft. Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.

54006-057

7-WAY HEAVY DUTY COLD WEATHER INSULATED BLUE SILICON TRAILER END WITH CABLE - RV CLOCKING

- 7-way trailer connector molded to cold environment heavy duty blue silicon 7-way insulated cable (rated to -55°C/-67°F)
- Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Primary wire gauges within the insulated cable are:
Black-White-Red-10 gauge, Blue-Brown-Green-Yellow-14 gauge
- Molded connector can be used with thermoplastic or metal 7-Way car end connectors

Part Number	Description	Packaging
54006-057	7-Way Cold Weather Molded Trailer Cord with 6 Ft. Cable	Bulk
54006-058	7-Way Cold Weather Molded Trailer Cord with 8 Ft. Cable	Bulk
54006-059	7-Way Cold Weather Molded Trailer Cord with 10 Ft. Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.
NOTE: Reference wiring diagrams for pin locations.

54006-009

7-WAY COLD WEATHER MOLDED BLUE SILICON TRAILER END CONNECTORS WITH CABLE - COLD WEATHER CLOCKING

- 7-Way trailer connector molded to cold environment heavy duty blue silicon 7-Way insulated cable (rated to -55°C/-67°F)
- Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Primary wire gauges within the insulated cable are:
Black-White-Red-10 gauge, Blue-Brown-Green-Yellow-14 gauge
- Molded connector can be used with thermoplastic or metal 7-Way car end connectors

Part Number	Description	Packaging
54006-009	7-Way Cold Weather Molded Trailer Cord with 6 Ft. Cable	Bulk
54006-010	7-Way Cold Weather Molded Trailer Cord with 8 Ft. Cable	Bulk
54006-015	7-Way Cold Weather Molded Trailer Cord with 10 Ft. Cable	Bulk
54006-016	7-Way Cold Weather Molded Trailer Cord with 12 Ft. Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.
NOTE: Reference wiring diagrams for pin locations.

54006-049

7-WAY CONNECTORS

- Durable connectors
- RV clocking

Part Number	Description	Packaging
54006-049	Coiled 7-Way Molded Trailer Connector, 6'	Boxed
54006-050	Coiled 7-Way Molded Trailer Connector, 8'	Boxed
54006-051	Coiled 7-Way Molded Trailer Connector, 10'	Boxed
54006-052	Coiled 7-Way Molded Trailer Connector, 12'	Boxed

118666

6-PIN / 7-WAY TRAILER EXTENSIONS

- Durable connectors
- 7 ft. lead reaches almost anywhere

Part Number	Description	Packaging
118666	6-Pin Connector - Extension Cable 7'	Bagged
118664	7-Way Connector - Extension Cable 7'	Bagged

118664

7-WAY MOLDED TRAILER END CONNECTOR REPLACEMENT KIT - RV CLOCKING

- Easy to install, complete with instructions
- Features self cleaning contacts, one foot of cable, butt connectors and weather resistant shrink tubing

Part Number	Description	Packaging
54-67-525	7-Way Molded Trailer End Connector Replacement Kit with 1 Ft. Cable	Bagged

54-67-525

7-WAY MOLDED TRAILER CONNECTORS WITH CABLE - TRAILER CLOCKING

- 7-Way plastic connector molded to heavy duty 7-Way insulated cable using trailer clocking
- Provides 7-Way connector contact color coding more conducive to horse and livestock trailers versus RV trailers
- Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Permits the trailer to have the clean appearance and environmental advantages of a sealed, molded 7-Way cord
- Primary wire gauges within the insulated cable are:
 - Black and White-10 gauge, Blue-12 gauge, Brown-Red-Green-Yellow-14 gauge

50-67-614

Part Number	Description	Packaging
50-67-614	7-Way Molded Trailer Cord w/4' Cable	Bulk
50-67-616	7-Way Molded Trailer Cord w/6' Cable	Bulk
50-67-618	7-Way Molded Trailer Cord w/8' Cable	Bulk
50-67-620	7-Way Molded Trailer Cord w/10' Cable	Bulk

NOTE: Various length and combinations available. Contact your Horizon Global Representative for details.

NOTE: Crimped junction box terminals can be added.

NOTE: Reference wiring diagrams for pin locations

90° VEHICLE SPECIFIC COMPLETE KITS

54700-004

Part Number	Description	Packaging
50-97-410	90° 7-Way Complete Connector Kit w/9 Ft. Cable	Bulk
50-97-411	90° 7-Way Complete Connector Kit w/9 Ft. Cable	Bulk
50-97-412	90° 7-Way Complete Connector Kit w/9 Ft. Cable	Bulk
54700-003	90° 7-Way Complete Connector Kit w/7 Ft. Cable	Bulk
54700-004	90° 7-Way Complete Connector Kit w/7 Ft. Cable	Bulk
54700-007	90° 7-Way Complete Connector Kit w/7 Ft. Cable	Bulk
54700-009	90° 7-Way Complete Connector Kit w/9 Ft. Cable	Bulk

NOTE: See application guide for vehicle specific applications.

90° 7-WAY PRE-WIRED CABLES FOR HOOK-UP OF FIFTH WHEEL AND GOOSENECK TRAILERS

50-97-407

- 7-Way 90° connector molded to heavy duty 7-Way insulated cable for fifth wheel or gooseneck trailer applications
- Allows remote wiring in pickup beds or other hard to access areas
- 90° molded from flame retardant material
- Features a patented mounting bracket that allows for installation in virtually all pickup models and styles and includes self-tapping stainless steel mounting screws
- Manufactured with UL listed 10/2, 12/1 and 14/4 jacketed cable

Part Number	Description	Packaging
50-97-407	90° 7-Way Molded Trailer Cord w/7 Ft. Cable	Bulk
54700-010	Screw Kit for Aluminum Beds	Bulk

20128

PRE-WIRED CABLES FOR HOOK-UP OF FIFTH WHEEL AND GOOSENECK TRAILERS

- Allows remote wiring in pickup beds or other hard to access areas when towing a fifth wheel or gooseneck trailer, upgrading from OEM wiring

Part Number	Description	Packaging
20128	4-Flat (OEM) to 6-Way Connector Kit w/7 Ft. Cable	Clam
20129	4-Flat (OEM) to 6-Way Connector Kit w/7 Ft. Cable	Clam
20131	4-Flat (OEM) to 7-Way Connector Kit w/7 Ft. Cable	Clam
20140	Fifth Wheel Adapter Harness, 7-Way Flat Pin USCAR connector assembly w/7' Cable w/Pigtails for Choice of Hardwiring 6-Way or 7-Way Connector, GM, Ford, Dodge, Toyota	Clam

NOTE: See application guide for vehicle specific applications.

20140

20110

USCAR VEHICLE SPECIFIC COMPLETE KITS

Part Number	Description	Packaging
20110	USCAR 7-Way Complete Connector Kit w/7 Ft. Cable, Dodge, Ford, GM, RAM & Toyota	Clam
20111	USCAR 7-Way Complete Connector Kit w/7 Ft. Cable, Dodge RAM 1500/2500/3500 00-09	Clam
20113	USCAR 7-Way Complete Connector Kit w/7 Ft. Cable, Toyota Tundra 07-09	Clam
20146	Fifth Wheel Adapter Harness, 7-Way Flat Pin U.S. Car Connector Assembly 9 ft., Dodge, Ford, GM, RAM & Toyota	Clam
20147	USCAR 7 Way Replacement Harness 18.25"	Clam

20223

USCAR 7-WAY PRE-WIRED CABLES FOR HOOK-UP OF FIFTH WHEEL AND GOOSENECK TRAILERS

- Allows remote wiring in pickup beds or other hard to access areas when towing a fifth wheel or gooseneck trailer, using an OEM USCAR connector
- Features durable plastic housing with weather tight seal

Part Number	Description	Packaging
20224	USCAR 7-Way Connector w/4 Ft. Cable	Clam
20223	USCAR 7-Way Connector w/7 Ft. Cable	Clam

NOTE: See application guide for vehicle specific applications.

VEHICLE ADAPTER FOR VEHICLES WITH A LAMP OUT INDICATOR MODULE TOWING A TRAILER WITH LED LIGHTS

20142

Part Number	Description	Packaging
20141	7-Way Flat Pin to 5-Flat Adapter with LED Lamp Out By-Pass	Clam
20142	7-Way Flat Pin to 7-Flat Adapter with LED Lamp Out By-Pass for European Vehicles	Clam

STANDARD VEHICLE / TRAILER ADAPTERS - STEP-UP STYLE

51-20036

Part Number	Description	Packaging
51-20036	4-Flat to 5-Flat	Clam

DUAL PART VEHICLE / TRAILER ADAPTERS - STEP-UP STYLE

787207

Part Number	Description	Packaging
85343	4-Flat to 4-Flat and 7-Way	Clam

VEHICLE / TRAILER COILED WIRE JUMPERS

- Environmentally sealed 16 gauge coiled wire prevents tangling
- Attractive marine yellow, no fade color
- 7-Way mates with OE style 7-Way blade connectors
- 5-Way mates with either a 4-Way or 5-Way flat connector

787206

Part Number	Description	Packaging
787206	5-Flat Coiled Jumper w/4 Ft. Cable (5-Way Flat Car and Trailer Ends)	Bulk
787207	7-Way Trailer to 5-Flat Car End Coiled Jumper w/4 Ft. Cable	Bulk
787208	7-Way Trailer to 5-Way Flat Car End Coiled Jumper w/8 Ft. Cable	Bulk

4 / 5 / 6 AND 7-WAY ADAPTERS

- Allows convenient connection to multiple trailers
- Simple plug-in installation

Part Number	Description	Packaging
118700-050	6-Pin Round To 4-Flat Adapter (50 pack)	Boxed
118702-050	7-Way Flat Pin To 4-Flat Adapter (50 pack)	Boxed
118709	7-Way Round Pin To 4-Flat Adapter	Clam
118710	7-Way European Style Round Pin to 4-Flat Adapter	Clam
118704-050	7-Way To 6-Pin Adapter, Electric Brakes To Outer Pin (S) (50 pack)	Boxed
118708-050	7-Way To 6-Pin Adapter, Electric Brakes To Center Pin (A) (50 pack)	Boxed
118703	7-Way To 5-Flat Adapter	Clam
20136	4-Flat To 5-Flat Adapter	Clam
118601	4-Flat Knockout Adapter	Clam

7-WAY TO CIGARETTE ADAPTER

- Provides 12v power at rear of vehicle for travel accessories
- Ideal for power inverter hook-up
- Great for tailgating

Part Number	Description	Packaging
118019	7-Way to Cigarette Lighter Plug Adapter	Clam

7-WAY TO 4-WAY RETRACTABLE WIRING ADAPTER

- Converts 7-Way round blade connector to standard 4-way flat connector
- Adjust length up to 42 in., no wires dragging on the ground
- Retractable 4-Way flat car end plug connects with standard 4-Way flat trailer end plug
- Adapts to factory 7-Way blade receptacle
- Protects & stores when not in use

Part Number	Description	Packaging
78007	7-Way to 4-Way Flat	Plastic Shroud

7-WAY BLADE TO 4-FLAT WITH LED CIRCUIT TESTER

- Easily adapt OEM 7-Way blade connector to either 5-Flat or a 4-Flat connector, patent pending
- Instantly checks electrical circuit for connectivity
- Displays connectivity using high visibility LEDs
- Attached dust cover included to keep terminals clean when not towing a trailer

Part Number	Description	Packaging
78118	7-Way Blade to 4 or 5-Flat with LED Circuit Tester	Clam

78117

7-WAY TO 4-WAY WITH TOW-GLO

- Easily adapt OEM 7-Way blade connector to basic 4-Flat connector
- Glows RED when tail light circuit is activated assisting with seeing connection in low light
- Attached dust cover included to keep terminals clean when not towing a trailer

Part Number	Description	Packaging
78117	7-Way Blade to 4-Flat with Tow-Glo	Clam

118607

BRAKE MATE™ 7-WAY PRE-WIRED ADAPTERS

- Includes all necessary parts required to completely install all brake controls. No other parts are necessary.
- Each Brake Mate™ Kit includes:
 - Pre-wired 7-way round connector
 - Heavy-duty flasher
 - Scotch locks (5 pcs.)
 - Self tapping screws (8 pcs.)
 - 4-flat trailer end
 - Heavy-duty breakers (2 pcs.)
 - Ring connectors (7 pcs.)
 - Tie straps (6 pcs.)

Part Number	Description	Packaging
118607	7-Way Flat Pin Brake Mate Kit	Clam

20320-012

6-PIN AND 7-WAY ELECTRICAL ADAPTERS

- Used to convert any trailer wiring component, T-One® or tail light converter with a 4-Flat trailer end connector to a 6 or 7-Way round connector
- For simple mounting, choose 6 & 7-Way mounting box part numbers 118156, 118157 or 118159 (sold separately)

Part Number	Description	Packaging
20320-012	4-Flat To 6-Pin Connector - Metal (12 pack)	Bulk
20321-012	4-Flat To 7-Way Connector - Plastic (12 pack)	Bulk
20125	4-Flat To 7-Way Flat Pin U.S. Car Connector - Plastic	Clam

20321-012

118799

7-WAY PRE-WIRED ADAPTERS

- Used to convert any trailer wiring component, T-One® or tail light converter with a 4-Flat trailer end connector to a 7-Way round connector
- Each kit includes 20 ft. of wire
- For simple mounting, choose 7-Way mounting box part numbers 118156, 118157 or 118159 (sold separately)

Part Number	Description	Packaging
118799	7-Way Connector with Pre-Wired Brake Wire	Clam

CAR END MOUNTING BRACKETS

- Heavy duty plated steel brackets, featuring reinforcing beads or flanges for strength
- The black plated model can blend in with the black connector and black hitch for a clean consistent finish
- Combination brackets have a black, powder coat finish and are formed from 16 gauge steel for strength and durability
- Combination brackets are for use with Bargman® branded 4-way and 5-way flat connectors

4 / 5 / 6-WAY FLAT CAR END CONNECTOR MOUNTING BRACKETS

Part Number	Description	Packaging
54-18137†	4, 5 and 6-Pin Round Black Mounting Bracket with Screws and Nuts	Bagged
54-20045†	5-Way Flat Black Mounting Bracket	Bagged

† = Available While Supplies Last.

7-WAY FLAT CAR END CONNECTOR MOUNTING BRACKETS

Part Number	Description	Packaging
50-77-070*	7-Way Bracket for Car End	Bulk
50-77-071*	7-Way Black Bracket for Car End	Bulk
54-20012	7-Way US Car Black Mounting Bracket with Screws and Nuts	Bagged

*NOTE: 50-77-070, 50-77-071, 54-77-071, 118138, 118138-010 brackets only fit the following car end connectors:

Bargman 7-Way Super Sealed Car Ends with Cable

Bargman 7-Way Thermoplastic or Metal Car End Connectors

Bargman 90° 7-Way Pre-Wired Cables

COMBINATION CONNECTOR MOUNTING BRACKET

Part Number	Description	Packaging
50-77-075†	7-Way and 5-Flat Mounting Bracket	Bagged

† = Available While Supplies Last.

4-WAY AND 6-WAY MOUNTING BRACKET

Part Number	Description	Packaging
118132	Mounting Bracket for 4 and 6-Way Round Connectors (Does Not Include Fasteners)	Bagged

4-WAY FLAT CAR END CONNECTOR MOUNTING BRACKETS

Part Number	Description	Packaging
118149-010	4-Flat Universal Mounting Bracket (10 pack)	Bulk

4 / 5 / 6 AND 7-WAY CONNECTOR MOUNTING BRACKETS

- The Bargman® line of mounting brackets allows for installation of electrical wiring plugs on vehicles without damage to bumpers or fascia trim
- Attachment brackets are designed to attach above or below receiver cross tube with hose clamp

ATTACHMENT BRACKETS (PIECE 1 of 2)

- Attaches to cross tube of hitch

Part Number	Description	Packaging
118136	Attachment Bracket For 6 & 7-Way Round Connectors, Includes Clamp (Piece 1 of 2, Long Bracket)	Clam
118140	Attachment Bracket For 4-Flat, 5-Flat, 4-Way & 5-Way Round Connectors, Includes Clamp (Piece 1 of 2, Short Bracket)	Clam

118140 - Short Bracket

MOUNTING BRACKETS (PIECE 2 of 2)

- Mounts electrical connector to attachment bracket
- Includes screws and nuts
- Attractive point-of-purchase packaging

Part Number	Description	Packaging
118137-010	Mounting Bracket (10 pack)	Bulk
118138-010*	Mounting Bracket (10 pack)	Bulk

20046	Mounting Bracket For 5-Flat Connectors, (Piece 2 of 2)	Clam

**NOTE: 50-77-070, 50-77-071, 54-77-071, 118138, 118138-010 brackets only fit the following car end connectors:*

Bargman 7-Way Super Sealed Car Ends with Cable

Bargman 7-Way Thermoplastic or Metal Car End Connectors

Bargman 90° 7-Way Pre-Wired Cables

118137-010

118138-010

50-98-003

6-WAY AND 7-WAY PLUG HOLDER

- This holder is designed to house your 6-PIN or 7-Way trailer end connector safely out-of-the-way when disconnected from the tow vehicle
- Universal holder will accommodate either die cast, steel, plastic or molded trailer ends
- Black molded plastic holder mounts on the jack post with provided cable-ties or the attached adhesive strip and can be mounted on any flat surface with provided screws

Part Number	Description	Packaging
50-98-003	6-Pin and 7-Way Plug Holder	Bulk

74641

4-FLAT CONNECTOR STORAGE BOX AND COVER

- Neatly stores 4-Flat and 5-Flat connectors
- Easily installs with cable ties or screws (included)
- Weatherproof construction

Part Number	Description	Packaging
118145†	Connector Storage Box	Clam
74641	Connector Storage Box	Clam

† = Available While Supplies Last.

118156-010

6-PIN AND 7-WAY CONNECTOR MOUNTING BOXES

- No need to disconnect existing wiring
- No drilling
- Mounts with hose clamp included
- Corrosion free
- High impact plastic
- Fits all standard & U.S. car 7-Way connectors

118157-010

Part Number	Description	Packaging
118156-010	6-Pin and 7-Way Connector Mounting Box (10 pack)	Boxed
118157-010	6-Pin and 7-Way Connector Mounting Box (10 pack)	Boxed
118159-010	6-Way and 7-Way Connector Mounting Box (10 pack)	Boxed

118159-010
Universal

JUNCTION / BREAKER BOXES

- Provide a fast, simplified way of connecting wires from the trailer connector to the trailer wiring
- The box, complete with 5-Wire enter/exit ports, includes hardware, rubber grommets, and features external mounting flanges
- Dimensions: 3-1/4 in. x 6-1/2 in. x 2-1/4 in.

14-715810

Part Number	Description	Packaging
14-715810	Junction Box	Bulk

NOTE: Most Bargman 7-Way cable products meet UL standards and are appropriately marked. If a non-UL listed cable will be used to connect tow vehicles to trailers capable of housing or transporting live occupants, Horizon Global recommends the use of a wiring Junction Box. This will provide a simplified method of connecting wire leads from the trailer connector to the UL listed trailer wiring.

787305

7-PIN ROUND AG CONNECTORS

- A discrete round 7-pin vehicle and implement connector for AG OEM and aftermarket use
- Vehicle side connector includes a mountable storage box
- Implement side connector includes a metal spring cable relief

Part Number	Description	Packaging
787305	7-Pin Round Pin AG Vehicle Connector	Bulk
787303	7-Pin Round Pin AG Vehicle Connector	Clam
787304	7-Pin Round Pin AG Trailer Connector	Bulk
787302	7-Way Round Pin AG Trailer Connector	Clam

NOTE: Custom AG lighting and wiring kits are available.
Contact your Horizon Global Representative for requirements and minimum annual quantities.

7-WAY MOLDED TRAILER CONNECTORS WITH CABLE - TRAILER CLOCKING

- 7-way plastic connector molded to heavy duty 7-way insulated cable using trailer clocking
- Provides 7-way connector contact color coding more conducive to horse and livestock trailers versus RV trailers
- Made with self-cleaning contacts and molded to encapsulate terminals and wires to form one weather resistant, non-corrosive assembly
- Permits the trailer to have the clean appearance and environmental advantages of a sealed, molded 7-way cord
- Primary wire gauges within the insulated cable are: Black and White-10 gauge, Blue-12 gauge, Brown-Red-Green-Yellow-14 gauge

50-67-618

Part Number	Description	Packaging
50-67-614	7-Way Molded Trailer Cord w/4' Cable	Bulk

7200

ELECTROTEK® NON-CONDUCTIVE DIELECTRIC SILICONE COMPOUND

- A dielectric compound used with electrical connections
- Prevent voltage loss from arcing and protect contacts from corrosion
- Suppresses radio frequency interference, dissipates heat, insulates trailer wiring connectors and seals out moisture
- Effective for automotive, RV and marine electrical applications
- Non-water soluble

Part Number	Description	Packaging
7200	Electrotek, 3 oz. Tube	Bulk

11755

DIELECTRIC GREASE

- Using dielectric grease on electrical connectors helps prevent corrosion and increases reliability

Part Number	Description	Packaging
11755	Dielectric Grease, 2 oz. Tube	Boxed

3194-S

BATTERY POST ADAPTER

- Battery post adapter for General Motors side post batteries
- Allows stud for attaching accessories wires

Part Number	Description	Packaging
3194-S	Battery Post Adapter	Clam

7000

BATTERY ISOLATORS

- Cadmium plated isolator with terminal nuts and lock-washers
- 3 terminal isolator for metal frame ground systems, 4 terminal has insulated ground terminal for use with fiberglass or other non-conductive materials
- Isolates starting battery, provides secondary battery current for auxiliary power and full time charging of both batteries

Part Number	Description	Packaging
7000	Battery Isolator - 3 Terminal	Bulk
7001	Battery Isolator - 4 Terminal	Bulk

ELECTRICAL TESTERS

- Plug these testers into any car connector and you will have an instant test of running light circuits
- Features LED display to show completed circuit for the running lights, left turn signal and right turn signal
- Auxiliary and electric brake circuit are included on the 6-way tester and auxiliary, electric brake and battery charge are included with the 7-Way tester
- One piece units with internal ground
- Proper installation and set-up of a brake control, when a trailer is not readily available, is possible with the 7-Way tester
- Current Monitor testing device is designed to assist in determining whether a tow vehicle's 7-Way blade car end connector has been wired properly. (Current Monitor is an excellent diagnostic tool for installation, setup and troubleshooting of electric trailer brake controls)
- The Trailer Tester is designed to help you quickly identify problems in the wiring of the trailer. This is done by testing the Left Turn, Right Turn, Tail/Marker, Brake and Back Up circuits on the trailer. The tester indicates approximate amount of current in each circuit. It will also test the voltage of the external battery connected to the trailer charge circuit (i.e. trailer battery)

Part Number	Description	Packaging
54-6562†	7-Way Blade Tester and Trailer Emulator w/LED Display	Bagged
6565	Current Monitor	Bulk
8010	Trailer Tester, Includes Charger	Bulk

† = Available while supplies last.

3808	Economy Circuit Tester	Clam
74633	4-Flat Circuit Tester	Clam
20115	5-Flat Circuit Tester	Clam
20116	6-Pin Circuit Tester	Clam
20117	7-Way Circuit Tester	Clam
20145-010	LED Circuit Tester (10 pack)	Clam

TRAILER TESTER INSTRUCTIONS

The Trailer Tester (Part #8010) is designed to help you quickly identify problems in the wiring of the trailer such as opens, shorts, incorrect wiring, etc. This is done by testing the Left Turn, Right Turn, Tail/Marker, Brake and Back Up circuits on the trailer, by indicating the approximate amount of current used in each circuit. It will also test the voltage of the external battery connected to the trailer charge circuit (i.e. trailer battery).

NOTE: The above LED light reference numbers are used in the following instructions for all rows.

READ THIS FIRST:

Read and follow all trailer warnings and installation instructions before continuing.

- Check to see that the mating surfaces of the trailer wiring connector matches the Trailer Tester connector. All connector surfaces should be clean and free of dirt. For proper operation, make sure the trailer tester battery is fully charged. Plug the trailer connector firmly into the Trailer Tester. Be sure that the connector is fully inserted.
- Turn the tester ON by pressing the ON button. All LEDs will cycle in order from top to bottom and left to right and will flash once. The tester is ready for use.
- INDICATOR "LED" LIGHTS – POWER ROW ONLY (Measuring the internal battery of the tester – LED will remain lit after power has been turned on)
 - Green LEDs 2, 3 and 4 mean that the internal battery is OK to perform tests.
 - Red LED 1 flashing means that the internal battery needs to be charged (see "Charging the Internal Battery" instructions below) or may need to be replaced.
 - Red LED 5 indicates that the battery is faulty or overcharged. Battery may need to be replaced.

4. CHARGING THE INTERNAL BATTERY

⚠ CAUTION

ONLY USE THE CHARGER (part no. 8008) PROVIDED WITH THE 8010 TESTER

- When the charger is plugged into the charger socket, Red LED 5 on the Power Row flashes if the unit is ON.
- If the unit is OFF, no LEDs will be lit, but the battery will still charge.
- The LED on the charger is RED while charging.
- The LED on the charger will turn GREEN when the battery is fully charged.

NOTE: The trailer tester will not function while the internal battery is being charged.

5. MANUAL AND AUTO TEST – LEFT/STOP, RIGHT/STOP, TAIL, BRAKE, BACKUP CHANNELS

AUTO TESTING (measuring the amount of load on each channel):

- Press the AUTO TEST button. When pressed, its indicator Green LED begins to flash.
 - Each channel will be tested from top to bottom
 - Red LED 5 will flash as its channel is tested
 - Green LED(s) will remain ON to indicate the amount of load. (See Step 6 for LED display load readouts)
 - See Step 7 for LED fault indication readouts.
- MANUAL TESTING (visual test of trailer lighting)
- Depressing any manual button will cause that same channel to flash 11 times. This will allow you to walk around the trailer and confirm that lights are functioning properly.
 - The Trailer Tester will automatically shut down after three minutes to conserve the battery.
 - See Step 7 for LED fault indication readouts.

NOTE: To CLEAR THE DISPLAY or TURN OFF AUTO TEST, simply press the auto test button. Then you are ready to test again.

6. HOW TO READ THE LED DISPLAY (for approximate load readouts)

LEFT/STOP, RIGHT/STOP and BACKUP Load Readouts:

- Green LED 1 represents .25 amps
- Green LED 2 represents 2 amps
- Green LED 3 represents 3 amps
- Green LED 4 represents 4 amps

TAIL Load Readout:

- Green LED 1 represents .25 amps
- Green LED 2 represents 4 amps
- Green LED 3 represents 6 amps
- Green LED 4 represents 8 amps

BRAKE Load Readout:

- Green LED 1 represents 1 axle
- Green LED 2 represents 2 axles
- Green LED 3 represents 3 axles
- Green LED 4 represents 4 axles

NOTE: All current measurements are standard to RV.

7. FAULT INDICATION (See graph below)

- Red LED(s) 5 flashing on the affected channel represents: INTERCHANNEL SHORT OR REVERSED WIRES
 - Red LED 5 solid on the affected channel represents: NO LOAD/OPEN CIRCUIT
 - Green LEDs 1-4 and Red LED 5 all solid on the affected channel represents: OVERLOAD
 - Green LEDs 1-4 and Red LED 5 flashing on the affected channel represents: SHORT CIRCUIT TO GROUND
- ## 8. EXTERNAL BATTERY (Measures the trailer battery's (if present) open circuit voltage)
- Press the EXT BAT button. When pressed, its indicator Red LED will light.
 - Voltage will be displayed by lit LEDs in the Power Row only.
 - Green LED's 2 and 3 mean that the external battery has normal voltage.
 - Red LED 1 flashing means that the external battery needs to be charged or may need replacement.
 - Red LED 5 indicates that the battery is faulty or overcharged. Battery may need replacement.

NOTE: This test will automatically stop after a few seconds and the red light will go out.

NOTE: This test does not indicate the amount of charge left in the trailer battery. (Excludes breakaway battery)

In 1934 the Wesbar® family of vehicle lighting and electrical products made its debut. Since that time, the brand has been a key ingredient to the success of some of the world's most legendary agricultural and industrial manufacturers. With offerings of both incandescent and LED lighting for vehicles and trailers, plus an extensive line of 12 volt electrical connection products, Wesbar® has continued to provide an all-encompassing selection of options for agricultural, industrial, marine, recreation and utility manufacturers. Wesbar® products are made waterproof, sealed, submersible and shock-resistant; everything you would expect when working in extreme environments.

Founded in 1931 to provide electrical connection products for the United States military, Bargman® has since become the brand of choice in the light-duty trailer and recreational vehicle markets. The lighting and vehicle electrical connection products have become a recognized brand and an invaluable partner to the commercial truck, light-duty trailer manufacturers and their respective aftermarkets. With specialization in assemblies with multiple connections, varying wire lengths and mixed technologies, Bargman® has become the RV industry's most widely known lights.

LED SURFACE MOUNT DOUBLE TAIL LIGHTS #84 / #85 SERIES

- These LED double lights are available for surface mounting in vertical or horizontal applications
- Stylish bases with radius corners come in either black or chrome plated finish
- All lenses meet FMVSS/CMVSS 108 requirements
- Reflex is included on backup lens
- Pre-wired (supply and ground) for easy installation
- 10-1/4 in. x 7-1/4 in. x 1-7/8 in.

BARGMAN #84/85/86 LED LIGHTS

LED Tail Lights and Module Kit for the most popular RV Tail Light in the World! Purchase as fully-assembled complete tail lights for installation or purchase a LED Upgrade Module. The Module Kit will allow you to quickly and easily field upgrade your installed Bargman Model #84/85/86 Tail Lights or Model #86 Wrap-Around Marker/Clearance lights from Incandescent to LED.

MODULE KITS:

These kits are designed to allow RV and Trailer owners to upgrade their Bargman #84/85/86 Tail Lights or #86 Wrap-Around Marker/Clearance lights from Incandescent to LED - quickly and safely. Due to the many configurations of these Bargman light models, upgrade modules are sold to upgrade only one module at a time.

NOTE: For regulatory purposes, installation of any competitive LED Upgrade Module designed for the Bargman #84/85/86 Tail Lights will immediately void all warranty on the entire Bargman tail light.

WARNING: All Bargman #84/85/86 Tail Lights and #86 Wrap-Around Marker/Clearance lights meet FMVSS/CMVSS 108 requirements. WHEN UPGRADING EXISTING LIGHTS FROM INCANDESCENT TO LED, TO RETAIN FMVSS/CMVSS 108 REQUIREMENTS, SPECIAL CARE MUST BE GIVEN TO REPLACE EXISTING LENS (OR TO ASSEMBLE MODULE) WITH A LED MODULE THAT WILL PERFORM THE EXACT SAME FUNCTION.

#84 SERIES TAIL LIGHTS LED UPGRADE MODULES

The end-user will simply count the number of red stop/tail/turn lights, amber turn lights or backup lights on the vehicle and order the appropriate number of the desired LED upgrade modules. Then simply remove the incandescent lens and bulb and plug the LED module (LED circuit board with connector and lens) into the existing bulb socket and mount, with the existing screws, to the holes in the existing light base.

#86 SERIES MARKER LIGHT LED UPGRADE MODULE

The end-user will simply count the number of wrap-around clearance/side marker lights on the vehicle and order the appropriate number of the desired LED upgrade kits. Then simply remove the lens and bulb and plug the LED module (LED circuit board) into the existing bulb socket and re-install the existing lens.

HOW TO ORDER

Fully assembled units:

Fully assembled LED versions of the Bargman #84/85/86 tail lights and #86 wrap-around clearance/side marker lights are listed. For convenience and consistency, we have listed them in the same manner that we list the incandescent models. Please note that the part numbers for all LED versions begin with 42/47/48.

47-84-610

47-85-611

LED SURFACE MOUNT DOUBLE TAIL LIGHTS #84 / #85 SERIES

- Available for surface mounting in vertical or horizontal applications
- Stylish bases with radius corners come in either black or chrome plated finish
- All lenses meet FMVSS/CMVSS 108 requirements
- Reflex is included on backup lens
- Pre-wired (supply and ground) for easy installation

- Meets FMVSS-108 and CMVSS-108 requirements for P2 and PC side marker clearance functions when properly mounted
- 2-3/4 in. round

30-073833

30-073834

Part Number	Description	Packaging
30-073833	Clearance Light Red Round with Two Wire Construction	Bargman/Wesbar Bulk
30-073834	Clearance Light Amber Round with Two Wire Construction	Bargman/Wesbar Bulk
Replacement Parts		
108891	Bulb #193	Bargman/Wesbar Bulk

CLEARANCE / SIDE MARKER LIGHTS #99 SERIES WITH REFLEX LENS

- Acrylic snap-on reflex lens
- Ready for mounting on a flat surface with quick connect wiring installation for supply and ground wires
- 4-1/16 in. x 1-3/8 in. x 1 in.

30-99-001

30-99-002

Part Number	Description	Packaging
30-99-001	Clearance Light #99 Red	Bargman/Wesbar Bulk
30-99-002	Clearance Light #99 Amber	Bargman/Wesbar Bulk
Accessory Part		
40-40-120	Two Light Fender Mount Bezel	Bargman/Wesbar Bulk
Replacement Parts		
30-99-010	Lens #99 Red, Clearance Light	Bargman/Wesbar Bulk
30-99-012	Lens #99 Amber, Clearance Light	Bargman/Wesbar Bulk

40-40-004

40-40-104

CLEARANCE / SIDE MARKER LIGHTS FENDER MOUNT #40 SERIES

- Dual function red/amber light for use on fender mount applications
- Bulb is protected by the lens on all sides
- Two wire design (24 in. supply and ground) eliminates surface ground
- Light with black base, stainless steel mounting screws: 3.65 in. x 1.25 in. x 1.45 in. with 0.50 in. depth
- Light only: 2.75 in. x 1 in. x 0.85 in. with 0.50 in. depth
- Fender mount bezel only: 7.20 in. x 4.85 in. x 0.85 in.

Part Number	Description	Packaging
40-40-004	Fender Mount Clearance Light #40 Red/Amber with Lexan® Black Base, Includes Stainless Steel Mounting Screws	Bargman/Wesbar Bulk
40-40-104	Fender Mount Clearance Light Red/Amber	Bargman/Wesbar Bulk
Accessory Part		
40-40-115	Fender Mount Bezel	Bargman/Wesbar Bulk

003225

003330

CLEARANCE / SIDE MARKER LIGHT

- Featuring quick connect wiring installation with stud mounting
- Meets FMVSS/CMVSS 108 requirements for clearance/marker lights when properly mounted ("PC" rated)
- 2-1/4 in. x 2-1/4 in. x 1-1/4 in.

Part Number	Description	Packaging
003225	Clearance Light Amber	Bargman Bagged
203235	Clearance Light Amber	Wesbar Packaging
Replacement Parts		
003330	Lens Amber, Clearance Light	Bargman Bagged
003340	Lens Amber, Clearance Light	Wesbar Packaging

003441

003440

DUAL BULB CLEARANCE / SIDE MARKER LIGHTS

- Specifically designed for heavy-duty and industrial use
- Polycarbonate lens
- Pre-wired with a 6 in. supply lead and are self-grounding
- 4 in. x 2 in. x 1-1/8 in.

Part Number	Description	Packaging
003441	Clearance Light Red	Bargman/Wesbar Bulk
003440	Clearance Light Amber	Bargman/Wesbar Bulk
Replacement Parts		
108891	Bulb #193	Bargman/Wesbar Bulk

NOTE: Tail Lights, Clearance/Side Marker Lights and ID Light Bars approved for trailer accessory and towing application use. Contact your Horizon Global Representative for details.

47-06-005

LED 6 IN. OVAL MID-TURN LIGHT

- Standard 6" grommet mount oval LED mid-turn light
- Certified to SAE J914 for side turn signal
- Meets FMVSS/CMVSS 108 requirements for intermediate side marker and side reflex on vehicles over 30 ft. long
- Grommet and pigtail available separately
- 6.48 in. x 2.30 in. x 2.71 in. overall height
- 2 in. depth with pigtail, 1.35 in. height

40-00-003

Part Number	Description	Packaging
47-06-005	6" Oval Mid-Turn Amber Light	Bargman/Wesbar Bulk
Replacement Parts		
40-00-003	3 Wire Pigtail with 12" Wire Lead	Bargman/Wesbar Bulk
40-00-004	3 Wire 90° Pigtail with 12" Wire Lead	Bargman/Wesbar Bulk
719063	3 Wire 90° Pigtail with 12" Wire Lead	Wesbar Packaging
40-06-020	6" Oval Grommet	Bargman/Wesbar Bulk
108119	6" Oval Mounting Bracket	Bargman/Wesbar Bulk
106873	6" Oval Mounting Bracket	Wesbar Packaging
401591	6" Oval Grommet and 3 Wire 90° Pigtail	Wesbar Packaging

40-06-020

LED LIGHT STRIPS

- Three foot strip, with 54 Diodes per strip
- Pre-wired with a 12 in. supply lead and are self-grounding

54205-010

Part Number	Description	Packaging
Strip - 36"		
54205-010	LED Light Strip Red - 36" with 54 Diodes Per Strip	Wesbar Packaging
54205-011	LED Light Strip Blue - 36" with 54 Diodes Per Strip	Wesbar Packaging
54205-012	LED Light Strip Amber - 36" with 54 Diodes Per Strip	Wesbar Packaging
54205-013	LED Light Strip Green - 36" with 54 Diodes Per Strip	Wesbar Packaging
54205-014	LED Light Strip Clear - 36" with 54 Diodes Per Strip	Wesbar Packaging
Reel - 16'		
54205-015	LED Light Strip Red - 16' Per Reel	Bargman/Wesbar Bulk
54205-016	LED Light Strip Blue - 16' Per Reel	Bargman/Wesbar Bulk
54205-017	LED Light Strip Amber - 16' Per Reel	Bargman/Wesbar Bulk
54205-018	LED Light Strip Green - 16' Per Reel	Bargman/Wesbar Bulk
54205-019	LED Light Strip Clear - 16' Per Reel	Bargman/Wesbar Bulk

54205-020

54205-021

LED MULTI-FUNCTIONAL STROBE LIGHTS

- 7 optional flashing modes
- Available in amber or clear
- Dirt and moisture resistant
- Suitable for multiple OE wiring applications

Part Number	Description	Packaging
54205-020	LED Multi-Functional Strobe Light - Amber	Carton
54205-021	LED Multi-Functional Strobe Light - Clear	Carton

LED STROBE LIGHTS WITH 13 FT. CORD AND MAGNETIC BASE

- Dirt and moisture resistant
- Single mode only

54205-024

Part Number	Description	Packaging
54205-022	LED Strobe Light - Amber	Clam Shell
54205-023	LED Strobe Light - Clear	Clam Shell
54205-024	LED Strobe Light - Purple	Clam Shell

WATERPROOF ID LIGHT BARS

- Submersible design with black poly-carbonate base incorporates incandescent #37 series clearance/marker modules
- FMVSS/CMVSS 108 P2 compliant for use to meet over 80 in. rear clearance marking requirements
- 17 in. x 1.46 in. x 1.69 in.

31-99-215

Part Number	Description	Packaging
31-99-215	Red ID Bar Incandescent, mounting holes on ends	Bargman Clam
Replacement Parts		
40-37-001	Clearance Light Module #37 Red	Bargman/Wesbar Bulk

WATERPROOF ID LIGHT BARS

- Sonically-sealed, impact-resistant polycarbonate lens and housing ensure a waterproof module
- Meet or exceed all applicable state and federal regulations specified for vehicles 80 in. wide or wider
- Sealed polycarbonate lamps on 6 in. centers lead to a stainless steel base completing the best line up of waterproof light bars available today
- #003305 and #003306 are pre-wired with 60 in. leads and can be mounted in protected areas because of their low profile
- 14-1/2 in. x 1-1/8 in. x 1 in.

003306

003306

Part Number	Description	Packaging
003305	Light Bar with Red Waterproof Modules (White Bases)	Bargman/Wesbar Bulk
003306	Light Bar with Red Waterproof Modules (Black Bases)	Bargman/Wesbar Bulk

WATERPROOF LED ID LIGHT BARS

- Three waterproof red lights
- Stainless steel base with stud mounting
- 14-1/4 in. x 1-3/16 in. x 1-1/16 in.

47-99-004

Part Number	Description	Packaging
47-99-004	Light Bar LED with Red Lens	Bargman/Wesbar Bulk
Replacement Parts		
47-99-005	Clearance Light LED #99 Red	Bargman/Wesbar Bulk
401566	Clearance Light LED #99 Red	Bargman/Wesbar Bulk

WATERPROOF LED ID LIGHT BARS

- Waterproof LED low profile red light bar
- Meets FMVSS/CMVSS 108 requirements for vehicles 80 in. wide or wider
- Pre-wired, single bullet supply and ring terminal ground, with 60" harness for easy installation
- P2 rated
- 13.54 in. x 1.313 in. x .787 in.

47-106858

Part Number	Description	Packaging
47-106858	Light Bar LED with Red Lens	Bargman/Wesbar Bulk

WATERPROOF LED ID LIGHT BARS

- Submersible design with black poly-carbonate base incorporates LED #37 series clearance/marker modules
- Pre-wired (supply and ring terminal ground) for easy installation
- FMVSS/CMVSS 108 P2 compliant for use to meet over 80 in. rear clearance marking requirements
- 17 in. x 1.46 in. x 1.69 in.

42-99-215

Part Number	Description	Packaging
47-99-215	Light Bar LED with Red Lens	Bargman/Wesbar Bulk
Replacement Parts		
47-37-001	Clearance Light Module LED #37 Red	Bargman/Wesbar Bulk

LED ID LIGHT BARS WITH REFLUX LENS

- Designed for narrow rail surface mounting
- Features include built-in reflex reflectors and stainless steel grommeted mounting holes
- Pre-wired (supply and ground) for easy installation
- 15.84 in. x 2.29 in. - Mounting holes on 14.49 in. centers

47-54-002

Part Number	Description	Packaging
47-54-002	Light Bar LED with Red Lens	Bargman/Wesbar Bulk
47-54-003	Light Bar LED with Amber Lens	Bargman/Wesbar Bulk

30-62-103

30-62-102

LICENSE PLATE LIGHTS #62 SERIES

- ABS body construction
- Can be purchased with or without the separate 18 gauge galvanized steel license bracket
- Molded socket protects bulb from road shock and has two wires to eliminate surface ground
- 4 in. x 1-1/2 in. x 2-5/8 in.

Part Number	Description	Packaging
30-62-003	License Light with Bracket White	Bargman/Wesbar Bulk
30-62-103	License Light Less Bracket White	Bargman/Wesbar Bulk
30-62-002	License Light with Bracket Black	Bargman/Wesbar Bulk
30-62-102	License Light Less Bracket Black	Bargman/Wesbar Bulk
Replacement Parts		
30-62-030	License Plate Bracket	Bargman/Wesbar Bulk

30-62-000

54206-001

LICENSE PLATE LIGHTS

- Illuminators are dirt and moisture resistant
- Housing is chrome plated steel with half shaded white lens
- Mini Compact lights feature two wire construction, mounting gasket and screw
- Bullet Snap-in light with self-grounding single wire construction
- 2-5/8 in. x 1-1/4 in. x 1 in. - Mini Compact / LED Mini Compact, 1 in. cutout - Bullet Snap-in

Part Number	Description	Packaging
30-62-000	Mini Compact Light	Bargman/Wesbar Bulk
54206-001	LED Mini Compact Light	Wesbar Packaging

223210

40-00-002

WATERPROOF LICENSE PLATE LIGHT

- Waterproof, sealed license plate light with #193 bulb for a variety of mounting applications
- Pigtail available separately
- Meets FMVSS/CMVSS 108 requirements

Part Number	Description	Packaging
223210	License Light with Bracket White	Bargman/Wesbar Bulk
Accessory Parts		
40-00-002	2 Wire Pigtail with 6" Wire Lead	Bargman/Wesbar Bulk
108663	2 Wire Pigtail with 18" Wire Lead	Bargman/Wesbar Bulk
Replacement Part		
106310	License Light Module Clear	Bargman/Wesbar Bulk

NOTE: Tail Lights, Clearance/Side Marker Lights and ID Light Bars approved for trailer accessory and towing application use. Contact your Horizon Global Representative for details.

30-72-100	License Plate Bracket 16 Gauge, Zinc Plated	Bargman/Wesbar Bulk
003201	License Plate Bracket Plastic, Black	Bargman/Wesbar Bulk
003202	License Plate Bracket Plastic, White	Bargman/Wesbar Bulk

MOUNTING BRACKET

- Dark brown thermo-plastic corner bracket.
- .20 in. diameter mounting holes accept up to #10 screws
- 1 in. x 1 in. x 1 in. - 45° angled

Part Number	Description	Packaging
60-50-001	Support Mounting Bracket	Bargman/Wesbar Bulk

OBLONG REFLECTORS

- Class "A" acrylic reflector, hermetically sealed
- Two mounting holes
- Optional adhesive fiber back
- 4-3/8 in. x 1-7/8 in.

Part Number	Description	Packaging
70-78-010	Red with Mounting Holes and Adhesive Back	Bargman/Wesbar Bulk
70-78-050	Red with Mounting Holes Only	Bargman/Wesbar Bulk
70-78-020	Amber with Mounting Holes and Adhesive Back	Bargman/Wesbar Bulk
70-78-060	Amber with Mounting Holes Only	Bargman/Wesbar Bulk

RECTANGULAR REFLECTORS

- Class "A" acrylic reflector, hermetically sealed
- Adhesive fiber back for instant mounting
- 3-1/4 in. x 1-1/2 in.

Part Number	Description	Packaging
70-71-180	Red with Adhesive Back	Bargman/Wesbar Bulk
70-71-181	Amber with Adhesive Back	Bargman/Wesbar Bulk
323357	Amber with Adhesive Back, with Mounting Holes (4 3/8" X 1 1/4")	Bargman/Wesbar Bulk
323356	Red with Adhesive Back, with Mounting Holes (4 3/8" X 1 1/4")	Bargman/Wesbar Bulk

CONSPICUITY REFLECTORS / TAPE

- Reflectors meet or exceed DOT-C and SAE J5941 for reflectivity marking on trucks and trailers
- Reflectors are comparable in light return to the 2 in. x 12 in. reflective tape and hermetically sealed
- 1.10 in. x 12 in.

Part Number	Description	Packaging
74-72-040	Clear and Red with Adhesive Back	Bargman Bagged
70-72-020	Clear with Adhesive Back	Bargman/Wesbar Bulk
70-72-030	Red with Adhesive Back	Bargman/Wesbar Bulk

70-68-010

70-55-020

ROUND REFLECTORS

- Class "A" acrylic reflector, hermetically sealed
- Center mounting hole or adhesive fiber back
- 3-3/16 in. and 2-3/16 in.

Part Number	Description	Packaging
70-68-010	3 3/16" Red with Center Mounting Hole	Bargman/Wesbar Bulk
70-71-170	2 3/16" Red with Center Mounting Hole	Bargman/Wesbar Bulk

54209-009	Single LED AG Light with 2 Wire Leads - Lens: Rear-Red, Front-Blank	Bulk
54209-011	Single LED AG Light with 2 Wire Leads - Lens: Rear-Amber, Front-Amber	Bulk
54209-010	Single LED AG Light with 2-Way Plug - Lens: Rear-Red, Front-Blank	Bulk
54209-012	Single LED AG Light with 2-Way Plug - Lens: Rear-Amber, Front-Amber	Bulk
54209-013	Single LED AG Light with 3 Wire Leads - Lens: Rear-Red, Front-Blank	Bulk
54209-015	Single LED AG Light with 3 Wire Leads - Lens: Rear-Amber, Front-Amber	Bulk
54209-014	Single LED AG Light with 3-Way Plug - Lens: Rear-Red, Front-Blank	Bulk
54209-016	Single LED AG Light with 3-Way Plug - Lens: Rear-Amber, Front-Amber	Bulk
54209-019	Dual RH LED AG Light with 3 Wire Leads - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk
54209-005	Dual LH LED AG Light with 3 Wire Leads - Lens: Rear-Amber/Red, Front-Blank/Amber	Bulk
54209-020	Dual RH LED AG Light with 3-Way Plug - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk
54209-006	Dual LH LED AG Light with 3-Way Plug - Lens: Rear-Amber/Red, Front-Blank/Amber	Bulk
54209-021	Dual RH LED AG Light with 4 Wire Leads - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk
54209-007	Dual LH LED AG Light with 4 Wire Leads - Lens: Rear-Amber/Red, Front-Blank/Amber	Bulk
54209-022	Dual RH LED AG Light with 4-Way Square Plug - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk
54209-008	Dual LH LED AG Light with 4-Way Square Plug - Lens: Rear-Amber/Red, Front-Blank/Amber	Bulk

NOTE: Reference AG Lighting - Technical for mounting applications.
 NOTE: Custom AG lighting and wiring kits are available. Contact your Horizon Global Representative for requirements and minimum annual quantities.

54003-040

LED ECONOMY AG LIGHT KIT

- Featuring left hand and right hand dual light units
- Includes 35 ft. wishbone wire harness, 7-pin AG plug and tri-plugs
- For protection in critical areas, 5 ft. of convoluted tubing included

Part Number	Description	Packaging
54003-040	Economy AG LED Light Kit	Boxed
Replacement Parts		
54209-006	Dual LH LED AG Light with 3-Way Plug - Lens: Rear-Amber/Red, Front-Amber/Blank	Bulk
54209-020	Dual RH LED AG Light with 3-Way Plug - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk

US Patent D347,903/5,335,155

NOTE: Reference AG Lighting - Technical for mounting applications.

LED AG TRANSPORT LIGHT KIT

- Featuring left and right hand dual light units with brake function
- Includes 46 ft. round wishbone cable, four 90 lbs. magnets and a 7-pin round plug

54003-041

Part Number	Description	Packaging
54003-041	Deluxe AG LED Transport Kit with Brake Light Function, 7-Pin	Boxed
Replacement Parts		
54209-008	Dual LH LED AG Light with 4-Way Square Plug - Lens: Rear-Amber/Red, Front-Amber/Blank	Bulk
54209-022	Dual RH LED AG Light with 4-Way Square Plug - Lens: Rear-Red/Amber, Front-Amber/Blank	Bulk
002590	Magnet Kit, 90 lbs.. Pull	Bagged

US Patent D347,903/5,335,155

Note: Reference AG Lighting - Technical for mounting applications.

LED PEDESTAL MOUNT AG LIGHTS

- Meets ASABE S279, FMVSS-108DOT, and EC requirements
- AMECA certified
- Custom connector options available
- Amber lamps meet 4cp sidelight requirements in horizontal and vertical mounting options
- Lamps are Waterproof with 16 wire gage
- Diameter 4-3/4 in. x Height 5 in. x Cable Length 12 in.

54003-138

Part Number	Description	Packaging
54209-031	Pedestal Mount Single AG LED Light with Amber/Amber	Carton
54209-032	Pedestal Mount Single AG LED Light with Red	Carton
54209-047	Pedestal Mount AG LED Light with Amber	Carton
54209-048	Pedestal Mount Single AG LED Light with Red	Carton
54003-137	Economy AG LED Light Kit, 7-Pin, with Pedestal Mount Amber/Amber/Red, Tri-Mold with 35' Wishbone Harness	Carton
54003-138	Deluxe AG LED Transport Kit with Brake Light Function, 7-Pin, Amber/Amber/Red, with 46' Wishbone Harness	Carton

NOTE: Custom AG lighting and wiring kits are available. Contact your Horizon Global Representative for requirements and minimum annual quantities.

002670

ECONOMY AG LIGHT KIT

- Featuring left hand and right hand dual light units
- Includes 35 ft. wishbone wire harness, 7-pin AG plug and tri-plugs
- For protection in critical areas, 5 ft. of convoluted tubing included

Part Number	Description	Packaging
002670	Economy AG Light Kit	Boxed
Replacement Parts		
8260001	Dual AG Light with Amber/Red	Bulk
8260101	Dual AG Light with Red/Amber	Bulk

LED WORK LIGHTS

- Perfect for exterior use in AG, horse, livestock, RV, industrial and racing applications
- Environmentally sealed design with aluminum housing and stainless steel mounting stud
- High power, true white 9-36V, 10W light emission
- Rectangular version with 10 LED diodes, circular model has 8 LED diodes
- Circular: 4.50 in. diameter x 1.50 in. depth
- Rectangular: 4 in. x 4 in. x 1.50 in. depth

LED WORK LIGHTS WITH COILED CORD AND MAGNETIC BASE

- Perfect for exterior use in AG, horse, livestock, RV, industrial and racing applications
- Environmentally sealed design with 19 ft. extended coiled cord
- Magnetic base, with protective film, secures in high vibration conditions in a vertical or horizontal position
- Power adapter for 12V outlet with separate on/off switch
- High power, true white 9-36V, 10W light emission
- Rectangular version with 10 LED diodes, circular model has 8 LED diodes
- Circular: 4.5 in. diameter x 1.875 in. depth
- Rectangular: 4 in. x 4 in. x 1.75 in. depth

LIGHTING TERMINOLOGY

"Over 80" Combination Tail Lights

These units meet seven or eight DOT-108 lighting requirements when properly mounted. Seven function units meet tail light, stop light, rear turn signal light, rear reflex reflector, rear side marker light, rear side reflex reflector and rear clearance light. The eighth function met is license plate light. Trailers over 80 inches wide require the addition of front Clearance Lights and Rear Identification (ID) Lights. Consult Title 49 – Code of Federal Regulations-Section 571.108 (USA) or Section 108 of the Motor Vehicle Safety Regulations (Canada) for additional compliance requirements.

"Under 80" Combination Tail Lights

These units meet six or seven DOT-108 lighting requirements when properly mounted. Six function units meet tail light, stop light, rear turn signal light, rear reflex reflector, rear side marker light and rear side reflex reflector. The seventh function met is license plate light. Consult Title 49 – Code of Federal Regulations-Section 571.108 (USA) or Section 108 of the Motor Vehicle Safety Regulations (Canada) for additional compliance requirements.

"PC" Rated Clearance/Side Marker Lights

A single unit meets DOT-108 lighting requirements and has been photometrically certified at a specific installation angle to provide both clearance light and side marker light. In most cases, the light will have to be mounted on a 45° angle, Consult Title 49 – Code of Federal Regulations-Section 571.108 (USA) or Section 108 of the Motor Vehicle Safety Regulations (Canada) for additional compliance requirements to meet both functions' requirements with just one unit.

LIGHTING TIPS AND FAQs

Do I have to use a light or can I use a reflector instead?

Lighting and conspicuity requirements are governed by FMVSS and CMVSS 108. Their use is determined by safety and identification requirements.

Why use LED and not Incandescent? The key difference is the way both technologies operate. While both technologies are an acceptable means for vehicle lighting, LED is the stronger technology in Energy Efficiency, Light Output, Reliability, Safety and Life Expectancy.

Do LED lights have to be mounted differently than Incandescent? No, the FMVSS/CMVSS 108 mounting requirements are the same.

When retrofitting a Bargman 59 or 84/85/86 Series Incandescent light with LED can the old lenses be reused? No, Bargman 59 and 84/85/86 Series LED module kits come with pre-assembled lenses and a simple "plug & play" replacement design.

What does stop/tail/turn mean? How many lights do I need to use to achieve it? Are they the same as "Tail Lights"?

Stop/Tail/Turn is a combination rating meaning a specific light or grouping of lights in an assembly meet the requirements for this named combination. This rating can be achieved using 1 light alone as long as the light source meets the requirements for the specific application.

Why does Horizon Global offer so many different types and styles of lights for a vehicle? Horizon Global is never satisfied with the status quo and is continually striving to design lights that will meet the designated federal requirements and fit our customer's specific application needs.

When using a Multi-Function Stop/Tail/Turn Light, is a Backup Light function required and does it matter where the Backup Light is located? The requirement for and location of the Backup Light is determined by vehicle type and FMVSS/CMVSS 108 requirements.

Why are some Turn Signal Lights Red and others Amber, does it matter which color I use? Yes, the color does matter. While both colors are acceptable for turn signals, the color use is primarily driven by the "Stop" Function. When using a multi-function Stop/Turn light, the color must be Red as required by FMVSS/CMVSS 108 requirements.

What does "Over" or "Under" 80 refer to? This is a reference to a vehicles width in inches. There are differing FMVSS/CMVSS 108 requirements covering this dimensional reference point.

What are "Over 80" Combination Tail Lights?

These units meet seven or eight lighting requirements as defined by FMVSS/CMVSS 108.

What are "Under 80" Combination Tail Lights? These units meet six or seven lighting requirements as defined by FMVSS/CMVSS 108.

What is the difference between Side Marker and Clearance Lights? Side Marker Lights are mounted on the side of a vehicle and are used to define its length. Clearance Lights are mounted on the front and rear of a vehicle and are used to define its width.

What are "PC" Side Marker/Clearance Lights?

These lights meet the FMVSS/CMVSS 108 requirements for photometric certification as both Clearance and Side Marker Lights when properly mounted.

The symbol is for Wet Location Lights. What does it mean?

Wet Location Lighting products in this catalog are either: "Waterproof/Sealed" or "Submersible" and are safe to use on marine and other trailers that will be in and around the water or UL listed as suitable for wet location use.

What are Submersible Lights? Submersible lights purposely allow water to enter the light assembly, however a cushion of air forms when water enters the light and will protect the bulbs and electrical connectivity from damage. This natural phenomenon is known as the "Bell Jar Principle". These lights are ideal for boat trailers and utility trailers that will be submersed in water.

What are Waterproof/Sealed Lights? "Waterproof" and "sealed" mean exactly the same - these lights are completely sealed and will not allow water to enter the inside of the light assembly. Many of our new LED Side/Marker and Tail Lights are completely sealed as to prevent water from damaging the circuit board and components associated with LED Technology.

Why are vehicle lights grounded? Vehicle lights are grounded in order to complete the electrical circuit. There are differing ways to ground them to meet various applications.

What is an ID Bar, and can one be used as a multi-function Stop/Tail/Turn as well? An ID Bar is an identification Bar. It consists of 3 lights and is required in order to identify the rear center location on over 80" vehicles. They May Not be used as Multi-Function Lights.

---------------------	---

Founded in 1952, REESE® has become a household name in the heavy-duty towing industry. With proven designs that exceed the industry standards, REESE® has become the brand of choice when performance is the expectation.

REESE® provides the smoothest air-ride pin boxes on the market. Products engineered and designed by the long-time leader in the towing industry that automatically eliminates turning and clearance headaches. Engineered and developed by long-time veterans of the towing industry.

GOOSE BOX™ GOOSENECK COUPLER FOR RVs

Take the heavy equipment out of the truck bed!
The Goose Box™ gooseneck coupler is specifically designed for RV trailer owners who wish to tow with their gooseneck hitch.

- Replaces a traditional pin box so the RV works with a gooseneck hitch
- Step up to RV comfort and keep your gooseneck hitch
- Endorsed by Lippert Components, Inc. for their frame systems
- Includes 5th Airborne technology for a superb ride
- Lockable BULLDOG® gooseneck coupler
- Improved air bag, dual shocks and hollow rubber springs provide multi-directional shock absorption
- Increased height adjustment capability for today's taller truck beds

⚠ WARNING

Check compatibility of your fifth wheel hitch with The Sidewinder or 5th Airborne Sidewinder. Refer to the specific product page for Sidewinder or 5th Airborne Sidewinder for up to date fifth wheel hitch compatibility.

16K AND 19K SIDEWINDER™

Nimble and quick, worry-free turning REESE® Sidewinder, is the premium pin box designed specifically for short bed pickups. It is designed to automatically eliminate turning and clearance headaches. Now you can make up to 90-degree plus** turns without exiting the truck. Without throwing a switch. Without pushing a button.

- Sidewinder's king pin locking mechanism moves the pivot position 22-in rear of the pin box's attachment point. By moving the pivot rearward while keeping the load centered over the axles, the trailer automatically tracks more closely to the truck
- The pivoting pin box makes hook up possible at any angle
- With the towing position of the pin box arm locked in line with the truck, you can make full use of the truck bed space, giving you extra storage space for fuel tanks, toolboxes and cargo
- Testing by BOSCH automotive proving grounds and exceeds all SAE/CSA Standard 16K and 19K ratings requirements for RVs

16K AND 21K 5TH AIRBORNE™

Make your next getaway a breeze. Your fifth wheel takes a lot of abuse from turbulence caused by potholes, section dividers, bridge decks and heavily worn interstate highways.

- The 5th Airborne™ premium fifth wheel air-ride pin box acts as a buffer between the tow vehicle and the trailer, minimizing the challenges in the road. This significantly reduces the negative impact of vertical shock and longitudinal chucking. The 5th Airborne™ does more than improve your ride; it protects your investments by relieving stress on your coach's frame, cabinets, mechanical, and support mechanisms. Drivers and passengers also benefit from reduced fatigue and the improved safety provided by the 5th Airborne's smooth ride
- Engineered and developed by long-time veterans of the towing industry

Draw-Tite® gooseneck hitches are offered in a few types of configurations. They are designed to be mounted above or below the pickup bed. Either design (above or below) allows for minimal obstruction when the ball is not in the towing position. This permits full use of the pick-up bed.

30K REMOV-A-BALL® GOOSENECK HITCH HEAD

- Allows full use of pick-up bed area when hauling cargo
- In-truck platform is rated for 30,000 lbs. gross trailer weight and 7,500 lbs. vertical load and tested to V.E.S.C.-19 specs for 30,000 lbs. gross vehicle weight rating
- No alteration of OE exhaust systems required
- Accommodates all standard vehicle suspensions
- 2-5/16 in. high strength zinc plated ball standard
- Spring loaded chrome sliding pin ensures positive ball lock
- Lockable to prevent ball theft (lock not included)
- Magnetic cover protects ball hole and activating lever slot when not in use
- In-truck platform may be used with rail kits or installed directly to any vehicle with adequate securing structure
- Rail kits are rated to match manufacturer's vehicle weight ratings
- Spring loaded safety chain loops included
- Requires installation rail kit

See Page G-7

FEATURED

25K FOLD-DOWN GOOSENECK HITCH HEAD

- Access Fold-Down design allows unrestricted use of the truck bed when not towing
- Platform and ball rated for 25,000 lbs. gross vehicle towing weight and 6,250 lbs. vertical load
- Takes only seconds to raise or lower the ball into position
- 2-5/16 in. high strength chrome plated ball standard
- Includes mounting hardware and integrated drop down spring loaded safety chain loops
- Oversize pull ring allows user to raise or lower the ball while wearing gloves
- Integrated grease fitting is visible and easily accessible
- Rail kits to match manufacturer's vehicle weight ratings
- No alteration of factory exhaust systems required
- Requires installation rail kit

See Page G-7

30158-68 - Chevrolet / GMC Application

ELITE™ SERIES UNDER-BED GOOSENECK HITCH SYSTEM

- Easy Under-Bed bolt-in installation
- Rated for 25,000 lbs. gross weight capacity*
- Passes SAE J2638, the toughest industry standard
- Pop-In™ Ball lever inside ball head activates ball bearing locking system, lift and turn lever to unlock and remove ball
- Two safety chain holders attach directly to rail system
- Fifth wheel ready using outer four holes to mount a fifth wheel hitch
- Hole cover keeps Pop-In™ Ball sleeve free of debris
- Includes storage bag
- Patented and Patents pending

Part Number	Description	Application
30138-26	Elite Gooseneck Complete Hitch (Includes #30126 Rail and Pop-in Ball Kit)	2011-2015 Ford F-250, F-350 and F-450, (Aligns to Center Hole)
30138	Elite Gooseneck Head with Pop-In 2-5/16" Ball (Use with #30126 Rail Kit)	2011-2015 Ford F-250, F-350 and F-450, (Aligns to Center Hole)
30158-68	Elite Gooseneck Complete Hitch (Includes #30868 Rail and Pop-in Ball Kit)	2011-2016 Chevrolet Silverado Sierra 2500 and 3500 HD
30158	Elite Gooseneck Head with Pop-In 2-5/16" Ball (Use with #30852 or #30868 Rail Kit)	2011-2016 Chevrolet Silverado GMC Sierra 2500 and 3500 HD
30158-52	Elite Gooseneck Complete Hitch (Includes #30852 Rail and Pop-in Ball Kit)	2010-2012 Dodge RAM 2500 and 3500 HD
30158	Elite Gooseneck Head with Pop-In 2-5/16" Ball (Use with #30852 or #30868 Rail Kit)	2010-2012 Dodge RAM 2500 and 3500 HD

ELITE™ SERIES ABOVE-BED GOOSENECK HITCH

- Rated for 25,000 lbs. capacity
- 2-5/16 in. high strength zinc plated ball
- Specifically designed for the Professional tower who employs both fifth wheel and gooseneck trailers
- Utilizes the same vehicle specific under-bed rail kit system as the Elite™ fifth wheel
- Above-Bed Gooseneck can be easily removed for unobstructed use of the truck bed
- Weather resistant plastic covering provides protection from the elements and adds aesthetic appeal
- Built-in chain bracket to accommodate safety chain

Part Number	Description
30845	25K Elite Series Gooseneck (For use with Elite Series Rails Only)
58419	Service Kit Adapter for Signature Series Fifth Wheels and Goosenecks when used on Elite Rail Kits (#30126 and #30868) and Ford OEM Rail Kits

*Your actual weight capacity is limited to the towing vehicle or gooseneck rail kit capacity

DRAW-TITE® GOOSENECK HITCH SYSTEMS

- Draw-Tite® has designed a number of Gooseneck Hitch Systems to meet your gooseneck towing needs. The secret of the system is in the rail kit. We've designed rail kits to fit your specific truck that can attach to your choice of: Hide-A-Goose™, Fold-Down or Remov-A-Ball® heads.
- Easy install, reliable service
- Same rail kit - 3 methods of head attachment (use fit guide below and select your vehicle)
 - Option #1 Hide-A-Goose™ – ball stores in truck bed
 - Option #2 Fold-Down – ball folds down in truck bed
 - Option #3 Remov-A-Ball® – ball removes and is stored separately

30K

30K HIDE-A-GOOSE™ GOOSENECK HITCH HEAD

- Rated up to 30,000 lbs. gross trailer weight and 7,500 lbs. vertical load, tested to SAE J2638 Static and REESE® Dynamic Specs
- Allows full use of pick-up bed area when hauling cargo
- No alteration of OE exhaust systems required
- Accommodates all standard vehicle suspensions
- 2-5/16 in. high strength chrome plated ball standard, 3 in. ball optional
- Magnetic cover protects ball hole when not in use
- Dynamic Specs for 30,000 lbs. gross vehicle weight rating
- Rail kits to match manufacturer's vehicle weight ratings
- Spring loaded safety chain loops included
- Requires installation rail kit

Part Number	Description	Weight Rating (lbs.)	Pin Capacity (lbs.)

25K FOLD-DOWN GOOSENECK HITCH HEAD

8339

- Access Fold-Down design allows unrestricted use of the truck bed when not towing
- Platform and ball rated for 25,000 lbs. gross vehicle towing weight and 6,250 lbs. vertical load
- Takes only seconds to raise or lower the ball into position
- 2-5/16 in. high strength chrome plated ball standard
- Includes mounting hardware and integrated drop down spring loaded safety chain loops
- Oversize pull ring allows user to raise or lower the ball while wearing gloves
- Integrated grease fitting is visible and easily accessible
- Rail kits to match manufacturer's vehicle weight ratings
- No alteration of factory exhaust systems required
- Requires installation rail kit

Part Number	Description

30K

30K REMOV-A-BALL® GOOSENECK HITCH HEAD

6300

- Allows full use of pick-up bed area when hauling cargo
- In-truck platform is rated for 30,000 lbs. gross trailer weight and 7,500 lbs. vertical load and tested to V.E.S.C.-19 specs for 30,000 lbs. gross vehicle weight rating
- No alteration of OE exhaust systems required
- Accommodates all standard vehicle suspensions
- 2-5/16 in. high strength zinc plated ball standard
- Spring loaded chrome sliding pin ensures positive ball lock
- Lockable to prevent ball theft (lock not included)
- Magnetic cover protects ball hole and activating lever slot when not in use
- In-truck platform may be used with rail kits or installed directly to any vehicle with adequate securing structure
- Rail kits are rated to match manufacturer's vehicle weight ratings
- Spring loaded safety chain loops included
- Requires installation rail kit

Part Number	Description

HI-RISE™ CONVERSION HITCH

- Converts a gooseneck hitch into a fifth wheel hitch
- 18K gross trailer weight / 4.5K pin weight capacity
- 4-way pivoting head with self latching jaw design
- 4 degree side-to-side pivot for better control
- Fifth wheel height adjustments (14-1/4 in. - 18 in.)
- 2 bolts for bed height adjustments
- Offset legs enhance performance while braking
- Adjustable stabilizer strips fit bed corrugation pattern
- Lockable, extended length handle
- Only works with B&W gooseneck hitch and Reese (94XX) series heads utilizing (44XX) series rails

Not Rated for use with Reese Sidewinder

58381	3-1/2" Hole Saw

GOOSENECK HITCH SYSTEMS

- Gooseneck Hitch Systems conveniently allow unrestricted use of the pickup bed. In-truck platforms support 2-5/16 in. and 3 in. hitch balls. All framework for Gooseneck Trailer Hitches reside under the bed of the truck with only the ball exposed above the bed of the truck. Stronger, and able to utilize the full suspension of the truck, Gooseneck Hitch Systems are rated up to full towing capacity of the vehicle as determined by the manufacturer. Draw-Tite Gooseneck Hitch Systems utilize a unique set of mounting rails, specific to each vehicle, that will accommodate any of the hitch heads.

HOW LARGE OF A TRAILER CAN I TOW?

- Each truck has a published Gross Combined Weight Rating GCWR. This is the maximum allowable tow rating in terms of the combined vehicle and trailer weight. When the Gross Vehicle Weight GVW is subtracted, the maximum Gross Trailer Weight is revealed.
- In this example, the maximum allowable trailer towing weight is 12,800 lbs. GTW. The rail kit for this vehicle has been tested to meet maximum vehicle tow capacity.

COMMON TERMINOLOGY

- Base Curb Weight** - The nominal weight of a vehicle with standard equipment and a full tank of fuel. It does not include passengers, cargo or optional equipment.
- Commercial Towing** - Any vehicle/trailer combination exceeding 26,000 lbs. Gross Combined Weight GCW.
- Commercial Vehicle** - Any vehicle that exceeds 10,000 lbs. GVW.
- Gross Vehicle Weight (GVW)** - The actual weight of the vehicle when fully loaded. It is the base curb weight plus the cargo weight.
- Gross Vehicle Weight Rating (GVWR)** - The maximum allowable weight of the fully loaded vehicle.
- Gross Combined Weight (GCW)** - The actual weight of the vehicle and trailer combined. This weight should always be obtained by weighing the vehicle and trailer together on a scale.
- Gross Combined Weight Rating (GCWR)** - The maximum weight of the towing vehicle and the loaded trailer - including cargo and passengers.
- Gross Axle Weight (GAW)** - The total weight supported by each axle (front or rear). To compute this weight for your vehicle and trailer combined, take the loaded vehicle and trailer to a scale. With the trailer attached, place the front wheels of the vehicle on the scale to obtain the front GAW. To obtain the rear GAW, weigh the towing vehicle with the trailer attached, but with just the four wheels of the vehicle on the scale. The rear GAW is determined by subtracting the front GAW from that amount.
- Gross Axle Weight Rating (GAWR)** - The total weight each axle is capable of carrying. The total load on each axle must not exceed its GAWR.
- Gross Trailer Weight (GTW)** - The weight of a trailer fully loaded.
- Maximum Loaded Trailer Weight** - The maximum allowable fully loaded weight of the trailer. This weight is obtained by subtracting the towing vehicle's GVW from its GCWR.
- Payload** - The combined maximum allowable weight of cargo, occupants and optional equipment that the vehicle is designed to carry. (Gross Vehicle Weight Rating minus the base curb weight.)
- Rail Kit** - The components and hardware that mount the gooseneck hitch to the vehicle frame.

GCWR - GVW = MAX. GTW

2001 GMC Heavy Duty 2500, 4 Wheel Drive Extended Cab

Engine: Duramax 6600

Horsepower: 300 hp @ 3100 rpm

Torque: 520 ft. lbs. @ 1800 rpm

Transmission: Allison 5-speed Automatic

Axle Ratio: 3.73 to 1

GVW: 9,200 lbs. GCWR: 22,000 lbs.

22,000 lbs. GCWR - 9,200 lbs. GVW = 12,800 lbs. GTW

Competitor's 25K gooseneck fails longitudinal test at 11,500 lbs.

THE SAE INTERNATIONAL J2638 STANDARD FOR GOOSENECK & FIFTH WHEEL TRAILERS UNDER 30,000 LBS.

The Society of Automotive Engineers (SAE) is a non-profit educational and scientific organization dedicated to advancing mobility technology to better serve humanity. SAE has developed many standards, testing methods and procedures to measure the performance of vehicles and vehicle related products, including trailers. SAE J2638 addresses both gooseneck and 5th wheel trailers under 30,000 lbs. The testing methods for gooseneck are as follows:

Static Testing is a one time maximum load requirement for the three test conditions. The test is to be maintained for 5 Seconds.

- Vertical** - tests the goosenecks ability with upward & downward pressure
 - 85% of GVW Pull Out (25K lbs. Gooseneck = 21,250 lbs.)
 - 50% of GVW Down (25K lbs. Gooseneck = 12,500 lbs.)
- Longitudinal** - tests the goosenecks ability with front and back pressure
 - 75% of GVW Front and Back (25K lbs. Gooseneck = 18,750 lbs.)
- Transverse** - tests the goosenecks ability with side to side pressure
 - 30% of GVW Each Side (25K lbs. Gooseneck = 7,500 lbs)

Dynamic Testing defines requirements for repetitive testing in the three test conditions.

- 300,000 Cycles in each test condition.
 - (Vertical, Longitudinal and Transverse)
- The same unit is used for all three tests.
 - (900,000 Cycles all together)
- The range of load requirements are based on GVW & Rated Coupler Load.

In order to assure safety and accountability for the products produced, SAE J2638 also requires:

- Product Identification**
 - Manufacturer's Name
 - Rated Vertical Coupler Load
 - Maximum Trailer GVW
 - Ball Size
- Testing**
 - Products are to be fixtured at the maximum stress conditions
 - There should be no loss of attachment during testing
 - When testing is completed, the coupler will be capable of being uncoupled and coupled

HORIZON GLOBAL COMMITMENT

Horizon Global understands the importance of the new SAE standard for Goosenecks and 5th Wheels. We are committed to providing products that meet or exceed these recommendations and our commitment is evident by our investment in people and facilities dedicated to testing our products.

In addition to being one of the only manufacturers with dedicated testing facilities, Horizon Global also has over 90 years of manufacturing experience to ensure our products are of the highest quality and reliability.

Because of the size of our organization we can provide the added benefits of high quality, unmatched reliability and proven strength, at a competitive price.

Draw-Tite® has been designing and manufacturing the world's finest trailering products since 1946. That's why it makes sense to use genuine **Draw-Tite®** Lunette Rings and Trailer Locks to ensure the integrity of your tow vehicle rig. **Draw-Tite®** components are designed and manufactured to work best with other **Draw-Tite®** products, and all are engineered to the same exacting standards for years of worry-free performance under the most demanding conditions.

Intelligent trailer braking is the key to the success of the Tekonsha® family of braking products. Established in 1964, Tekonsha® technology can be found in some of North America's leading vehicle manufacturers ... a testimony to its superior performance history when it comes to stopping trailers. "No matter what you are towing, Tekonsha® can help you stop it".

PUSH TO TEST BREAKAWAY SYSTEM

- Push to Test: LED's indicate fully charged, charging or recharge
- Multi-Stage Integrated Charger provides a fast recharge up to 12.8 volts. Once battery is fully charged, the automatic float mode is designed to provide a continuous charge without overcharging
- Activates trailer brakes upon separation of trailer and tow vehicle
- For use on 1, 2 or 3 axle trailers equipped with electric brakes
- Weather/corrosion resistant, heavy-duty polymer case to protect battery and charger
- Tekonsha® Breakaway Switch with 48 in. lead wires or 7.5 in. lead wires
- 5 Amp/hr battery, battery box dimensions – 4.25 in. x 6.25 in. x 4.125 in.
- 2 or 3 mounting options
- Note: Make sure battery is fully charged prior to towing

63180

63180 - Mounting Brackets

63181

63180 - Adjustable Arms

5,000 LBS. ADJUSTABLE TOW BARS

- Light-weight, only 31 lbs.
- Arms adjust from 26 in. to 41 in. for universal fit
- Tow bar mounting brackets bolt securely to vehicle bumper - (almost all applications will require a custom fabricated bracket due to bumper design)
- Heavy-Duty quick latch A-Frame coupler fits 2 in. ball
- Tow bar comes assembled, complete with installation instructions
- Some states require the use of double safety chains
- Black powder coat finish

Part Number	Description
63180	Adjustable Tow Bar, 5,000 lbs. GVW, incl. mounting brackets
63181	Adjustable Tow Bar, 5,000 lbs. GVW, incl. mounting brackets with Bolt together 2-piece adjustment arms
40604	Safety Chain Kit, Class III chains rated at 5,000 lbs. GTW
40602	Replacement Bumper Bracket Kit (Qty 2)
2471	Wire Lock Pin

NOTE: Total weight of towed vehicle must not exceed 5,000 lbs., or must not exceed the weight of the towing vehicle.

7000100

WHEEL CHOCK

- Made from high impact polymer
- Reduces the risk of trailer roll
- Fits most trailer wheels

Part Number	Description
7000100	Wheel Chock

50-85-325

5085115
(Bracket Sold Separately)

PUSH TO TEST BREAKAWAY SYSTEM

- Push to Test: LED's indicate fully charged, charging or recharge
- Multi-Stage Integrated Charger provides a fast recharge up to 12.8 volts. Once battery is fully charged, the automatic float mode is designed to provide a continuous charge without overcharging
- Activates trailer brakes upon separation of trailer and tow vehicle
- For use on 1, 2 or 3 axle trailers equipped with electric brakes
- Weather/corrosion resistant, heavy-duty polymer case to protect battery and charger
- Tekonsha® Breakaway Switch with 48 in. lead wires or 7.5 in. lead wires
- 5 Amp/hr battery, battery box dimensions – 4.25 in. x 6.25 in. x 4.125 in.
- 2 or 3 mounting options
- Note: Make sure battery is fully charged prior to towing

Part Number	Description	Packaging
50-85-313	Push to Test Breakaway System for 1 to 3 Axle Trailers with Electric Brakes, Includes Battery Box, 5 Amp Battery with Push to Test LED Test Meter, Integrated Multi-Stage Charger and 7.5" Breakaway Switch	Display Box
50-85-325	Push to Test Breakaway System for 1 to 3 Axle Trailers with Electric Brakes, Includes Battery Box, 5 Amp Battery with Push to Test LED Test Meter, Integrated Multi-Stage Charger and 48" Tekonsha Breakaway Switch	Display Box
Accessory Part		
5085115	Post Mount Bracket	Bulk

50-85-320

PUSH TO TEST BREAKAWAY SYSTEM

- Push to Test: LED's indicate fully charged or recharge
- Built in battery charger charges battery when plugged into the tow vehicle
- Breakaway Switch with 7.5 in. or 48 in. lead wires
- 5 Amp/hr Battery
- Activates trailer brakes upon separation of trailer and tow vehicle
- For use on 1, 2, or 3 axle trailers equipped with electric brakes
- 2 or 3 mounting options
- Note: Make sure battery is fully charged prior to towing

Part Number	Description	Packaging
50-85-315	Push to Test Breakaway System for 1 to 3 Axle Trailers with Electric Brakes, Includes Battery Box, 5 Amp Battery with Push to Test LED Test Meter and 7.5" Breakaway Switch	Display Box
50-85-320	Push to Test Breakaway System with ABCD charger for 1 to 3 Axle Trailers with Electric Brakes, Includes Battery Box, 5 Amp Battery with Push to Test LED Test Meter, and 48" Breakaway Switch	Display Box
Accessory Part		
5085115	Post Mount Bracket	Bulk

NOTE: 3 and 4 axle trailers require minimum 5 Amp-hr battery. For optimal performance, replacement of breakaway electrical components is recommended every 3 to 5 years.

1026 / 1028 / 2026 / 2028

20005 / 20015

20010 / 20020

BREAKAWAY SYSTEMS

- For use on 1, 2, 3 and 4 axle trailers equipped with electric brakes
- These complete systems incorporate the highest quality components in trailer breakaway systems
- Meet or exceed Department of Transportation (DOT) specifications regarding trailer breakaway and holding requirements
- If a breakaway occurs between your tow vehicle and your trailer, the breakaway systems will automatically apply consistent braking power to your trailer brakes
- Quick and easy to install, the systems comes with a weather/corrosion resistant, heavy-duty polymer case to protect the battery and charger

Part Number	Description	Packaging
For 1 and 2 Axle Trailers with Electric Brakes		
1026	Includes 2018 Polymer Battery Case with A-Frame or Post Mounting Bracket; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2005-P Breakaway Switch.	Display Box
For 1, 2, 3 and 4 Axle Trailers with Electric Brakes		
2026	Includes 2018 Polymer Battery Case with A-Frame or Post Mounting Bracket; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch.	Display Box
20005	Includes 2051 Lockable All Polymer Battery Case with Flat Surface Mounting; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch.	Display Box
20010	Includes 20000 Lockable Polymer Battery Case with Weldable Flat Surface Mounting; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch.	Display Box
(With Charger)		
For 1 and 2 Axle Trailers with Electric Brakes		
1028	Includes 2018 Polymer Battery Case with A-Frame or Post Mounting Bracket; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2005-P Breakaway Switch; 1024 DC-to-DC Accelerated Battery Charging Device (ABCD).	Display Box
(With Multi-Stage Integrated Charger)		
For 1, 2, 3 and 4 Axle Trailers with Electric Brakes		
2028	Includes 2018 Polymer Battery Case with A-Frame or Post Mounting Bracket; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch; 2024-07 DC-to-DC Heavy Duty Quick/Maintenance (Multi Stage) Battery Charger.	Display Box
20015	Includes 2051 Lockable All Polymer Battery Case with Flat Surface Mounting; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch; 2024-07 DC-to-DC Heavy Duty Quick/Maintenance (Multi Stage) Battery Charger.	Display Box
20020	Includes 20000 Lockable Polymer Battery Case with Weldable Flat Surface Mounting; 2023 Rechargeable Sealed 12v 5 Amp-hr Lead Acid Battery and Terminals; 2010-P Breakaway Switch; 2024-07 DC-to-DC Heavy Duty Quick/Maintenance (Multi Stage) Battery Charger.	Display Box

NOTE: 3 and 4 axle trailers require minimum 5 Amp-hr battery. For optimal performance, replacement of breakaway electrical components is recommended every 3 to 5 years.

50-85-302

50-85-312

BREAKAWAY SYSTEM

- Activates trailer brakes upon separation of trailer and tow vehicle
- For use on 1, 2 or 3 axle trailers equipped with electric brakes
- Weather/corrosion resistant, heavy-duty polymer case to protect battery and charger
- Breakaway Switch with 7.5 in. lead wires
- 5 Amp/hr Battery, battery box dimensions – 5 in. x 4.125 in. x 4 in.
- Flat Surface Mounting
(Note: optional post mount bracket available)
- Note: Make sure battery is fully charged prior to towing

Part Number	Description	Packaging
50-85-302	Breakaway System	Boxed
50-85-312	Breakaway System with Charger	Boxed
Accessory Part		
5085115	Post Mount Bracket	Bulk

50-85-002

50-85-007

BREAKAWAY SWITCHES

- Completely sealed breakaway switches to automatically set trailer brakes in case of accidental trailer breakaway
- Required by law in some states
- Emergency use only, not to be used to lock brakes when parked or stored
- 2010, 50-85-007 and 2005 have reinforced nylon case, weldable metal tab, nylon pin assembly and are rust and corrosion free 2009 has all metal parts and a brass pin assembly

2010-B125

2005-B120

2009-B60

Part Number	Description	Packaging
50-85-007	Breakaway Switch with 48" wires with Cable and Nylon Pin Assembly	Bulk
2010-B125	Breakaway Switch with 48" wires with Cable and Nylon Pin Assembly	Bulk
2005-B120	Breakaway Switch with 48" wires with Cable and Nylon Pin Assembly (for use with 1-3 axle trailers)	Bulk
2009-B60	Breakaway Switch with 48" wires with Cable and Brass Pin Assembly	Bulk
Replacement Parts		
50-85-002	48" Replacement Cable and Nylon Pin Assembly (for 50-85-007 Switch)	Bulk
2010-A	48" Replacement Cable and Nylon Pin Assembly (for 2010 Switch)	Bulk
2005-A	48" Replacement Cable and Nylon Pin Assembly (for 2005 Switch)	Bulk
2009-A	48" Replacement Cable and Brass Pin Assembly (for 2009 Switch)	Bulk

NOTE: Most states require breakaway switch with separate power supply when towing a trailer.

2023

SEALED LEAD ACID BATTERY

- 12v, sealed lead acid battery for use with Breakaway Systems on single, tandem and tri-axle trailers equipped with electric brakes
- Battery requires periodic recharging to maintain optimum performance

Part Number	Description	Packaging
2023	5 Amp-hr Sealed Battery	Bulk

2018

BATTERY CASES

- Rust-proof heavy duty polymer cases protect battery and charger from elements and corrosion
- Featuring U-shaped clamp style fastener on #2018 to mount over most trailer tongues, #2051/5085102 is a lockable case, and #20000 features a galvanized metal mounting bracket with locking bar for secure battery protection

Part Number	Description	Packaging
2018	Battery Case - One-Bolt Installation on Jackpost or A-Frame	Bulk
2051	Battery Case - Four-Bolt Installation on Flat Surface	Bulk
20000	Battery Case - Two-Bolt or Weldable Installation on Flat Surface	Bulk

20000

BATTERY CHARGERS

- For all 12v battery systems with a 4 Amp-hr minimum output
- 2024-07 is designed to fit securely into the Breakaway Battery Cases
- Temperature compensated design provides continuous recharge with automatic float mode feature to prevent overcharging
- 1024/50-85-104 will return trailer breakaway system batteries to their maximum potential
- Patent pending
- 2025-09 features an automatic float mode to prevent overcharging
- Ideal for seasonal storage and maintenance of recreational vehicles, motorcycles, snowmobiles, lawn tractors, and more

Part Number	Description	Packaging
50-85-104	DC-to-DC Accelerated Battery Charging Device (ABCD)	Bulk
1024	DC-to-DC Accelerated Battery Charging Device (ABCD)	Clam
2024-07	DC-to-DC Heavy Duty Multi Stage/Maintenance Charger	Bulk
2024-07-S	DC-to-DC Heavy Duty Multi Stage/Maintenance Charger	Clam
2025-09	AC-to-DC Multi Stage Maintenance Charger	Clam

ELECTRIC TRAILER BRAKE ASSEMBLIES

- Units are assembled
- Assemblies include: Backing Plate, Shoe and Linings, Magnets, Actuating Lever, Adjusting Screw and Spring Hardware

5707

Part Number	Description	Packaging
5707	10" x 2 1/4" L.H. Dexter Assembly	Boxed
5708	10" x 2 1/4" R.H. Dexter Assembly	Boxed
5711	12" x 2" L.H. Dexter Assembly	Boxed
5712	12" x 2" R.H. Dexter Assembly	Boxed
5713-HA	12" x 2" L.H. Hayes Assembly (Replace in Pairs)	Boxed
5714-HA	12" x 2" R.H. Hayes Assembly (Replace in Pairs)	Boxed
6709TEK	10" x 2 1/4" L.H. AL-KO Assembly	Boxed
6710	10" x 2 1/4" R.H. AL-KO Assembly	Boxed
6713	12" x 2" L.H. AL-KO Assembly	Boxed
6714	12" x 2" R.H. AL-KO Assembly	Boxed

SELF-ADJUSTING ELECTRIC TRAILER BRAKE ASSEMBLIES

- Replaces Dexter Electric Trailer Brake Assemblies
- Self Adjusting
- Units are assembled
- Replace in pairs
- Assemblies include: Backing Plate, Shoe and Linings, Magnets, Actuating Lever and Spring Hardware

54801-005

Part Number	Description	Packaging
54801-005	10 x 2 1/4 Right Hand Brake Assembly - Self-Adjusting	Boxed
54801-006	10 x 2 1/4 Left Hand Brake Assembly - Self-Adjusting	Boxed
54801-007	12 x 2 Right Hand Brake Assembly - Self-Adjusting	Boxed
54801-008	12 x 2 Left Hand Brake Assembly - Self-Adjusting	Boxed

ELECTRIC TRAILER BRAKE ASSEMBLIES

- Replaces Dexter Electric Trailer Brake Assemblies
- Units are assembled
- Assemblies include: Backing Plate, Shoe and Linings, Magnets, Actuating Lever, Adjusting Screw and Spring Hardware

54801-126R

WHEEL NUTS AND BOLTS

- Secures wheel to brake drum

Part Number	Description	Packaging
5780TEK	13/16 Wheel Nut - (1/2 - 20) - Set of 5	Clam Shell
5787	Wheel Bolt - (1/2 - 20) - Set of 5	Clam Shell

BRAKE ASSEMBLY MOUNTING BOLTS

Part Number	Description	Packaging
5720	3/8" Brake Assembly Mounting Bolt (Used on 5 Bolt Mounting Patterns)	Clam Shell
5721	7/16" Brake Assembly Mounting Bolt (Used on 4 Bolt Mounting Patterns)	Clam Shell

SPINDLE NUT KITS

- Secures brake hardware on spindle axles

Part Number	Description	Packaging
5774	Spindle Nut Kit - Standard Washer - (1" - 14 Spindle)	Clam Shell
5775	Spindle Nut Kit - D Type Washer - (1" - 14 Spindle)	Clam Shell

WB100 0700

WHEEL BEARING KITS

- Designed to fit most hubs used on boat, utility, snowmobile, and RV trailers
- Kit includes 2 bearing cones, 2 bearing cups, grease seal, and cotter pin

Part Number	Spindle Outer Diameter (in.)	Hub Diameter (in.)
WB100 0700	1	1.980
WB106 0700	1-1/16	1.980
WB138T0700*	1-3/8 x 1-1/16	1.980

*Applies to tapered axle applications.

WB106 0700

BEARING PROTECTORS

- Protects wheel bearings from the elements during all trailer operations
- Automatically maintains the correct internal pressure – cannot damage seals
- Chrome-plated steel construction
- Sold in pairs and are available in bulk or full color display packages
- Some models include vinyl cover (see chart)

PLASTIC FENDERS

PLASTIC FENDERS

- High density polyethylene (HDPE) fenders
- Injection molded
- Corrosion proof
- Impact resistant, 300 lbs. capacity
- Molded-in color is "scratch proof"
- Built-in fender skirt
- Optional integral step pad
- Handles temperature extremes
- Mounting slots

BOAT GUIDES

- Boat guides help you visually guide your boat onto your trailer
- High-strength super gripper mounting brackets attach firmly above and below the trailer frame
- Easy bolt-on mounting fits trailer frames up to 3 in. x 5 in. high
- Adjustable to provide optimum fit to any hull design

Part Number	Description	Upright Height (in.)
GB44 0101	Non-Marring, Marine Grade PVC Tubing, 1 Pair	44
GB150 0100	Non-Marring, Marine Grade PVC Tubing, 1 Pair	50
BGR20 0101	Steel Construction with Non-Marring, Cushioned Rollers, 1 Pair	20
Accessory Part		
500358	Cap for BGR20 0101	

WATERWICK™

- Absorbs moisture from the air
- Helps control mold and mildew
- Contains 1.65 lbs./750 grams of Calcium Chloride (salt) that can absorb up to 1/4 gallon of moisture
- 32 in. long (with hook extended), 1.88 lbs.
- Designed for use in RVs, Trailers, Boats

Part Number	Description
1000750†	Waterwick

† = Available while supplies last. US Patent 6.273.942. B1

Recommended Usage		
Square Feet	Humidity	Number of Units
Up to 30'	Low	1-2
	High	2-3
Over 30'	Low	2-3
	High	3-4

General guidelines only. Number of units needed may vary depending on your specific needs.

NOTE: Contains Calcium Chloride (salt). Possible adverse effects in case of contact with eyes.

MARINE GRADE CARPETING

- Marine Grade carpeting allows the do-it-yourselfer to replace worn and dirty carpet on bunk trailers
- The carpet protects your boat investment by reducing scratching on the hull and keeps it in like-new condition
- Individual rolls are shrink-wrapped for shelf display

Part Number	Description
CR8008	Bunk Carpeting, Black, 8" x 144"
CR8012	Bunk Carpeting, Black, 12" x 144"

OUTBOARD MOTOR LOCK

- Heavy-duty barrel key lock mechanism for maximum security
- Foam filler insert reduces noise and vibration
- Mounts on most outboard motors

Part Number	Description	Packaging
OML 0127	Outboard Motor Lock	Clam Shell

SAFETY CHAINS

CHA0010340

CHA0040324

SAFETY CHAINS

- Safety chains are required by law in most states
- Cross chains when towing for added safety
- All chains conform to J684.6.3.4 SAE standards

Part Number	Description
40604	Class III 30" with Quick Links, Heavy Duty Safety Chain Kit for Tow Bars (5,000 lbs. GTW)

49149

CLASS III SAFETY CHAIN WITH CLEVIS HOOK

Part Number	Description
49148	Class IV 32", 5/16" Proof Coil Grade 30 5/16" Clevis Slip Hook, One End (7,600 lbs. GTW)
49149	Class IV 36", 1/2" Proof Coil Grade 30 3/8" Clevis Slip Hook, One End (10,600 lbs. GTW)
49147	Class IV 35", 3/8" High Test 43 Clevis Slip and Latch Hook (16,200 lbs. GTW)

63451

CLASS V SAFETY CHAIN WITH CLEVIS HOOK

Part Number	Description
63451 NEW	Class V 35", 1/2" Proof Coil Grade 30, 3/8" Clevis Slip Hook, One End (26,400 lbs. GTW), Perfect for 3" Receivers

4234

34141

SAFETY CHAIN LOOPS

Part Number	Description
4234	2,000 lbs. Class I Safety Chain Loop
1962	5,000 lbs. Class II/III Safety Chain Loop
34141	10,000 lbs. Class IV Safety Chain Loop

63029

63030

TOW HOOKS

Part Number	Max GTW (lbs.)	Description	Packaging
63029	10,000	Tow Hook with Mounting Bolts (Chrome)	Bulk
63030	10,000	Tow Hook with Mounting Bolts (Black)	Bulk

44150 - S-Hook

JC1000300 - J-Clip

S-HOOKS / J-CLIP - FOR TRAILER SAFETY CHAIN

Part Number	Description
44150	S-Hook for Trailer Safety Chain, Class I, Break Strength 2,000 lbs.
44153†	S-Hook for Trailer Safety Chain, Class II/III, Break Strength 5,000 lbs.
49152	S-Hook for Trailer Safety Chain, Class IV, Break Strength 7,600 lbs.
JC1000300	J-Clip for Safety Chain

† = Available while supplies last.

CLEVIS SLIP HOOKS WITH LATCH - FOR TRAILER SAFETY CHAIN

Clevis Slip Hook

Part Number	Description
44154	Grade 43, Clevis Slip with Latch, 1/4"
44155	Grade 43, Clevis Slip with Latch, 5/16"
44156	Grade 43, Clevis Slip with Latch, 3/8"
44157	Grade 43, Clevis Slip with Latch, 1/2"
44163	Grade 70, Clevis Hook with Latch, 1/4"
44159	Grade 70, Clevis Hook with Latch, 5/16"
44164	Grade 70, Clevis Hook with Latch, 3/8"

Spare Tire Carrier

SPARE TIRE CARRIER

- Fits most 4, 5 and 6 lug wheels - up to 16-1/2 in.
- Provides 4-3/4 in. lift and over 7 in. of offset to mount tire up and out of the way
- Zinc-plated to resist corrosion
- Easy bolt-on installation, no cutting or drilling required
- Fits trailer tongue up to 3 in. wide by 5 in. high
- All mounting hardware and instructions included

Part Number	Description	Packaging
HDSTC 0101	Spare Tire Carrier	Bulk

Hi-Mount Spare Tire Carrier

HI-MOUNT SPARE TIRE CARRIER

- Heavy-duty, welded and reinforced steel plate construction
- Zinc-plated to resist corrosion
- Adjustable bolt circle to fit both 4 and 5 lug wheels
- Fits all trailer tongues up to 3 in. wide by 4 in. high
- Includes zinc-plated mounting hardware and instructions
- Security locking hole to lock wheel and bracket to trailer using a security cable and lock (cable and lock sold separately)

Part Number	Description	Packaging
STC1000301	Hi-Mount Spare Tire Carrier	Bulk

ETC 0101

ETCLB 0700

ECONOMY SPARE TIRE CARRIER

- Fits 8 in., 9 in., 12 in., 13 in., 14 in. and 15 in. wheels with 4 or 5 lug rims
- Easy to install
- Includes lug nuts to secure wheel to frame
- Heavy-duty 1/2 in. diameter construction
- Zinc-plated to resist corrosion

ETCHL 0700

Part Number	Description	Packaging
ETC 0101	Economy Spare Tire Carrier	Box
ETCLB 0700	Economy Spare Tire Carrier with Locking Levers	Box
ETCHL 0700	Economy Spare Tire Carrier with Locking Levers and HLO Lock	Box

ETCSTL0701 - Spare Tire Carrier with Lock

STL 0603 - Spare Tire Lock

ECONOMY SPARE TIRE CARRIER AND SPARE TIRE LOCK

- Theft-resistant locking cap
- Fits over wheel studs (up to 9/16 in. diameter) to deter spare tire theft
- Removable plug allows longer wheel studs to protrude through cap
- Locking tab provides positive locking feature to prevent lock from turning

Part Number	Description	Packaging
ETCSTL0701	Economy Spare Tire Carrier with STL Spare Tire Lock	Box
STL 0603	Spare Tire Lock	Box

RECEIVER AND COUPLER LOCKS

RECEIVER LOCKS

Part Number	Description
580412	Receiver Lock, Dogbone Style, 5/8" for 2-1/2" Square Receivers, Class V
63259	Receiver Lock, Dogbone Style, 5/8" for 3" Square Receivers, Sleeved for 5/8" and 3/4", Class V
63260	Receiver Lock, 5/8" for 3" Square Receivers, Sleeved for 5/8" and 3/4" Ball Bearing Pick Proof Design, Class V

TRAILER COUPLER LOCKS

Part Number	Description
63225	Coupler Lock, Fits Most Straight Tongue Couplers, 1/4" Pin Diameter, 3/4" Span
63227	Coupler Lock for 2-5/16" Ball
63228	Coupler Lock for 2" Ball
55003	Universal Coupler Lock, Fits 1-7/8 in., 2 in. and 2-5/16 in. Couplers

KEYED ALIKE COUPLER AND HITCH LOCKS

- Avoid the complication of having to keep track of different keys for every lock
- Includes 2 keys
- Order in multiples of 3 / minimum order is 3 locks

Part Number	Description
63216KA†	KEYED ALIKE 1/2" Receiver Lock for Class II Receiver Hitches
63217KA	KEYED ALIKE 5/8" Receiver Lock for Class III and IV Receiver Hitches
63218KA†	KEYED ALIKE Class II 1/2" Receiver Lock and 1/2" Span Style Coupler Lock
63219KA†	KEYED ALIKE Class III and IV 5/8" Receiver Lock and 1/2" Span Style Coupler Lock
63220KA†	KEYED ALIKE 1/2" Span Style Coupler Lock
63221KA†	KEYED ALIKE 2" Span Style Coupler Lock with 1/4" Pin
63222KA†	KEYED ALIKE 2-1/2" Span Style Coupler Lock with 1/4" Pin

† = Available while supplies last.

COMBO LOCKS

Part Number	Description	Diameter (in.)
63250	Combo Lock Set, Dogbone Receiver and Coupler for 1-1/4" and 2" Square Receivers	5/8 and 1/2
63069	Combo Lock Set, for 2" Square Receivers, Keyed Alike	5/8 and 3/4

BULLDOG® LIFELONG® LOCKS

- Delivers triple security
- Stronger break resistance
- Dual self-locking design
- High security square key design
- Includes dust cap

Part Number	Description
580400	Chrome Bent Shank Lock for Class III and IV, 5/8" Diameter
580401	Chrome Dogbone Lock for Class III and IV, 5/8" Diameter
580402	Stainless Steel Dogbone lock for Class III and IV, 5/8" Diameter
580403	Chrome Coupler Lock
580404	Chrome Combo Lock Set, 5/8" Dogbone Receiver and Coupler for Class III and IV

BULLDOG® LOCKS

- Includes dust cap
- Easy access models feature side key entry and sliding dust cap
- Lock housing rotates 360°

Part Number	Description
580405	Stainless Steel Dogbone Lock with Sleeve for 1-1/4" and 2" Square Receivers
580406	Stainless Steel Combo Lock Set, 5/8" Dogbone Lock with Sleeve for 1-1/4" and 2" Square Receivers and Coupler
580407	Easy Access Lock with Sleeve for 1-1/4" and 2" Square Receivers
580408	Stainless Steel Coupler Lock
580409	Easy Access Long Coupler Lock
580410	Easy Access Adjustable Coupler Lock

HITCH LOCKS

Part Number	Description	Diameter (in.)
63248	Bent Pin Lock with Extra Pin for 1-1/4" and 2" Square Receivers	5/8 and 1/2
63224	Bent Pin Lock for 1-1/4" Square Receivers, Perfect for Fifth Wheel Base Rails	1/2
63223	Bent Pin Lock for 2" and 2-1/2" Square Receivers	5/8
63252	Dogbone Lock for 2-1/2" Square Receivers, 3-1/2" Span, Class V	5/8
63253	Bent Pin Lock for 2-1/2" Square Receivers, 3-1/2" Span, Class V	5/8

TRAILER ACCESSORIES

63256

TOW AND STORE™ LOCK SET

- Guards against towed and parked trailer thefts
- Universal coupler lock fits 1 7/8 in., 2 in., 2 5/16 in.
- Dual bent pin lock: 1/2 in., 5/8 in.
- Adjustable coupler lock: 5/8 in., 1 in.
- 3 interchangeable keys

Part Number	Description
63256	Tow and Store Lock Set, Universal Coupler Lock, Trailer Lock and Receiver Lock, Keyed Alike

CLK15 0100

CABLE LOCKS

Part Number	Description
CLK15 0100	Cable Lock with Key, 3/16" x 15' Length
63233	Cable Lock, 5/16" x 10' Length
63255	Cable Lock, 5/16" x 4' length

POD HAZARD MULTI-USE LED ROADSIDE WARNING DEVICE

- Nine different illumination modes, including S.O.S safety mode to alert passing motorists
- Illuminate anything, anywhere with the 350 Lumens lamp and integrated red LED Warning lights
- Durable and weather resistant, easy grip plastic housing is compact (2 in. tall), easy to use and easy to store in the glove box
- Mounts to almost anything with its multiple mounting options including magnet, swivel hook, permanent base, or option for added hook and loop
- Use in the rain or snow
- Visible from 1/4 mile away in daylight conditions
- Use on a trailer, RV, vehicle or as an extra light source in a garage or workshop
- Requires 3 AAA Alkaline batteries per POD (not included)

Part Number	Description
PD110200 NEW	POD HAZARD Multi-Use LED Roadside Warning Device, 2 Pack, Batteries Sold Separately
PD110700 NEW	POD HAZARD Counter Top Display, Includes(3) PD110200, Batteries Sold Separately
PD110101 NEW	POD HAZARD, 1 Pack Clamshell, Batteries Sold Separately

7000100

WHEEL CHOCK

- Made from high impact polymer
- Reduces the risk of trailer roll
- Fits most trailer wheels
- Counter display box

Part Number	Description
7000100	Wheel Chock

ADJUSTING THE SWIVEL MOUNT HEIGHT FOR F2® JACKS

Required Tools:

3/4 Socket, Ratchet Wrench, Torque wrench.

Adjusting Swivel Mount Height (If Necessary):

With jack removed from trailer, loosen the two swivel fasteners until the slide block moves freely along outer tube. To access the upper bolt be sure the swivel bracket is rotated in the horizontal (3" mounting) position as shown. Adjust swivel mount to desired location and re-torque to 60-70 ft-lbs. After adjustment, check for proper swivel and pin engagement.

Loosening factory torqued nuts and bolts on your swivel mount:

1. Cover your work area with a piece of cardboard or a towel to protect the finish on your jack
2. Position the jack firmly on a bench at waist level
3. Turn mounting bracket so that the pull pin is toward the caster(s)
4. Brace the gearbox against your hip and firmly grip the caster
5. Loosen the half inch nut inside the swivel mount by pulling toward your body

6. Remove the nut from the back of the swivel mount

7. Pull the pull pin and remove the swivel mount

8. Loosen the standard hex bolt with the 5/16 hex wrench

9. Adjust the mount height

10. Re-torque the nut on the slide block to 60 ft-lbs

Final Steps:

11. Replace the swivel mount making sure that the washer is still in place

12. Replace the nut on the back of the swivel mount

13. Re-torque the nut on the back of the swivel mount to 60 ft-lbs

14. You are now ready to enjoy your Fulton F2 Jack

JACK REPLACEMENT QUICK REFERENCE GUIDE

NOTES: This Quick Reference Guide is not intended to supplement your original jack instruction sheet. This guide is only intended to help identify your jack for purposes of service and part replacement.

While servicing your jack, make sure it is not under load.

Replacement parts are intended for worn jack parts. If your jack has been damaged, replace it to prevent unsafe conditions.

Help us help you!

To ensure you receive the most accurate, prompt service possible, collect as much of the following information as possible before calling. If more than one item in a group seems to fit your jack, note all that apply and what about your jack that makes it fit that category. Some helpful pictures are shown at the bottom of the next page.

Jack Series and Capacity (Available on product label or in stamped marking)

Handle Style (Available by inspection)

Plunger Pin Size (Available by inspection, not a feature on all jack models)

Mount Type (Available by inspection. Note if your mount is welded or bolted to your trailer tongue.)

Technical information is current as of the printing of this catalog. Contact technical service for periodic updates.

WHOLE JACK EXAMPLES

Foot/Wheel Type (Available by inspection)

Removable Wheel
(Wheels may also be fixed to the jack)

Removable Foot
(Feet may also be fixed to the jack)

No Foot

Drop Leg

Some Examples of whole jacks are below

Top-Wind,
Eagle Claw Knob,
1/2" Plunger Pin,
Snap-Ring Mount,
Fixed Regular Foot

Side-Wind,
Teardrop Knob,
Internal Gearbox,
1/2" Plunger Pin,
Bolt-Thru I Mount,
No Foot

Rack Jack,
Teardrop Knob,
Bolt-on

Top-Wind,
Eagle Claw Knob,
A-Plate,
Removable Wheel

Side-Wind,
Teardrop Knob,
External Gearbox,
Tube Mount,
Fixed Large Foot

Technical information is current as of the printing of this catalog. Contact technical service for periodic updates.

JACK ASSEMBLY QUICK REFERENCE GUIDE

Assembly Quick-Reference Guide

Side-Wind Jack Assembly:

- 1) Carefully remove all parts from the gearbox. The grooved pin is very secure in place and you may need to rotate the jack handle to reveal and remove it.
- 2) Place the flat washer over stem at the bottom of the gearbox.
- 3) Place the solid pin through the hole in the stem and place the gear over the solid pin so that the solid pin rests in the slot on the gear that does NOT go across the entire gear. The lower gear should be the larger of the two gears if the gears are a different size.
- 4) If you have an internal gearbox, install the bushing from inside the jack tube.
- 5) Insert the handle through the bushing and the second gear. Be sure the gear teeth are fully engaged and the handle is sticking out the far side of the jack after this step.
- 6) The grooved pin must now be inserted through the second gear and the handle. It may be necessary to rotate the handle 1/4 turn to expose the hole in the handle. The groove pin will fit very tightly and should be installed carefully to avoid damage to the jack body. Make sure the pin is centered in the handle to ensure smooth cranking.
- 7) Re-install the cap with even pressure, or with the bolts and nuts as it was removed.
- 8) Be sure the jack is assembled properly and functions as new before using it to support a load.

Bolt-Thru Assembly:

Place the jack bracket into the recessed opening of the mount. Place the small end of the bushing into the jack bracket and onto the bolt. Tighten until there is little movement in the bushing.

Snap Ring Assembly:

Place the jack bracket over the mount so that the snap ring groove is reachable on the inside of the jack bracket. Insert the snap ring into the groove. Be sure the snap ring is fully seated in the groove.

Plunger Pin Assembly:

First select the appropriate hole for the plunger pin. When viewing the jack from the crank side, 3/8" pins fit into the left hole, 1/2" plunger pins fit into the right hole. Also check that the mating bracket has the correct size holes in it.

- 1) Start the plunger pin through the jack bracket and place the spring and washer on the plunger pin before fully inserting the plunger pin through the jack bracket.
- 2) The spring and washer must be compressed to allow the cotter pin to be properly inserted into the plunger pin.
- 3) Be sure the jack is assembled properly and functions as new before bending the cotter pin to secure the plunger pin assembly and before using it to support a load.

STANDARD AG IMPLEMENT ENHANCED LIGHTING SCHEME

Under both the standard and enhanced lighting schemes, when traveling straight forward, the amber (outside) lights flash in unison with the tractor's amber lights on the high intensity at approximately 100 pulses per minute, and the low intensity of the red (inside) lights are on constantly.

With the standard wire harness in place, when a turn is being signaled, the amber light signaling the turn will increase flashing to approximately 120 pulses per minute with the amber light on the opposite side changing to a constant high intensity light. This mirrors the amber light on the tractor. Both red lights, however, remain on a constant low intensity.

To meet the enhanced lighting standard, introduce Electronic AG Light Enhanced Module to the implement's wire harness, and simply add red lights that have an active high intensity along with an additional RH and LH wire to these red lights. With this enhanced AG lighting system, during a turn the red light next to the amber turn side light will rapidly flash on the high intensity in unison with the amber light, and the red light on the opposite side will remain constant on the high intensity. This is a dramatic safety feature to better signal (to everyone) turns by tractors and implements.

AG LIGHTING WIRING DIAGRAM

Normal Driving Mode

1. Red tail lights (low filament) steady burn if turned on.
2. Amber warning lights flashing in unison with tractor at 60 to 85 flashes per minute.

Turning Mode

1. Amber flashing warning light and red light opposite the direction of turn shall become steady burning. The red light is on high filament.
2. Amber flashing warning light in direction of turn shall increase in flashing a minimum of 20 flashes per minute. In addition the red light in the direction of turning shall change from steady burn to flash in unison with the amber turn light and will flash from high red to low red filament.

NOTES:

1. ELECTRONIC CONVERTER SUPPLIED WITH CIRCUIT PROTECTION ON RED AND BLACK LEADS

AGRICULTURAL LIGHTING INFORMATION

AG LIGHTS

Meet lighting standards for agricultural field equipment and improve highway operating safety easily and cost effectively with AG Lights by Horizon Global. No other lighting package offers you the quality and dependability of AG Lights by Horizon Global. Designed specifically for the agricultural industry, AG Lights by Horizon Global withstand the most rigorous field and environmental conditions for long life and wear without repair. A variety of mounts enable easy and quick placement on all towable field equipment – harvesters, field cultivators, tillage equipment, forage boxes, and more.

SAFETY IS KEY

Meet ASAE lighting recommendations for agricultural equipment and improve safety, while operating on highways easily and cost effectively, with AG Lights by Horizon Global. No other lighting package offers you the quality, durability, and reliability of AG Lights by Horizon Global. Designed specifically for the agricultural industry, these Heavy-Duty AG Lights, when combined with Horizon Global's AG Wiring, withstand the most rigorous field and environmental conditions for long life and wear.

DURABLE, DEPENDABLE CONSTRUCTION OF HEAVY-DUTY AG LIGHTS

- High-impact, glass-filled thermoplastic housings deflect objects away from the lens area and prevent them from damaging or dislodging the lights assembly
- Acrylic lenses
- All fasteners provided are coated to resist rust
- Bulb replacement, if ever needed, is simple – uses readily available standard automotive #1157 bulbs

USER-FRIENDLY DESIGN

- AG Harnesses are designed with a full-length ground circuit, from tractor to AG Lamp, assuring reliable and continuous operation
- Each light's wiring is routed through a center port area, helping facilitate a variety of light placement
- AG Lights by Horizon Global are available with a variety of connector options.
- Choose from mounting screws, bolts, or heavy-duty magnets to meet your mounting needs

- All lighting units are designed for easy customer repairs... right in the field. Pry out lenses with flat screwdriver for easy access to, and replacement of, the #1157 bulb
- Five distinctly different light styles to meet your performance and styling requirements

ELECTRONIC ENHANCED AG LIGHTING MODULE

Horizon Global, known for innovation and product reliability, presents an electronic module to deliver the ASAE recommended "enhanced turn signal lighting" with conventional AG lights and a standard wiring scheme. This unit may be hard-wired into the AG lighting harness or coupled-in by use of a variety of plug assemblies.

Use of Horizon Global's electronic enhanced AG lighting module helps to meet the new ASAE standard cost effectively. It eliminates the need for special wedge-based bulbs and non-standard wire schemes to deliver the enhanced turn signal lighting called for by this ASAE standard.

Refer to the Standard AG Implement Enhanced Lighting Guide

MULTIPLE MOUNTING OPTIONS

A variety of mounts enable suitable placement on tractors and all towable field equipment – harvesters, cultivators, tillage equipment, fertilizers, forage boxes, and more. Heavy-Duty AG Lights by Horizon Global have a patented design incorporating multiple mounting options and lighting combinations. Dual AG Light models provide amber flashing and turn indicators plus red tail light functions. Amber or red single lights provide maximum mount flexibility (vertically or horizontally) to meet applicable lighting requirements. All AG Lights by Horizon Global, except the grommeted series, are equipped with an exclusive molded weather-resistant low profile tri-plug. Custom plug configurations are also available.

Additionally, an optional brake light function is available for dual light or single red-lensed models. This optional function is also needed on lights used with enhanced turn light systems. The brake light option is recommended when implements are to be towed by non-farm vehicles or tractors with brakes (brake lights).

AG SAFETY LIGHTING SYSTEMS

Technical information is current as of the printing of this catalog. Contact technical service for periodic updates.

LIGHTING TIPS AND FAQs

Do I have to use a light or can I use a reflector instead?

Lighting and conspicuity requirements are governed by FMVSS & CMVSS 108. Their use is determined by safety and identification requirements.

Why use LED and not Incandescent? The key difference is the way both technologies operate. While both technologies are an acceptable means for vehicle lighting, LED is the stronger technology in Energy Efficiency, Light Output, Reliability, Safety and Life Expectancy.

Do LED lights have to be mounted differently than Incandescent? No, the FMVSS/CMVSS 108 mounting requirements are the same.

When retrofitting a Bargman 59 or 84/85/86 Series Incandescent light with LED can the old lenses be reused? No, Bargman 59 & 84/85/86 Series LED module kits come with pre-assembled lenses and a simple "plug & play" replacement design.

What does stop/tail/turn mean? How many lights do I need to use to achieve it? Are they the same as "Tail Lights"?

Stop/Tail/Turn is a combination rating meaning a specific light or grouping of lights in an assembly meet the requirements for this named combination. This rating can be achieved using 1 light alone as long as the light source meets the requirements for the specific application.

Why does Horizon Global offer so many different types & styles of lights for a vehicle? Horizon Global is never satisfied with the status quo and is continually striving to design lights that will meet the designated federal requirements and fit our customer's specific application needs.

When using a Multi-Function Stop/Tail/Turn Light, is a Backup Light function required and does it matter where the Backup Light is located? The requirement for and location of the Backup Light is determined by vehicle type and FMVSS/CMVSS 108 requirements.

Why are some Turn Signal Lights Red and others Amber, does it matter which color I use? Yes, the color does matter. While both colors are acceptable for turn signals, the color use is primarily driven by the "Stop" Function. When using a multi-function Stop/Turn light, the color must be Red as required by FMVSS/ CMVSS 108 requirements.

What does "Over" or "Under" 80 refer to? This is a reference to a vehicles width in inches. There are differing FMVSS/CMVSS 108 requirements covering this dimensional reference point.

What are "Over 80" Combination Tail Lights?

These units meet seven or eight lighting requirements as defined by FMVSS/CMVSS 108.

What are "Under 80" Combination Tail Lights? These units meet six or seven lighting requirements as defined by FMVSS/CMVSS 108.

What is the difference between Side Marker & Clearance Lights? Side Marker Lights are mounted on the side of a vehicle and are used to define its length. Clearance Lights are mounted on the front and rear of a vehicle and are used to define its width.

What are "PC" Side Marker/Clearance Lights?

These lights meet the FMVSS/CMVSS 108 requirements for photometric certification as both Clearance and Side Marker Lights when properly mounted.

The symbol is for Wet Location Lights. What does it mean?

Wet Location Lighting products in this catalog are either: "Waterproof/Sealed" or "Submersible" and are safe to use on marine and other trailers that will be in and around the water or UL listed as suitable for wet location use.

What are Submersible Lights? Submersible lights purposely allow water to enter the light assembly, however a cushion of air forms when water enters the light and will protect the bulbs and electrical connectivity from damage. This natural phenomenon is known as the "Bell Jar Principle". These lights are ideal for boat trailers and utility trailers that will be submersed in water.

What are Waterproof/Sealed Lights? "Waterproof" and "sealed" mean exactly the same - these lights are completely sealed and will not allow water to enter the inside of the light assembly. Many of our new LED Side/Marker and Tail Lights are completely sealed as to prevent water from damaging the circuit board and components associated with LED Technology.

Why are vehicle lights grounded? Vehicle lights are grounded in order to complete the electrical circuit. There are differing ways to ground them to meet various applications.

What is an ID Bar, and can one be used as a multi-function Stop/Tail/Turn as well? An ID Bar is an identification Bar. It consists of 3 lights and is required in order to identify the rear center location on over 80" vehicles. They May Not be used as Multi-Function Lights.

TRAILER FEDERAL LIGHTING EQUIPMENT LOCATION REQUIREMENTS

IMPORTANT NOTE: Every lamp, reflex reflector, and conspicuity treatment must be permanently attached in the location specified below and must comply with all applicable requirements prescribed for it by FMVSS/CMVSS 108. The face of any device on the front/rear and sides should be, respectively perpendicular and parallel to the vehicle's centerline, unless it is photometrically certified at instal-

lation angle. No part of the vehicle shall prevent any device from meeting its prescribed requirements unless an auxiliary device meeting all prescribed requirements is installed. In Canada: Manufacturers and importers of vehicles must have the proper certification test records demonstrating compliance of lighting components with all prescribed requirements.

This table summarizes lighting equipment requirements contained in Federal/Canada Motor Vehicle Safety Standard 108. While Horizon Global believes this to be an accurate summary of the latest printed information, the actual standard should be consulted for design or other such purposes. For complete compliance requirements consult Title 49 - Code of Federal Regulations-Section 571.108 (USA) or Section 108 of the Motor Vehicle Safety Regulations (Canada). State or Provincial regulations, where they may apply, have not been included.

TRAILER FEDERAL LIGHTING EQUIPMENT LOCATION REQUIREMENTS

BASIC EQUIPMENT REQUIRED ON ALL TRAILERS

DESCRIPTION				MANDATORY REQUIREMENTS			
Area	Equipment	SAE Lens Coding	Functional Purpose	Quantity	Color	Location	Height mm(in.) from the ground
1	Tail Lamps	(T)	Indicate vehicle's presence and width	Minimum 2	Red	On the rear - symmetrical as far apart as practicable	380-1830 (15-72)
	Stop Lamps	(S)	Indicate braking	Minimum 2	Red	On the rear - symmetrical as far apart as practicable	380-1830 (15-72)
	Rear Turn Signal Lamps	(I)	Indicate direction of turn	Minimum 2	Red or Yellow	On the rear - symmetrical as far apart as practicable	380-2110 (15-83)
	Rear Reflex Reflectors	(A)	Indicate vehicle's presence and width	Minimum 2	Red	On the rear - symmetrical as far apart as practicable facing rearward	380-1530 (15-60)
2	License Plate Lamp(s)	(L)	Illuminates license plate	Minimum 1	White	On the rear - above or at the sides of license plate	No requirement
3	Rear Side Marker Lamps <small>*photometrically certified at installation angle</small>	(P2, PC* or P3, PC2*)	Front and rear side marker lamps / side reflex reflectors indicate vehicle's presence and length	Minimum 2	Red	Each side at rear as far back as practicable	380-1530 (15-60) no max. for veh. under 2032mm (80") wide
	Rear Side Reflex Reflectors	(A)		Minimum 2	Red facing sideward	Each side at rear as far back as practicable	380-1530 (15-60)
4	a Front Side Marker Lamps <small>*photometrically certified at installation angle</small>	(P2, PC* or P3, PC2*)	Front and rear side marker lamps / side reflex reflectors indicate vehicle's presence and length	Minimum 2	Yellow	Each side at front as far forward as practicable	380 (15) minimum
	b Front Side Reflex Reflectors	(A)		Minimum 2	Yellow facing sideward	Each side at front as far forward as practicable facing sideward	380-1530 (15-60)

ADDITIONAL EQUIPMENT FOR TRAILERS EXCEEDING THE FOLLOWING PARAMETERS

Length 9.1m (30 ft.) or longer

DESCRIPTION				MANDATORY REQUIREMENTS			
Area	Equipment	SAE Lens Coding	Functional Purpose	Quantity	Color	Location	Height mm(in.) from the ground
5	a Intermediate Side Marker Lamps	(P2 or P3)	Indicate presence of a long vehicle	Minimum 2	Yellow	Each side near center facing sideward	380 (15) minimum
	b Intermediate Side Reflex Reflectors	(A)	Indicate presence of a long vehicle	Minimum 2	Yellow	Each side near center facing sideward	380-1530 (15-60)

Width 2032mm (80 in.) or wider

DESCRIPTION			MANDATORY REQUIREMENTS				
Area	Equipment	SAE Lens Coding	Functional Purpose	Quantity	Color	Location	Height
6	Rear Clearance Lamps <small>*photometrically certified at installation angle with tail lamps</small>	(P2, PC* or P3, PC2*)	Show vehicle's width MAY NOT be combined	Minimum 2	Red facing rearward	At widest point - symmetrical on the rear or near the rear ID lamps are at the top	As high as practicable may be lower only if
7	Rear Identification (ID) Lamps	(P2 or P3)	Indicate presence of a wide vehicle	Exactly 3	Red	On the rear - center horizontally spaced 150mm (6 in.) to 300mm (12 in.) apart facing rearward	At the top - may be lower if door header narrower than 25mm
8	Front Clearance Lamps <small>*photometrically certified at installation angle</small>	(P2, PC* or P3, PC2*)	Show vehicle's width	Minimum 2	Yellow facing forward	At widest point - symmetrical on the front or near the front	As high as practicable

Width 2032mm (80 in.) or wider AND GVWR 4536 kg (10,000 lb.) or more

DESCRIPTION			MANDATORY REQUIREMENTS				
Area	Conspicuity Treatment	DOT Coding	Quantity	Color	Location	Height	Options
9	Rear Upper Body Markings		Exactly 2 pairs of 300mm long strips	White	On the rear upper corners facing rearward	At the top	
10	Bumper Bar Marking		Continuous	Red/White	On the rear bumper bar's horizontal element full width - facing rearward	No requirement	
11	Rear Lower Body Marking	DOT-C DOT-C2 DOT-C3 DOT-C4	Continuous	Red/White (see options)	On the rear full width of the vehicle facing rearward	As horizontal as practicable and as close as practicable to the range of 375 to 1525mm from the ground	
12	Side Marking		(see location)	Red/White (see options)	Each side - facing sideward continuous, or evenly spaced over minimum of 50% of length starts and ends as close to the front and rear of the vehicle as practicable	As horizontal as practicable and as close as practicable to the range of 375 to 1525mm from the ground	

NOTE: The edge of red conspicuity tape shall not be closer than 75 mm to the edge of any amber lamp and the edge of white conspicuity tape shall not be closer than 75 mm to the edge of any lamp

TRUCK FEDERAL LIGHTING EQUIPMENT LOCATION REQUIREMENTS

IMPORTANT NOTE: Every lamp, reflex reflector, and conspicuity treatment must be permanently attached in the location specified below and must comply with all applicable requirements prescribed for it by FMVSS/CMVSS 108. The face of any device on the front/rear and sides should be, respectively perpendicular and parallel to the vehicle's centerline, unless it is photometrically certified at installation angle. No part of the

vehicle shall prevent any device from meeting its prescribed requirements unless an auxiliary device meeting all prescribed requirements is installed. In Canada: Manufacturers and importers of vehicles must have the proper certification test records demonstrating compliance of lighting components with all prescribed requirements.

This table summarizes lighting equipment requirements contained in Federal/Canada Motor Vehicle Safety Standard 108. While Horizon Global believes this to be an accurate summary of the latest printed information, the actual standard should be consulted for design or other such purposes. For complete compliance requirements consult Title 49 - Code of Federal Regulations-Section 571.108 (USA) or Section 108 of the Motor Vehicle Safety Regulations (Canada). State or Provincial regulations, where they may apply, have not been included.

TRUCK FEDERAL LIGHTING EQUIPMENT LOCATION REQUIREMENTS

BASIC EQUIPMENT REQUIRED ON ALL TRUCKS, BUSES & MPVs

DESCRIPTION				MANDATORY REQUIREMENTS			
Area	Equipment	SAE Lens Coding	Functional Purpose	Quantity	Color	Location	Height mm(in.) from the ground
1	Headlamps - Lower Beam US requires "DOT" lettering on lens US&Canada - light source code required on lens	(H, HR)	Forward road illumination	Minimum 2	White	On the front - symmetrical as far apart as practicable If 4 lamp system - outboard or above upper beams	560-1370 (22-54)
	Headlamps - Upper Beam US requires "DOT" lettering on lens US&Canada - light source code required on lens	(H, HR)	Forward road illumination	Minimum 2	White	On the front - symmetrical If 4 lamp system - inboard or below lower beams	560-1370 (22-54)
	Parking Lamps Vehicles less than 2032mm wide	(P)	Indicate parked vehicle	Minimum 2	White or Yellow	On the front - symmetrical as far apart as practicable	380-1830 (15-72)
	Daytime Running Lamps (DRL) Canada - required / US - option US requires "DRL" lettering on lens if not headlamp	(Y2)	Indicate in use vehicle	Minimum 2	White or Yellow	On the front - symmetrical as far apart as practicable on type of DRL	380 (15) min. Max. depends
	Front Turn Signal/ Hazard Warning Lamps	(I)	Indicate direction of turn/ identify disabled vehicle	Minimum 2	Yellow	On the front - symmetrical as far apart as practicable	380-2110 (15-83)
2	Front Clearance Lamps Vehicles 2032mm wide or wider *photometrically certified at installation angle	(P2, PC* or P3, PC2*)	Show vehicle's width	Minimum 2	Yellow	At widest point - symmetrical on the front or near the front facing forward	As high as practicable
3	Front Identification Lamps (ID) Vehicles 2032mm wide or wider	(P2 or P3)	Indicate presence of a wide vehicle	Exactly 3	Yellow	On the front - center horizontally spaced 150 mm (6 in.) to 300 mm (12 in.) apart	As high as practicable or on top of the cab
4	a Front Side Marker Lamps *photometrically certified at installation angle	(P2, PC* P3, PC2*)	Front and rear side marker lamps / side reflex reflector indicate vehicle's presence and length	Minimum 2	Yellow	Each side at front as far forward as practicable	380 (15) minimum
	b Front Side Reflex Reflectors	(A)		Minimum 2	Yellow	Each side at front as far forward as practicable facing sideward	380-1530 (15-60)
5	a Rear Side Marker Lamps ** *photometrically certified at installation angle	(P2, PC* or P3, PC2*)		Minimum 2	Red	Each side at rear as far back as practicable	380 (15) minimum
	b Rear Side Reflex Reflectors ** **not required on Truck Tractors	(A)		Minimum 2	Red	Each side at rear as far back as practicable facing sideward	380-1530 (15-60)
6	Rear Clearance Lamps Vehicles 2032mm wide or wider Not required on Truck Tractors *photometrically certified at installation angle	(P2, PC* or P3, PC2*)	Show vehicle's width MAY NOT be combined with tail lamps	Minimum 2	Red	At widest point - symmetrical on the rear or near the rear facing rearward	As high as practicable may be lower only if rear ID lamps are at the top
7	Rear Identification (ID) Lamps Vehicles 2032mm wide or wider Not required on Truck Tractors	(P2 or P3)	Indicate presence of a wide vehicle	Exactly 3	Red	On the rear - center horizontally spaced 150mm (6 in.) to 300mm (12 in.) apart facing rearward	At the top may be lower if doo narrower than 25mm
8	Tail Lamps	(T)	Indicate vehicle's presence and width	Minimum 2	Red	On the rear - symmetrical as far apart as practicable	380-1830 (15-72)
	Stop Lamps	(S)	Indicate braking	Minimum 2	Red	On the rear - symmetrical as far apart as practicable	380-1830 (15-72)
	Rear Turn Signal/ Hazard Warning Lamps	(I)	Indicate direction of turn/ identify disabled vehicle	Minimum 2	Red or yellow	On the rear - symmetrical as far apart as practicable	380-2110 (15-83)
	Rear Reflex Reflectors	(A)	Show vehicle's presence and width	Minimum 2	Red	On the rear - symmetrical as far apart as practicable	380-1530 (15-60)
9	Backup Lamp	(R)	Illuminates ground behind the vehicle and alert road users	Minimum 1	White	Rear	No requirement
10	License Plate Lamp(s)	(L)	Illuminates license plate	Minimum 1	White	On the rear - above or at the sides of license plate	No requirement
11	Center High Mounted Stop Lamp Vehicles less than 2032mm wide and 4536kg	(U3)	Indicates braking	1	Red	On the rear - centerline of the vehicle	860 (34) minimum

ADDITIONAL EQUIPMENT FOR SPECIFIC VEHICLES VEHICLES 9.1m (30 ft.) LONG OR LONGER

DESCRIPTION				MANDATORY REQUIREMENTS			
Area	Equipment	SAE Lens Coding	Functional Purpose	Quantity	Color	Location	Height mm(in.) from the ground
12	a Intermediate Side Marker Lamps	(P2 or P3)	Indicate presence of a long vehicle	Minimum 2	Yellow	Each side near center	380 (15) minimum
	b Intermediate Side Reflex Reflectors	(A)	Indicate presence of a long vehicle	Minimum 2	Yellow	Each side near center facing sideward	380-1530 (15-60)

Truck Tractors

DESCRIPTION		MANDATORY REQUIREMENTS					
Area	Conspicuity Treatment	DOT Coding	Quantity	Color	Location	Height	Options
13	Rear Upper Body Markings	DOT-C DOT-C2 DOT-C3 DOT-C4	Exactly 2 pairs of 300mm long strips	White	Rear upper corners of cab facing rearward	As high as practicable excluding fairings	
14	Rear Marking		Exactly 2 sections of min. 600mm each	Red/ White	Rear - facing rearward - on fenders, on mud flap brackets, or within 300mm below the top of mud flaps	As horizontal as practicable and not higher than 1525mm from the ground	If mud flaps not used - on the cab or frame mounted brackets

NOTE: The edge of red conspicuity tape shall not be closer than 75 mm to the edge of any amber lamp and the edge of white conspicuity tape shall not be closer than 75 mm to the edge of any lamp

BREAKAWAY SWITCH INSTALLATION INSTRUCTIONS

READ THIS FIRST:

Read and follow all instructions carefully before installing or operating the breakaway Switch. Keep these instructions for future reference.

Important Facts to Remember

1. **ATTENTION INSTALLER:** Please give this sheet to consumer upon completion of installation
2. **SAFETY ITEM:** Solder all wire connections
3. Check condition of battery prior to each trip.
4. **⚠️ WARNING** Disconnect trailer plug before testing breakaway unit. Failure to do so will result in severe damage to electronic brake control
5. **⚠️ WARNING** Check your breakaway system periodically to insure that wiring and connections are secure. A short or an open circuit can result in a no-brake condition.
6. For optimal performance, it is recommended that breakaway devices be replaced every 3-5 years

Installation Guide

1. Mount Battery Case securely to frame, jack post or other suitable location on trailer with Breakaway Switch Cable towards tow vehicle
2. **⚠️ WARNING** Switch location should be selected to ensure unobstructed line of pull in event of vehicle separation.
3. Bolt breakaway switch bracket to frame of trailer or battery case bracket using 1/4" bolt and lock nut or (2) 1/4" jam nuts. (Bolt and nuts not included in kit)
4. **⚠️ WARNING** Do not over tighten bolt. Switch must be able to pivot
5. Disconnect trailer from tow vehicle. Check and install battery
6. Wire per schematic. Properly insulate all connections
7. Attaching to tow vehicle: Attach Breakaway Switch Cable to tow vehicle frame being certain the cable does not drag on the ground and no strain or restriction is placed on the cable
8. **⚠️ WARNING** Do not hook cable to safety chain loop or hitch ball

ABCD / TOW CHARGER / 12 VOLT LEAD-ACID BATTERY INSTRUCTIONS AND INSTALLATION

READ THIS FIRST:

Check condition of battery prior to installation and prior to each trip.

1. Remove Charger and Battery from the battery case
2. Mount battery case securely to frame, jack post or other suitable location on trailer
3. Bolt Breakaway Switch\ to frame of trailer or battery case bracket
4. Disconnect trailer from tow vehicle. Install battery and charger into the battery case. Feed wires out the back, then close the top
5. Wire per schematic diagram Properly insulate all connections

6. Provide adequate air circulation when charging battery. Do not charge battery in any other container besides the supplied battery box
7. **CAUTION** Do not place batteries in close proximity to objects which can produce sparks or flames
8. Do not expose battery case to organic solvents or adhesives
9. **CAUTION** Do not attempt to disassemble batteries. Contact with sulfuric acid may cause harm
10. **CAUTION** Fasten batteries tightly and make provisions for shock absorption if exposure to shock or vibration is likely
11. **WARNING** Do not throw batteries into fire; batteries so disposed may rupture or explode

Battery Data Chart

- 12 VOLT
- Maximum charge current must be limited to 1.2 amps
- Length = 3.54" Width = 2.76" Height = 4.13"
- Terminals: Fasten Tab .187" x .032"
- Service Life:
Under normal operating conditions, 4-5 years in standby applications or 200-1000 charge/discharge cycles depending upon depth of discharge and rate of charge

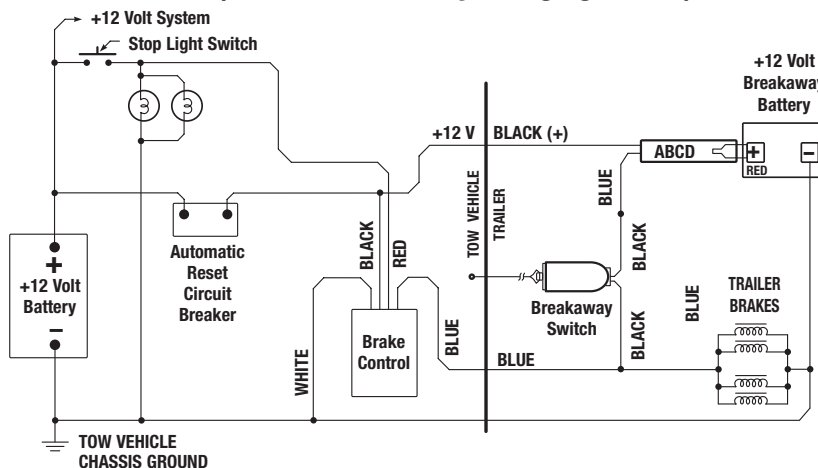

Important Facts to Remember

1. **CAUTION** Improper installation of the breakaway battery will destroy the brake control. The negative (-) terminal must attach to ground and positive (+) terminal must attach to the breakaway switch
2. **WARNING** Check your Breakaway System\ periodically to insure that wiring and connections are secure. A short or an open circuit can result in a no-brake condition
3. If excessive discharging of the breakaway battery occurs, check battery and recharge using a Heavy Duty Multi Stage/Maintenance Charger. Tekonsha charger 2024-07 is recommended for proper charging
4. If the secondary battery needs charging, current will be drawn from the tow vehicle's battery at anytime the tow vehicle is connected to the trailer. Tekonsha charger 2024-07 is recommended for proper charging
5. To only charge the breakaway battery when vehicle is running, a battery isolator may be installed in the 12 volt supply line (RED wire for tow charger)

HEAVY DUTY QUICK/MAINTENANCE MULTI STAGE CHARGER

ABCD (Accelerated Battery Charging Device)

12 Volt Sealed Lead-Acid Battery

To maximize the life of the battery the following conditions should be met:

1. Avoid over or undercharge. This is the single worst enemy of lead-acid batteries
2. Batteries should not be stored in a discharged state or at elevated ambient temperatures
3. Avoid exposing batteries to heat! Service life is shortened considerably at ambient above 30°C (86°F)
4. Due to the characteristics of this battery, after six to nine months of storage, the battery should be recharged
5. Charge the battery at the proper rate. Current should be limited to 1.2 amps or less

* Refer to Breakaway Switch Installation Instructions for complete operating instructions and cautionary statements

TRAILER BRAKE TROUBLESHOOTING

NO BRAKES

- Check for defective circuit breaker
- Check for open or shorted circuit
- Check for properly wired system, including a good ground between towing vehicle and trailer, not through trailer hitch
- Check for defective controller or loose wiring at controller
- Check brake adjustment
- Check for defective resistor or loose wiring at resistor (hydraulic units only)
- Check for defective or worn magnet(s)
- Check for damaged or worn connector between towing vehicle and trailer
- Ensure correct controller is installed

INTERMITTENT OR SURGING BRAKES

- Check for defective circuit breaker
- Check for out-of-round brake drums
- Check for properly wired system, including a good ground between towing vehicle and trailer, not through trailer hitch
- Check for defective magnets or magnet wiring
- Check for loose or worn wheel bearings

INEFFECTIVE OR WEAK BRAKES

- Insure trailer is not overloaded
- Check for loose or corroded connections
- Check for properly wired system, including a good ground between towing vehicle and trailer, not through trailer hitch
- Check for shorted circuit
- Check for proper variable resistor resistance (external resistor or controller) to trailer (for hydraulic units only)
- Worn or defective magnet
- Check brake adjustment. Check for bent backing plate flange
- Check for contaminated brake linings
- Check brake system wiring to ensure proper gauge wiring is used. Ensure wiring is not connected through the stop light circuit
- Check for worn, damaged or improper brake linings
- Check for weak or broken brake shoe return spring
- Check for defective or worn brake drums
- Check for loose axle
- Check that correct controller is installed
- Improper controller installed or settings (level or gain)

GRABBING OR LOCKING BRAKES

- Check for improperly installed flanges
- Check for contaminated brake linings (grease on linings)
- Check for weak or broken brake shoe return spring
- Check for out-of-round brake drums
- Ensure a variable resistor is installed (if necessary) (hydraulic units only)
- Check for variable resistor for proper resistance (hydraulic units only)

GRABBING OR LOCKING BRAKES (Continued)

- Check that correct controller is installed
- Rust on armature plate or brake drum
- Check for loose or worn wheel bearings
- Improper controller installed position
- Check for improper gain setting
- Check for improper boost setting

DRAGGING BRAKES

- Check brake adjustment
- Check for defective controller
- Check for improperly installed flange
- Check for corroded brake assembly
- Check for weak or broken brake shoe return spring
- Check for worn or damaged lever arm between magnet and brake shoe
- Improper controller installed position

NOISY BRAKES

- Check brake adjustment
- Check for worn brake shoes
- Check for contaminated brake linings
- Check for weak or broken shoe return springs
- Check for bent backing plate
- Check for improperly installed flange
- Check wheel bearing adjustment
- Check for worn or damaged wheel bearings
- Check for worn or damaged magnets

BRAKES LOCKED, BRAKE PEDAL NOT DEPRESSED

- Check stoplight switch adjustment
- Check for short between stoplight switch circuit and power supply circuit
- If brakes are locked when 4-way flashers are operated, check for Pulse Preventer installed in circuit
- Check breakaway switch (pulled)

UNEVEN TIRE WEAR

Possibly due to: A bent or misaligned axle, improper tire inflation. On tandem axle trailers, check voltage at front axle and rear axle with brakes applied. At times, the front axle will "lift" allowing front wheel to lock and slide. Correction can be made installing magnets with even resistance.

INOPERATIVE BREAKAWAY SWITCH

- Check for dead or weak 12-volt battery, on trailer
- Check all wiring and connections
- Check breakaway switch
- If only one brake is operating, check other magnets

TRAILER BRAKE ADJUSTMENT**

Brakes should be adjusted after the first 200 miles of operation when the brake shoes and drums have "seated" and at 3000 mile intervals, or as use and performance requires. The brakes should be adjusted in the following manner:

1. Jack up trailer and secure on adequate capacity jack stands. Follow trailer manufacturers recommendations for lifting and supporting the unit. Check that the wheel and drum rotate freely

⚠ WARNING Do not lift or support trailer on any part of the axle or the suspension system

2. Remove the adjusting hole cover from the adjusting slot on the bottom of the brake backing plate
3. With a screwdriver or standard adjusting tool, rotate the starwheel of the adjuster assembly to expand the brake shoes. Adjust the brake shoes out until the pressure of the linings against the drum makes the wheel very difficult to turn
Note: With drop spindle axles, a modified adjusting tool with about an 80 degree angle should be used

4. Then rotate the starwheel in the opposite direction until the wheel turns freely with a slight lining drag

5. Replace the adjusting hole cover and lower the wheel to the ground

6. Repeat the above procedure on all brakes

⚠ WARNING Never crawl under your trailer unless it is resting on properly placed jack stands

Follow the trailer manufacturers recommendations for lifting and supporting the unit. Do not lift or place supports on any part of the suspension system.

**Note: Trailer Brake Adjustment procedures courtesy Dexter Axle

ELECTRIC TRAILER BRAKE PART IDENTIFICATION

Manufacturer Identification

AL-KO	AL-KO levers are very flat. The brake shoes do not have anything unusual about them. AL-KO uses only one return spring at the top on both 10 and 12-inch units. With the drum off, you can tell what size the system is if the magnets have never been replaced. The 10-inch brake will have a magnet with light green wires and the 12-inch brake will have white wires.
Dexter	Dexter uses a stamp on the back of the backing plate that identifies the size of the brake. Looking on the back side you will see a triangle. Around the triangle you will see Dexter and the size (i.e. 10" X 2 1/2" or 12" X 2"). Dexter uses 2 return springs on all late model brakes; some early 12-inch brakes used a single return spring.
Hayes	Hayes brake shoe webs have a tooth that hangs down at the top and use a single return spring. Early 12-inch brakes used a dual return spring. Hayes axle is owned by AL-KO. AL-KO backing plates have been seen on some of the new Hayes axles. It looks as if they are still using the Hayes name and are starting to use AL-KO parts.
Fayette	Fayette axles are obsolete. If you find a Fayette axle tag and the trailer is worth keeping you should consider changing the axles to AL-KO or Dexter. At that time it is recommended that the spring hangers and bushings also be replaced.

Brake Size Identification

Axle Identification	Axles generally have an ID tag located on the axle crossbar that gives you the axle capacity. Check there first. This would give you a starting reference point.
Brake Drum / Shoe Size	Measuring is the same for all brands. Using a tape measure you can do a random measurement as to the diameter by measuring across the drum. If it is a 10-inch drum you will measure approximately 11 inches across for an outside measurement. The 12-inch brake will measure approximately 13 inches for an outside measurement. The drum would need to be removed to get the correct diameter and width.

Magnet Identification

Magnets can be identified by the color of the wire used

Dexter 7" X 1 1/4"	The magnets are round. Prior to April 1990 they had yellow wires, after 1990 the magnet has white wires. Replacement of magnets will need to be done in pairs and updated to the new magnet along with the lever. The early levers are weak and will bend and hang up as they wear.
Dexter 10" X 1 1/2"	The magnet wires for the early model round magnets are white and the late model oval magnets are yellow.
Hayes 10" X 1 5/8"	The magnet wires for the early model round magnets are red and the late model oval magnets are green.
AL-KO 10" X 2 1/4"	It will have light green wires.
Hayes 10" X 2 1/4"	The early model round will have red wires and the late model will have oval green wires.
Dexter 10" X 2 1/4"	It uses green wires.
Fayette 10" X 2 1/4"	The round magnets will have white wires (obsolete).
AL-KO 12" X 2"	It will have white wires.
Hayes 12" X 2"	The early model round magnet will have red wires, the late model will be an oval magnet with white wires.
Dexter 12" X 2"	It will have white wires.
Dexter Centerline 12" X 2"	The 4.5K axles will have red orange wires, the 6/7K axles will have red wires (obsolete for both sizes).

Technical information is current as of the printing of this catalog. Contact technical service for periodic updates.

BENCH TESTER INSTRUCTIONS

Many apparent brake control “failures” are the result of either faulty wiring or improper setup. The Tekonsha® Bench Tester is a test device designed to assist in determining if a brake control is working properly. This unit allows you to check a brake control for output, independent of vehicle wiring. The Bench Tester can simulate many fault conditions including open ground, short circuit, open load, and more.

To Use Bench Tester:

1. Turn off the power of the Bench Tester
2. Disconnect the brake control from the tow vehicle
3. Strip the insulation from the brake control's wires to about 1/4 inch and clip the matching color/function alligator clip of its corresponding stripped wire. **DO NOT REVERSE THE GROUND AND POWER WIRES AS YOU MAY PERMANENTLY DAMAGE THE BRAKE CONTROL**
4. Turn on the power of the Bench Tester

If the control being tested is manufactured by Tekonsha:

1. The brake control's LED should glow green if it has a bi-colored LED. The display should show a “.c” if it has a digital readout. If you have the P3 brake control, you will see the Tekonsha logo. These conditions indicate a normal load connection
2. Now set the brake control's power setting to maximum and actuate the control's manual override lever. The output voltage on the Bench Tester's voltmeter should read about 12 volts and the brake control LED display should glow bright red or show either 12 or 13. Release the manual lever. Lay the control on a flat surface and follow the directions for leveling the sensor per manufacturer's instructions
3. Depress and hold the Bench Tester's brake switch
 - A. If you are testing a proportional control, tilt the brake control by moving the front of the control up to about 30-45 degrees to fully activate the accelerometer. The voltage on the tester's meter should again read approximately 12V

- B. If the control being tested is a time-actuated device, you will see the voltage progressively “ramp-up” to the control's maximum output

NOTE: If the brake control works normally on the Bench Tester then the problem is likely in the vehicle wiring or the control setup. If you check the vehicle/trailer wiring and it appears to be normal you can refer to our product catalog.

CAUTION Tekonsha controls are built to withstand many electrical fault conditions without damage to their ultimate performance. Please be aware that some competitive products may not be capable of surviving the same punishment so care should be exercised when testing these units

CURRENT MONITOR INSTRUCTIONS

The Current Monitor is a testing device designed to assist in determining whether a tow vehicle's trailer connector has been wired properly. This unit is also an excellent diagnostic tool for the installation, setup and troubleshooting of electric trailer brake controls and may be used to level and pre-set a brake control when a trailer is not available.

To Use Current Monitor:

1. Simply plug the tester into the vehicle's trailer connector
2. Sitting in the driver's seat, position the switch (located between the amp meter & voltmeter gauges) to the “Trailer Brakes” position
3. Then position the switch labeled “Number of Axles” to the appropriate position for the trailer that is expected to be towed
4. Now, activate each function indicated by the four LED lights across the front of the test unit. Once it has been determined that all lighting connections are working properly, test the output of the vehicle's trailer brake control

NOTE:

Be sure the brake control has been properly leveled per manufacturer's instructions.

5. Depress the vehicle's brake pedal and/or engage the brake control's manual override
Brake Voltage must register at least 10 Volts. Brake Control Current Output should register at least: 12 Amps for two (2) axle trailers, or 18 Amps for three (3) axle trailers

NOTE: If the brake control will not generate 18 or more amps when used with three or more axle trailers **BE SURE** that you are using a brake control designed to deliver this performance.

If you discover a performance or wiring problem, look for one or more of the following fault conditions:

1. Improper wiring of the brake control to the vehicle's power and/or battery ground. (As with any electronic device, Horizon Global™ Electrical Products recommends grounding all brake controls directly to the vehicle battery to ensure the proper performance of the control's advanced circuitry)
2. Defective or improper wiring of the trailer connector
3. Broken, dirty or corroded trailer connector pins

4. Open brake magnets, or open, broken or shorted wiring
5. Defective brake control

WARNING This unit contains magnets, which may become hot if the unit is left connected to an energized brake control for more than a few minutes

SB0029 REV 5.0

TRAILER TESTER INSTRUCTIONS

The Trailer Tester (Part #8010) is designed to help you quickly identify problems in the wiring of the trailer such as opens, shorts, incorrect wiring, etc. This is done by testing the Left Turn, Right Turn, Tail/Marker, Brake and Back Up circuits on the trailer, by indicating the approximate amount of current used in each circuit. It will also test the voltage of the external battery connected to the trailer charge circuit (i.e. trailer battery).

NOTE: The above LED light reference numbers are used in the following instructions for all rows.

READ THIS FIRST:

Read and follow all trailer warnings and installation instructions before continuing.

- Check to see that the mating surfaces of the trailer wiring connector matches the Trailer Tester connector. All connector surfaces should be clean and free of dirt. For proper operation, make sure the trailer tester battery is fully charged. Plug the trailer connector firmly into the Trailer Tester. Be sure that the connector is fully inserted
- Turn the tester ON by pressing the ON button. All LEDs will cycle in order from top to bottom and left to right and will flash once. The tester is ready for use
- INDICATOR "LED" LIGHTS – POWER ROW ONLY (Measuring the internal battery of the tester – LED will remain lit after power has been turned on)
 - Green LEDs 2, 3 and 4 mean that the internal battery is OK to perform tests
 - Red LED 1 flashing means that the internal battery needs to be charged (see "Charging the Internal Battery" instructions below) or may need to be replaced
 - Red LED 5 indicates that the battery is faulty or overcharged. Battery may need to be replaced

4. CHARGING THE INTERNAL BATTERY

ONLY USE THE CHARGER (part no. 8008) PROVIDED WITH THE 8010 TESTER

- When the charger is plugged into the charger socket, Red LED 5 on the Power Row flashes if the unit is ON
- If the unit is OFF, no LEDs will be lit, but the battery will still charge
- The LED on the charger is RED while charging
- The LED on the charger will turn GREEN when the battery is fully charged

NOTE: The trailer tester will not function while the internal battery is being charged.

5. MANUAL AND AUTO TEST – LEFT/STOP, RIGHT/STOP, TAIL, BRAKE, BACKUP CHANNELS

AUTO TESTING (measuring the amount of load on each channel):

- Press the AUTO TEST button. When pressed, its indicator Green LED begins to flash
 - Each channel will be tested from top to bottom
 - Red LED 5 will flash as its channel is tested
 - Green LED(s) will remain ON to indicate the amount of load. (See Step 6 for LED display load readouts)
 - See Step 7 for LED fault indication readouts.
- MANUAL TESTING (visual test of trailer lighting)
- Depressing any manual button will cause that same channel to flash 11 times. This will allow you to walk around the trailer and confirm that lights are functioning properly
 - The Trailer Tester will automatically shut down after three minutes to conserve the battery
 - See Step 7 for LED fault indication readouts

NOTE: To CLEAR THE DISPLAY or TURN OFF AUTO TEST, simply press the auto test button. Then you are ready to test again.

6. HOW TO READ THE LED DISPLAY (for approximate load readouts)

LEFT/STOP, RIGHT/STOP and BACKUP Load Readouts:

- Green LED 1 represents .25 amps
- Green LED 2 represents 2 amps
- Green LED 3 represents 3 amps
- Green LED 4 represents 4 amps

TAIL Load Readout:

- Green LED 1 represents .25 amps
- Green LED 2 represents 4 amps
- Green LED 3 represents 6 amps
- Green LED 4 represents 8 amps

BRAKE Load Readout:

- Green LED 1 represents 1 axle
- Green LED 2 represents 2 axles
- Green LED 3 represents 3 axles
- Green LED 4 represents 4 axles

NOTE: All current measurements are standard to RV.

7. FAULT INDICATION (See graph below)

- Red LED(s) 5 flashing on the affected channel represents: INTERCHANNEL SHORT OR REVERSED WIRES
 - Red LED 5 solid on the affected channel represents: NO LOAD/OPEN CIRCUIT
 - Green LEDs 1-4 and Red LED 5 all solid on the affected channel represents: OVERLOAD
 - Green LEDs 1-4 and Red LED 5 flashing on the affected channel represents: SHORT CIRCUIT TO GROUND
- ## 8. EXTERNAL BATTERY (Measures the trailer battery's (if present) open circuit voltage)
- Press the EXT BAT button. When pressed, its indicator Red LED will light
 - Voltage will be displayed by lit LEDs in the Power Row only
 - Green LED's 2 and 3 mean that the external battery has normal voltage
 - Red LED 1 flashing means that the external battery needs to be charged or may need replacement
 - Red LED 5 indicates that the battery is faulty or overcharged. Battery may need replacement

NOTE: This test will automatically stop after a few seconds and the red light will go out.

NOTE: This test does not indicate the amount of charge left in the trailer battery. (Excludes breakaway battery)
